From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of The No Asshole Rule and The Asshole Survival Guide "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of Broke Millennial: Stop Scraping By and Get Your Financial Life Together

The State of the World's Biodiversity for Food and Agriculture presents the first global assessment of biodiversity for food and agriculture worldwide. Biodiversity for food and agriculture is the diversity of plants, animals and micro-organisms at genetic, species and ecosystem levels, present in and around crop, livestock, forest and aquatic production systems. It is essential to the structure, functions and processes of these systems, to livelihoods and food security, and to the supply of a wide range of ecosystem services. It has been managed or influenced by farmers, livestock keepers, forest dwellers, fish farmers and fisherfolk for hundreds of generations. Prepared through a participatory, country-driven process, the report draws on information from 91 country reports to provide a description of the roles and importance of biodiversity for food and agriculture, the drivers of change affecting it and its current status and trends. It describes the state of efforts to promote the sustainable use and conservation of biodiversity for food and agriculture, including through the development of supporting policies, legal frameworks, institutions and capacities. It concludes with a discussion of needs and challenges in the future management of biodiversity for food and agriculture. The report complements other global assessments prepared under the auspices of the Commission on Genetic Resources for Food and Agriculture, which have focused on the state of genetic resources within particular sectors of food and agriculture.

Drug overdose, driven largely by overdose related to the use of opioids, is now the leading cause of unintentional injury death in the United States. The ongoing opioid crisis lies at the intersection of two public health challenges: reducing the burden of suffering from pain and containing the rising toll of the harms that can arise from the use of opioid medications. Chronic pain and opioid use disorder both represent complex human conditions affecting millions of Americans and causing untold disability and loss of function. In the context of the growing opioid problem, the U.S. Food and Drug Administration (FDA) launched an Opioids Action Plan in early 2016. As part of this plan, the FDA asked the National Academies of Sciences, Engineering, and Medicine to convene a committee to update the state of the science on pain research, care, and education and to identify actions the FDA and others can take to respond to the opioid epidemic, with a particular focus on informing FDA's development of a formal method for incorporating individual and societal considerations into its risk-benefit framework for opioid approval and monitoring.

In Small Claims Court there's only one winner... Don't let your opponent rake you over the coals. It happened to me. Burned like toast! Now I'm fighting back the best way I know how ... by showing you how to fight and win in small claims court. If you're like most honest folks, the closest you've ever come to a courtroom battle is watching two people slug it out in front of television's Judge Judy. But chances are that you have already been wronged by someone. Like it or not, you are going to have to defend your honor and reputation in front of a judge. Here's just a small sample of what you'll discover the minute you start flipping through Brisk Justice ... * The two keys to a successful outcome in any court case (and no, hiring an attorney is not one of them). page 7 * Simple steps you can take to make the judge's life easier (helping the judge understand your case can make a huge difference in your favor). * How to rip apart your opponent's case (all perfectly legal ... \$300 an hour attorneys do it every day). pages 58-60 * Five good reasons why you might want to settle out of court. (Hint: Even if you win the court battle, you could lose the war in other ways.) Read pages 96-99 to avoid making a big

mistake! * The one thing you must never do in a court case (guaranteed ... if you miss this little detail, you'll go down in flames). The information in Brisk Justice is the super powerful ammunition you'll need to win in Small Claims Court. I believe in this book so much I proudly offer a money-back guarantee: You'll win your Small Claims Court case or this book is FREE. Just send me a message. I'll refund your money. Done and done. No questions asked. If you're being sued, the clock is already ticking. Get an answer to the court before the deadline or you lose. Here's more ... * Stupid little mistakes to avoid like the plague (make just one and you'll lose the case, hands down). * When and why you should bring your case to court even if the other party decides to settle at the last minute. Don't miss this little "insurance policy" on page 117. * Get all the lingo down pat - 19 legal terms you need to understand (they're not difficult ... just important). pages 13-16 * Bad checks are a pain in the butt. In small claims court you can get the bum to pay the original amount of the check plus additional money for damages ... if you know how to do this. Flip to page 88. * The only time you should ever raise an objection to your opponent's testimony and why you should never say "objection, your honor!" It's on page 153. * Verbal promises are contracts enforceable by law, but what I reveal about what's said after a written contract is signed will shock you! (Make sure you read this or you won't have a legal leg to stand on.) pages 62 and 69 * If you've been wronged you'll need to write a "demand letter" to the yellow dog. On pages 104-113 I show you how to write a legal and effective demand letter ... even if you flunked your creative writing course. I also show you how to write a killer response if you receive a demand letter. I include real samples. Way better than fill-in-the-blanks. * Why even a written contract is no guarantee you've got a winning case (it's a simple matter of law you need to know now!). If you're lucky, you'll be able to settle your differences the old fashioned way . with a handshake and an apology. Maybe it'll cost you a few bucks in the process. That's a BIG maybe. You see, today we live in a world where people end up in court over the least little thing. And once it gets to court it becomes a really big thing. If you're not up for the challenge, you could lose your shirt ... as well as your pride and your dignity. There's only one winner in a court battle. I'm here to help you come out on top.
