Marriage-shy Colonel Lord Aidan Bedwyn journeys to Ringwood Manor to honor a dying soldier's request to protect his sister, Eve, from scheming relatives and comes face to face with a young woman who will turn his life upside down.

No play in the modern theatre has so captured the imagination and heart of the American public as Tennessee Williams's The Glass Menagerie. Menagerie was Williams's first popular success and launched the brilliant, if somewhat controversial, career of our pre-eminent lyric playwright. Since its premiere in Chicago in 1944, with the legendary Laurette Taylor in the role of Amanda, the play has been the bravura piece for great actresses from Jessica Tandy to Joanne Woodward, and is studied and performed in classrooms and theatres around the world. The Glass Menagerie (in the reading text the author preferred) is now available only in its New Directions Paperback edition. A new introduction by prominent Williams scholar Robert Bray, editor of The Tennessee Williams Annual Review, reappraises the play more than half a century after it won the New York Drama Critics Circle Award: "More than fifty years after telling his story of a family whose lives form a triangle of quiet desperation, Williams's mellifluous voice still resonates deeply and universally." This edition of The Glass Menagerie also includes Williams's essay on the impact of sudden fame on a struggling writer, "The Catastrophe of Success," as well as a short section of Williams's own "Production Notes."

The cover features the classic line drawing by Alvin Lustig, originally done for the 1949 New Directions edition.

When George Bernard Shaw wrote Pygmalion more than a half century ago, no one could have predicted his play would eventually be converted into one of the great musicals of our time -- My Fair Lady -- and an Academy Award<sup>3</sup>-winning motion picture. Generations of readers and theatergoers have found relevance in Shaw's story of speech therapist Henry Higgins, who successfully transforms Liza Doolittle, a "draggled-tailed guttersnipe," into a darling of high society who momentarily upsets his hard-edged reserve. The extraordinary wit of this master dramatist of the twentieth century cuts away at the artificiality of class distinctions to reveal that human clay can be molded into wondrous shapes. Washington Square Press' Enriched Classics present the great works of world literature enhanced for the contemporary reader. This edition of Pygmalion includes the analysis of Eric Bentley from his book Bernard Shaw. Essential biographical and historical background is provided, together with notes, critical excerpts, and suggestions for further reading. A unique visual essay of period illustrations and photographs helps bring the play to life.

A new selection for the NEA's Big Read program A compact selection of Poe's greatest stories and poems, chosen by the National Endowment for the Arts for their Big Read program. This selection of eleven stories and seven poems contains such famously chilling masterpieces of the storyteller's art as "The Tell-tale Heart," "The Fall of the House of Usher," "The Cask of Amontillado," and "The Pit and the Pendulum," and such unforgettable poems as "The Raven," "The Bells," and "Annabel Lee." Poe is widely credited with pioneering the detective story, represented here by "The Purloined Letter," "The Mystery of Marie Roget," and "The Murders in the Rue Morgue." Also included is his essay "The Philosophy of Composition," in which he lays out his theory of how good writers write, describing how he constructed "The Raven" as an example.

*The great epic of Western literature, translated by the acclaimed classicist Robert Fagles A Penguin Classic Robert Fagles, winner of the PEN/Ralph Manheim Medal for Translation and a 1996 Academy Award in Literature from the American Academy of Arts and Letters, presents us with Homer's best-loved and most accessible poem in a stunning modern-verse translation. "Sing to me of the man, Muse, the man of twists and turns driven time and again off course, once he had plundered the hallowed heights of Troy." So begins Robert Fagles' magnificent translation of the Odyssey, which Jasper Griffin in the New York Times Book Review hails as "a distinguished achievement." If the Iliad is the world's greatest war epic, the Odyssey is literature's grandest evocation of an everyman's journey through life. Odysseus' reliance on his wit and wiliness for survival in his encounters with divine and natural forces during his ten-year voyage home to Ithaca after the Trojan War is at once a timeless human story and an individual test of moral endurance. In the myths and legends retold here, Fagles has captured the energy and poetry of Homer's original in a bold, contemporary idiom, and given us an Odyssey to read aloud, to savor, and to treasure for its sheer lyrical mastery. Renowned classicist Bernard Knox's superb introduction and textual commentary provide insightful background information for the general reader and scholar alike, intensifying the strength of Fagles's translation. This is an Odyssey to delight both the classicist and the general reader, to captivate a new generation of Homer's students. *This volume contains George Bernard Shaw's collection of short stories entitled "The Black Girl in Search of God, and Some Lesser Tales". It was first published in 1934. "The Black Girl In Search Of God" is a short story that follows a young girl who is newly converted to Christianity - and who embarks on a literal search for God. On her way, she comes into contact with a number of religious figures, each trying to convert her to their own faiths. This wonderfully sardonic allegory highlights Shaw's unorthodox ideas on faith and race, and was highly controversial when first published. George Bernard Shaw (1856 - 1950) was an Irish playwright who co-founded of the London School of Economics. Many vintage texts such as this are increasingly scarce and expensive, and it is with this in mind that we are republishing this book now, in an affordable, high-quality, modern edition. The text of George Bernard Shaw's Pygmalion.

