The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie, "An amazingly detailed account of fighting in Iraq—a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he extracted with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.

With over thirty thousand occupations currently in existence, workers today face a bewildering array of careers from which to choose, and upon which to center their lives. But there is more at stake than just a paycheck. For too long, work has driven a wedge between families, dividing husband from wife, father from son, mother from daughter, and family from home. Building something that

will last requires a radically different approach than is common or encouraged today. In Durable Trades, Groves uncovers family-centered professions that have endured the worst upheavals in history—including the Industrial Revolution--and continue to thrive today. Through careful research and thoughtful commentary, Groves offers another way forward to those looking for a more durable future.

"Our society wants to blame everyone for everything. We blame political parties. We blame our kids. We blame our parents. We blame our bosses. Or the economy. Or our mother in law. Much of our life is out of our control. There is one thing we can control: We can control us. We can control whether or not we put ourselves on a path towards becoming the best 'us' that we can possibly be. In

Chasing Better, Corey Baker will talk about some key areas of your life that are absolutely within your control. You will laugh. You will be inspired. You will identify a few areas of your life where you can Chase Better and begin the process of becoming the you that you have always wanted to be."--back cover.

Why do we keep getting the same jobs, taking on the same relationships, and finding ourselves in the same emotional traps? Dr. Joe Dispenza not only teaches why people tend to repeat the same negative behaviors, he shows how readers can release themselves from these patterns of disappointment. With the dynamic combination of science and accessible how-to, Dispenza teaches how to use the

most important tool in ones body and life—the brain. Featured in the underground smash hit of 2004, “What the Bleep Do We Know?,” Dispenza touched upon the brain’s ability to become addicted to negative emotions. Now, in his empowering book Evolve Your Brain he explains how new thinking and new beliefs can literally rewire one’s brain to change behavior, emotional reactions, and habit forming patterns. Most people are unaware of how addicted they are to their emotions, and how the brain perpetuates those addictions automatically. In short, we become slaves to our emotional addictions without even realizing it. By observing our patterns of thought, and learning how to ‘re-wire the brain’ with new thought patterns, we can break the cycles that keep us trapped and open ourselves to new possibilities for growth, happiness and emotional satisfaction. Key Features A radical approach to changing addictive patterns and bad habits. Based on more than twenty years of research. Bridges the gap between science, spirituality and self-help—a formula that has proven success. Easy to understand and written for the average reader.

The comic book author delves into his childhood, which he spent among Jewish immigrants in Cleveland, to identify the roots of his fear of failure, an affliction that plagued him until the time of his death.

Wall Street Journal best-selling author *Jon Acuff* reveals the steps to getting unstuck and back onto the path of being awesome. Over the last 100 years, the road to success for most everyone has been divided into five stages that mirror the decades of working life: Your 20s are a period of Learning. This is the decade of trying a thousand things, exploring a multitude of interests, and discovering what really motivates you. Your 30s are a period of Editing. This is the decade of sorting out interests, where you discover what you really care about and who you really are. Your 40s are a period of Mastering. This is the decade of narrowing focus, honing skill sets, and becoming an expert in your field. Your 50s are a period of Harvesting. This is the decade of reaping the benefits of good decisions and enjoying the highest income-earning period in a career. Your 60s are a period of Guiding. This is the decade of mentoring, training, and encouraging others on their own road to success. Every successful person has followed these steps regardless of their occupation. But three things have changed the path to success and erased the decades associated with them: Finish lines are dead – Boomers are realizing that a lot of the things they were promised aren't going to materialize, and they have started second and third careers. Anyone can play – Technology has given access to an unprecedented number of people who are building online empires and changing their lives in ways that would have been impossible years ago. Hope is boss – The days of “success first, significance later,” have ended. A new generation doesn't want to change the world eventually; they want to change it now through the wells they kickstart in Africa and the TOMS they wear on their feet. The value system has been flipped upside down. The result is that you've got an entire generation pushing down to start over, another generation pushing up to start for the first time, and in the middle of this collision, the tools to actually change the world. Experience years now trump chronological age. And while none of the five stages can be skipped, they can be shortened and accelerated. There are only two paths in life: average and awesome. The average path is easy because all you have to do is nothing. The awesome path is more challenging, because things like fear only bother you when you do work that matters. The good news is Start gives readers practical, honest, actionable insights to be more awesome, more often. It's time to punch fear in the face, escape average, and do work that matters. It's time to Start.

