Whether you're an armchair tourist, are visiting Rome for the first time, or are a veteran of the city's charms, travelers of all ages and stages will benefit from this fascinating guidebook to Rome's ancient city. Aicher's commentary orients the visitor to each site's ancient significance. Photographs, maps, and floorplans abound, all making this a one-of-a-kind guide. A separate volume of sources in Greek and Latin is available for scholars who want access to the original texts.

Mathematics Across Cultures: A History of Non-Western Mathematics consists of essays dealing with the mathematical knowledge and beliefs of cultures outside the United States and Europe. In addition to articles surveying Islamic, Chinese, Native American, Aboriginal Australian, Inca, Egyptian, and African mathematics, among others, the book includes essays on Rationality, Logic and Mathematics, and the

transfer of knowledge from East to West. The essays address the connections between science and culture and relate the mathematical practices to the cultures which produced them. Each essay is well illustrated and contains an extensive bibliography. Because the geographic range is global, the book fills a gap in both the history of science and in cultural studies. It should find a place on the bookshelves of advanced undergraduate students, graduate students, and scholars, as well as in libraries serving those groups.

*two-color embroidery motifs Zakka Embroidery presents designs that are an elegant blend of Japanese and Scandinavian style. The motifs and patterns are spare and graphic, yet softened with organic shapes and imagery drawn from nature. The result is embroidery that evokes a personal feel and conjures a sense of nostalgia. The task of picking just the right palette for an embroidery project can be overwhelming to beginners and experienced stitchers alike. But when you take away that challenge, a whole world of texture and style becomes available. Here Japanese designer Yumiko Higuchi presents embroidery motifs to be stitched using just one or two colors—creating patterns and designs that are more evocative for their form than for a play of colors. Each embroidery design is paired with a simple craft project, transforming the stitched fabric into a functional object, including pouches, pillows, aprons, and more. With beautiful photographs, clear step-by-step instructions, and detailed diagrams, Zakka Embroidery will be an inspiring guide for those new to embroidery and a delightful experience for those experienced with needle and thread.*

*Machine-quilting pro Lori Kennedy has taught hundreds of quilters how to start and, more importantly, how to improve their machine quilting. Now she's packed her vast knowledge, and more than 150 up-close photos, into 25 hands-on lessons you can turn to anytime you need guidance. Each lesson has a practice session and questions to help you evaluate what worked and where you may need a bit more practice. Whether you stitch your way through a lesson a day or save them for weekend quilting time, you'll soon be building skills and confidence, and quilting your projects with ease. You'll learn: Why it's important to start doodling (page 19) How to prevent drag or resistance when quilting a big quilt (page 44) When to mark, and ways to avoid marking pitfalls (page 72) How to create focal points and contrast with your quilting (page 116)*

Alice Keppel, the married lover of Queen Victoria's eldest son and great-grandmother to Camilla Parker-Bowles, was a key figure in Edwardian society. Hers was the acceptable face of adultery. Discretion was her hallmark. It was her art to be the king's mistress and yet to laud the Royal Family and the institution of marriage. Formidable and manipulative, her attentions to the king brought her wealth, power, and status. Her daughter Violet Trefusis had a long tempestuous affair with the author and aristocrat Vita Sackville-West, during which Vita left her husband and two sons to travel abroad with Violet. It was a liaison that threatened the fabric of Violet's social world, and her passion and recalcitrance in pursuit of it pitted her against her mother and society. From memoirs, diaries, and letters, Diana Souhami portrays this fascinating and intense mother/daughter relationship in *Mrs. Keppel and Her Daughter*. Her story of these women, their lovers, and their lovers' mothers, highlights Edwardian - and contemporary - duplicity and double standards and goes to the heart of questions about sexual freedoms.

Sew circles around your quilting friends with six classic projects that simplify complex-looking circular designs, such as Dresden Plate and Mariner's Compass. Choose from four quilts, plus a pillow and table runner.

Internationally-known, award-winning quilter Philippa Naylor has penned an autobiographical book detailing her extraordinary career as a quilt artist and teacher. Philippa is known for her intricately designed quilts and her fans will find that same kind of meticulous detail in *Quilting in the Limelight!* Inside the pages of this vibrant, full-color book she shares all her secrets that will inform, inspire and instruct quilters. The personal history Philippa recounts provides great insight into her development as a quilt artist. As a child in England fascinated with sewing clothes for her dolls, Philippa grew up to enter the fast-paced, high-pressure world of fashion design. When she took quilting class on the suggestion of a friend, she never looked back. The author chronicles her journey from making quilts for fun, for herself, to making larger, more labor-intensive pieces to be exhibited. As she explains, it all evolved organically. From using someone else's traditional patterns to creating her own unique patterns, she moved on to creating templates for each pieced section of her quilts. Philippa's strong, dramatic quilt designs attract attention from a distance but also draw viewers in to see the fine work involved. As the bright detail.
