ÊIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight polesÑthat is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

Finally! Board member orientation truly simplified. Serving on a nonprofit board can be an incredibly rewarding experience for the properly prepared board member. This book is for the generous and busy people who agree to give of their time and talents by serving on nonprofit boards. Nonprofit boards often fail to do a good job of board member orientation for a variety of reasons. It takes a significant amount of time and effort to plan and conduct quality board member orientation programs, and every time a new board member arrives, it's time to do it again! Because of the challenges associated with providing quality board member orientation, many nonprofit organizations do not do it at all, leaving their board members to wing it. This book provides help and support to the truly great men and women serving on nonprofit boards whose service makes a positive difference in the lives of countless people every day. This book is a concise and appropriately comprehensive guide to nonprofit board service designed especially for new board members. It is a quick read, (about one hour), yet it addresses with accuracy the most significant elements of board service, such as mission, responsibility, duty, risk, liability, and board meeting dynamics. Hooey Alerts! Watch for Hooey Alerts! where the author identifies and dispels common myths and legends about nonprofit board service. There are many sources of false or misleading information about the nonprofit board service environment. A perfect example is the often vaguely-worded and intimidating assertion or implication that the Sarbanes-Oxley Act passed by Congress in 2002 applies to nonprofit organizations in a manner similar to how it applies to publicly-traded companies. (It does not.) Reviews "This book is the perfect guide for every nonprofit board

member! Concise, highly informative, and loaded with nuggets of wisdom, it's a must read that will take board members to the next level of successful board governance." -- J. Todd Chasteen, General Counsel, Samaritan's Purse "Mike Batts has put his quarter century of advising and serving on nonprofit boards to good use in this accurate and easy-to-read book. In addition to describing major principles of nonprofit law and governance, the book provides helpful questions to guide board members in understanding the practical applications of the concepts discussed. While geared primarily toward helping new board members get up to speed quickly, it should also help veteran board members discharge their stewardship roles wisely and efficiently." -- Chuck Hartman, Associate Professor of Business Law and Accounting, Cedarville University "This book, Board Member Orientation, is exactly what a busy volunteer board member needs. The board member's duties are presented in a clear and concise manner from the perspective of someone who has been around many boards. With a focus on those issues that are most common and/or most important, it is perfect for board member orientation and for quick reference reminders for the experienced board member." -- Doug Starcher, Partner, Broad & Cassel "This book provides clear, no-nonsense guidance on the basic issues for new nonprofit board members. Using this book for board member orientation will ensure your organization has communicated fundamental governance issues and will assist the board in determining risk management strategies." -- Dan Busby, President, ECFA *** The Simple Board Member Orientation Process Using This Book: 1.Your board members read Chapters 1-9 of the book, which will provide them with insights regarding the key elements of nonprofit board service. 2.You provide the board members with copies of the documents described in Chapter 10 related to your organization. 3.You meet with your board members to discuss the unique attributes of your organization following the discussion questions provided in Chapter 10. Done!**

Life is full of challenges. There are times when you will feel like you've done everything to the best of your ability, but in the end, it still didn't work. Have you ever wondered why? Was it because life is unfair, or was it because you were actually "expecting the worst"? Have you considered expecting the best instead? You may think, "Of course, I considered great things to happen!," but science says otherwise. People who are preparing for something are found to be thinking more of the bad things that could happen than the positive outcomes. More often than not, thinking about unfortunate events actually make it happen. Hoping that you will not be late for a meeting will cause you to be late. Thinking of saying a complex sentence inappropriately actually makes you tongue-tied. Do you know why? It is because your thoughts have the power to change things and events. In this book, you will learn how to master positive thinking by learning about the power of thought and the Law of Attraction. With these core principles, this book will teach you ways on how to think positively by hacking your body, your speech, and your actions. You will know about scientific studies that proved the benefits of positive thinking. You will also be introduced to the successful life teachers who used positivity to become successful. Finally, you will be provided with step-by-step guides on how you can do it yourself. You are on your way to becoming a positive person who will enjoy living a good life by spreading the positive vibrations to the world! After downloading this book you will learn... Chapter 1:

The Power of Thought Chapter 2: Mind over Body: The Power of Expectation Chapter 3: Mind over Matter: The Power of Intention Chapter 4: Mind over Society: The Power of Mental Communication Chapter 5: The Law of Attraction Chapter 6: Become a Positive Thinker: Start with Your Body Chapter 7: Become a Positive Speaker Chapter 8: Become a Positive Doer And Much, much more!