From the author of How We Die, the extraordinary story of the development of modern medicine, told through the lives of the physician-scientists who paved the way. How does medical science advance? Popular historians would have us believe that a few heroic individuals, possessing superhuman talents, lead an unselfish quest to better the human condition. But as renowned Yale surgeon and medical historian Sherwin B. Nuland shows in this brilliant collection of linked life portraits, the theory bears little resemblance to the truth. Through the centuries, the men and women who have shaped the world of medicine have been not only very human, but also very much the products of their own times and places. Presenting compelling studies of great medical innovators and pioneers, Doctors gives us a fascinating history of modern medicine. Ranging from the legendary Father of Medicine, Hippocrates, to Andreas Vesalius, whose Renaissance masterwork on anatomy offered invaluable new insight into the human body, to Helen Taussig, founder of pediatric cardiology and co-inventor of the original "blue baby" operation, here is a volume filled with the spirit of ideas and the thrill of discovery.

Now, in her masterly, haunting new novel, she recreates a seminal moment in modern African history: Biafra's impassioned struggle to establish an independent republic in Nigeria during the 1960s. With the effortless grace of a natural storyteller, Adichie weaves together the lives of five characters caught up in the extraordinary tumult of the decade. Fifteen-year-old Ugwu is houseboy to Odenigbo, a university professor who sends him to school, and in whose living room Ugwu hears voices full of revolutionary zeal. Odenigbo's beautiful mistress, Olanna, a sociology teacher, is running away from her parents' world of wealth and excess; Kainene, her urbane twin, is taking over their father's business; and Kainene's English lover, Richard, forms a bridge between their two worlds. As we follow these intertwined lives through a military coup, the Biafran secession and the subsequent war, Adichie brilliantly evokes the promise, and intimately, the devastating disappointments that marked this time and place. Epic, ambitious and triumphantly realized, Half of a Yellow Sun is a more powerful, dramatic and intensely emotional picture of modern Africa than any we have had before.*

Flamboyant and controversial, Oscar Wilde was a dazzling personality, a master of wit, and a dramatic genius whose sparkling comedies contain some of the most brilliant dialogue ever written for the English stage. Here in one volume are his immensely popular novel, The Picture of Dorian Gray; his last literary work, "The Ballad of Reading Gaol," a product of his own prison experience; and four complete plays: Lady Windermere's Fan, his first dramatic success, An Ideal Husband, which pokes fun at conventional morality, The Importance of Being Earnest, his finest comedy, and Salomé, a portrait of uncontrollable love originally written in French and faithfully translated by Richard Ellmann. Every selection appears in its entirety—a marvelous collection of outstanding works by the incomparable Oscar Wilde, who's been aptly called "a lord of language" by Max Beerbohm.

An idealistic professor transforms an unsophisticated Cockney girl into a refined young lady in this classic drama set in turn-of-the-century London.

Since publication in 1979 Isabel Rivers' sourcebook has established itself as the essential guide to English Renaissance poetry. It: provides an account of the main classical and Christian ideas, outlining their meaning, their origins and their transmission to the Renaissance; illustrates the ways in which Renaissance poetry drew on classical and Christian ideas; contains extracts from key classical and Christian texts and relates these to the extracts of the English poems which draw on them; includes suggestions for further reading, and an invaluable bibliographical appendix.

David Crystal's classic English as a Global Language considers the history, present status and future of the English language, focusing on its role as the leading international language. English has been deemed the most 'successful' language ever, with 1500 million speakers internationally, presenting a difficult task to those who wish to investigate it in its entirety. However, Crystal explores the subject in a measured but engaging way, always backing up observations with facts and figures. Written in a detailed and fascinating manner, this is a book written by an expert both for specialists in the subject and for general readers interested in the English language.

Pygmalion Reconsidered

Pygamalion tells the story of Henry Higgins, a professor of phonetics, who makes a bet with his friend Colonel Pickering that he can successfully pass off a Cockney flower girl, Eliza Doolittle, as a refined society lady by teaching her how to speak with an upper class accent and training her in etiquette. In the process, Higgins and Doolittle grow close, but she ultimately rejects his domineering ways and declares she will marry Freddy Eynsford-Hill-- a young, poor gentleman.

