coordinating or integrating school bus and public transportation services in non-urban areas. The report identifies and discusses issues associated with such coordination or integration, and provides 13 case studies of communities that have successfully coordinated or integrated some aspect of school and public transportation services. The report also provides an implementation guide that suggests "next steps" for non-urban communities seeking to give serious consideration to the coordination or integration of school and public transportation services.

I've been following advances in Electric Cars for nearly 50 years and advances in Hybrids for 15. I started following Electric Cars while writing a paper in History Class in 7th grade on current events. I started following Hybrids when the Honda Insight was released in 1999. I also started following Fuel Cell Cars about that same time. The Xybrid expands on Hybrid technologies, discussing new, potential, and conceptual technologies. If you're interested in cars, and especially if you're interested in Hybrids and Electric Cars, then this book is for you, whether you understand how cars work or not. Rating G; Reading Level Medium 8th Grade; Longest Word: Experimentation