What's so tough about building a solar collector? Most people think it's time they tried to do their part at lowering their monthly utility bills or curbing climate change, but they suspect that their dream of building a hot water solar collector is more than they can handle. In some cases, this may be true. However, if you have already performed your own plumbing repairs, this project may not be as difficult as and more affordable than you imagine. This down-to-earth guide can show you just how possible such a project can be. With simple step-by-step

instructions, fifty-six clear illustrations, and a complete parts list from a major hardware store, you may fulfill your dream of going solar sooner than you think. This is an excellent book with clear and well thought out plans. With a little investment of time and the parts listed, you will have a worthy product that will save money and provide satisfaction. A. J. Shea I am very impressed with the plans for this solar hot water system. I think it was easy to understand and complete with material lists and where to get them. I am looking forward to building one soon. Dean Cardin For anyone wanting to build their own solar collector, this is a great tool. Like others have said, follow the directions with respect to the materials specified. BigBear

Waltzing Australia was born out of a dream-and a journey. After walking away from her corporate career, Cynthia Clampitt headed to Australia, to start over, to write, and to test the limits of what she could do. Waltzing Australia recounts that joyous adventure. It is a story about change and about making dreams come true. But more than that, it is about Australia: the history, legends and art, both European and Aboriginal; the beauty, the challenge, the people, the land. From Sydney to Perth, Tasmania to Darwin, tropics to desert, city to wilderness, Clampitt carries the reader along on an exhilarating grand tour of a fascinating country. With a writing style reminiscent of Annie Dillard, she captures the essence of the land Down Under and invites others to fall in love with Australia. Easy Walking trails in south central MA, 16 towns, 50+ trails. Information includes maps to trailheads, directions, parking info, whether dogs are welcome at each location, features of interest to enjoy along each trail and more.

The International Space Station (ISS) is a great international, technological, and political achievement. It is the latest step in humankind's quest to explore and live in space. The research done on the ISS may advance our knowledge in various areas of science, enable us to improve life on this planet, and give us the experience and increased understanding that can eventually equip us to journey to other worlds. As a result of the Station's complexity, few understand its configuration, its design and component systems, or the complex operations required in its construction and operation. This book provides high-level insight into the ISS. The ISS is in orbit today, operating with a crew of three. Its assembly will continue through 2010. As the ISS grows, its capabilities will increase, thus requiring a larger crew. Currently, 17 countries are involved in this venture. The sophisticated procedures required in the Station's construction and operation are presented in Amazing 3D Graphics generated by NASA 104 pages of spectacularly detailed color graphics the Space Station as you've never seen it before!

Author Jasmin Rogg draws from her own extensive experience as a psychotherapist, addiction and recovery group facilitator, and her own personal struggle with substance abuse and long-term sobriety. She compiled a collection of writings meant to offer inspiration and information for recovery and change. After introducing readers to her own story and her path through addiction and recovery, Rogg goes on to write with honesty and compassion about the issues at the heart of substance abuse and recovery. She shares how embracing Buddhism's teachings of mindfulness practice help foster emotional regulation and healing—two important aspects of maintaining ongoing sobriety. She does not shy away from difficult topics, tackling issues such as abuse, trauma, love, attachment, and suffering, all while shining a light on the things we tell ourselves and about why we do what we do. *Waking Up Sober* inspires insight and understanding, and includes adverse childhood experiences and relational issues as underlying factors for self-destructive behavior patterns. Rogg intersperses her own poems throughout the book, which ultimately serve to ground the topics in humanity.

In *It's Not the Cookie, It's the Bag*, blind man Maxwell Ivey Jr shares the ups and downs of his weight loss --- and weight maintenance --- journey to good health. He also reveals the exact methods he uses in his day-to-day life to achieve and maintain his phenomenal success. Going from 512 pounds to a 250-pound, lean, mean machine in just two years, Max tells you how YOU can replicate his success and become the person you want to be... the person you were meant to be... the person you deserve to be... one small step at a time. So what are you waiting for? Get started today! Use Max's methods to become happy for the rest of your life! After all, if a blind man can do this, why can't you?