This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com. What is the relationship between theory and practice in the creative arts today? In Critical Practice, Martin McQuillan offers a critical interrogation of the idea of practice-led research. He goes beyond the recent vocabulary of research management to consider the more interesting question of the emergence of a cultural space in which philosophy, theory, history and practice are becoming indistinguishable. McQuillan considers the work of a number of writers and thinkers who cross the divide between theoretical and creative practice, including Alain Badiou and Terry Eagleton, and the longer tradition of 'theory-writing' that runs through the work of Hélène Cixous, Roland Barthes and Louis Althusser. His aim is to elucidate the contemporary ramifications of a relationship that has been contested throughout the long history of philosophy, from Plato's dialogues to Derrida's 'Envois'. Frankenstein and Its Classics is the first collection of scholarship dedicated to how Frankenstein and works inspired by it draw on ancient Greek and Roman literature, history, philosophy, and myth. Presenting twelve new essays intended for students, scholars, and other readers of Mary Shelley's novel, the volume explores classical receptions in some of Frankenstein's most important scenes, sources, and adaptations. Not limited to literature, the chapters discuss a wide range of modern materials-including recent films like Alex Garland's Ex Machina and comics like Matt Fraction's and Christian Ward's Ody-C-in relation to ancient works including Hesiod's Theogony, Aeschylus's Prometheus Bound, Ovid's Metamorphoses, and Apuleius's The Golden Ass. All together, these studies show how Frankenstein, a foundational work of science fiction, brings ancient thought to bear on some of today's most pressing issues, from bioengineering and the creation of artificial intelligence to the struggles of marginalized communities and political revolution. This addition to the comparative study of classics and science fiction reveals deep similarities between ancient and modern ways of imagining the world-and emphasizes the prescence and ongoing importance of Mary Shelley's immortal novel. As Frankenstein turns 200, its complex engagement with classical traditions is more significant than ever.

As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of chanson courtoise, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

**A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. Is That a Fish in Your Ear? ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.**

**Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.**

**The Code of Terpsichore****Frankenstein and Its Classics****A Doll's House****Half of a Yellow Sun**

Analyzes the art of reading and suggests ways to approach literary works, offering techniques for reading in specific literary genres ranging from fiction, poetry, and plays to scientific and philosophical works.

Why has the myth of Pygmalion and his ivory statue proved so inspirational for writers, artists, philosophers, scientists, and directors and creators of films and television series? The 'authorised' version of the story appears in the epic poem of transformations, Metamorphoses, by the first-century CE Latin poet Ovid: in which the bard Orpheus narrates the legend of the sculptor king of Cyprus whose beautiful carved woman was brought to life by the goddess Venus. Focusing on screen storylines with a Pygmalion subtext, from silent cinema to Buffy the Vampire Slayer and Lars and the Real Girl, this book looks at why and how the made-over or manufactured woman has survived through the centuries and what we can learn about this problematic model of 'perfection' from the perspective of past and the present. Given the myriad representations of Ovid's myth, can we really make a modern text a tool of interpretation for an ancient poem? This book answers with a resounding 'yes' and explains why it is so important to give antiquity back its future.

Two plays deal with an insecure man who attempts to train the "perfect" wife, docile and ignorant, and a domineering woman who upsets her husband, children, and household

"I Think That Before All Else I Am a Human Being, Just As Much As You Are—Or At Least I will Try to Become One." –Henrik Ibsen in A Doll's House A Doll's House, the three-act play by Henrik Ibsen, which premiered at the Royal Theatre in Copenhagen, Denmark in 1879, is one of the most well-known and frequently performed of modern plays. It richly displays the genius with which Ibsen pioneered modern, real-istic prose drama. The play is significant for the way it deals with the fate of the central character Nora, a married woman, who at that time in Norway lacked opportunities for self-fulfillment in a male-dominated world. Ibsen was inspired by the belief that "a woman cannot be herself in modern society," since it is "an exclusively male society, with laws made by men and with prosecutors and judges who assess feminine conduct from a masculine standpoint." \ The play aroused great controversy at the time, as it concludes with Nora leaving her husband and children because she wants to discover herself. The outrage went far beyond the theater to the world of news-papers and society. In Nora, Ibsen epitomized the human struggle against the humiliating constraints of social conformity. Even today many agree that the theme of the play is the need of every individual to be able to find out the kind of person he or she is and to be allowed to become that person.

It focuses on the body in performance (especially in a rhetorical context), the erotic body, the dressed body, pagan and Christian bodies as well as divine bodies and animal bodies. The articles draw on a range of evidence and approaches, cover a broad chronological and geographical span, and explore the ways bodies can transgress and dissolve, as well shore up, or even create, boundaries and hierarchies.**