We are lucky. For most of us, famine, plague, economic depression, and other life-threatening catastrophes are the stuff of history books. We're living in an era with the highest-ever rates of longevity, education, and wealth. Cars drive us home as our phones entertain us before we arrive to food delivered to the front door. We have it all! But there's just one side effect. We no longer have the tools to handle failure...or even perceived failure. When we fall, we lie on the sidewalk crying. When we spill, we splatter. When we crack, we shatter. We are turning into an army of porcelain dolls. A rude email from the boss means calling in sick. Only two likes on our post means we don't have friends. Cell phones show us we're never good enough. Yesterday's butterflies are tomorrow's panic attacks. Record numbers of students have clinical anxiety. And what about depression, loneliness, and suicide? All rising! What do we desperately need to learn? RESILIENCE. And we need to learn it fast. Read You Are Awesome to learn: • The single word that keeps your options open after failure • What every commencement speech gets wrong • 3 ways to dramatically accelerate your ability to learn and adapt • The 2-minute morning practice that helps eliminate worry • Why you need an Untouchable Day (and how to get one) • and much, much more... "A lively and inspiring guidebook for anyone who wants to make the jump from normal to extraordinary." —Tony Robbins, #1 New York Times bestselling author of Unshakeable and MONEY: Master the Game An inspirational book that lays out the "Jump Curve"—four steps to wholeheartedly pursuing the career of your dreams—through experiences from a variety of people who have jumped and never looked back When Mike Lewis was twenty-four and working in a prestigious corporate job, he eagerly wanted to leave and pursue his dream of becoming a professional squash player. But he had questions: When is the right time to move from work that is comfortable to a career you have only dared to dream of? How have other people made such a jump? What did they feel when making that jump—and afterward? Mike sought guidance from others who had "jumped," and the responses he got—from a banker who started a brewery, a publicist who became a Bishop, a garbage collector who became a furniture designer, and on and on—were so clear-eyed and inspiring that Mike wanted to share what he had learned with others who might be helped by those stories. First, though, he started playing squash professionally.

The right book at the right time. When to Jump offers more than forty heartening stories (from the founder of Bonobos, the author of The Big Short, the designer of the Lyft logo, the Humans of New York creator, and many more) and takeaways that will inspire, instruct, and reassure, including the ingenious four-phase Jump Curve. Nikki and her six young siblings lived in complete fear each day of their lives as Colby's abuse became more intense. The most difficult circumstance of Nikki's life would ultimately place Colby right in her face as she was forced to recognize what she should do---forgive.

From the Pulitzer Prize-winning bestselling author of Alexander Hamilton, the inspiration for the hit Broadway musical, comes this definitive biography of the Warburgs, one of the great German-Jewish banking families of the twentieth century. Bankers, philanthropists, scholars, socialites, artists, and politicians, the Warburgs stood at the pinnacle of German (and, later, of German-American) Jewry. They forged economic dynasties, built mansions and estates, assembled libraries, endowed charities, and advised a German kaiser and two American presidents. But their very success made the Warburgs lightning rods for anti-Semitism, and their sense of patriotism became increasingly dangerous in a Germany that had declared Jews the enemy. Ron Chernow's hugely fascinating history is a group portrait of a clan whose members were renowned for their brilliance, culture, and personal energy yet tragically vulnerable to the dark and irrational currents of the twentieth century.

Two words from Jesus change everything. " Sent chronicles one family ' s journey from the comforts of America to the challenges of going to the nations. You will be blessed and convicted by what you read. The Alan family ' s story can help change you for the glory of King Jesus!" —Daniel L. Akin, president of Southeastern Baptist Theological Seminary If anyone had the ability to succeed as a committed Christian as well as a high-achieving American, it was Hilary Alan. She and her husband, Curt, had a beautiful home, a fast-track career, and talented, successful children. But in the midst of their comfortable life and active church involvement, they realized they rarely heard from God. Sent tells the story of ordinary Christians who accepted two words from Jesus at face value and found that doing so changed everything. In Jesus ' s call to " follow me," the Alans discovered answers to the most pressing human needs: meaning, purpose, vocation, significance, and God ' s plan for the future. For the Alans, it led to selling nearly all their belongings and moving with their children halfway around the world. For you, the particulars will be completely different, but no less significant. Jesus ' s call can change everything in your life. As you follow Hilary Alan ' s journey in response to Jesus ' s call to discipleship, you will gain a clear understanding of the things that can keep you from obeying God. You will no longer wonder if you ' re investing your life in the best way possible, because two words from Jesus change everything.

*Quitter Closing the Gap Between Your Day Job & Your Dream Job*Ramsay Press

#1 Wall Street Journal bestseller! Jon Acuff, New York Times best-selling author of Do Over, Quitter, and Start, offers strategies for anyone who's ever wondered, "Why can't I finish what I started?" According to studies, 92 percent of New Year's resolutions fail. You've practically got a better shot at getting into Juilliard to become a ballerina than you do at finishing your goals. For years, I thought my problem was that I didn't try hard enough. So I started getting up earlier. I drank enough energy drinks to kill a horse. I hired a life coach and ate more superfoods. Nothing worked, although I did develop a pretty nice eyelid tremor from all the caffeine. It was like my eye was waving at you, very, very quickly. Then, while leading a thirty-day online course to help people work on their goals, I learned something surprising: The most effective exercises were not those that pushed people to work harder. The ones that got people to the finish line did just the opposite—they took the pressure off. Why? Because the sneakiest obstacle to meeting your goals is not laziness, but perfectionism. We're our own worst critics, and if it looks like we're not going to do something right, we prefer not to do it at all. That's why we're most likely to quit on day two, "the day after perfect"—when our results almost always underperform our aspirations. The strategies in this book are counterintuitive and might feel like cheating. But they're based on studies conducted by a university researcher with hundreds of participants. You might not guess that having more fun, eliminating your secret rules, and choosing something to bomb intentionally works. But the data says otherwise. People who have fun are 43 percent more successful! Imagine if your diet, guitar playing, or small business was 43 percent more successful just by following a few simple principles. If you've tired of being a chronic starter and want to become a consistent finisher, you have two options: You can continue to beat yourself up and try harder, since this time that will work. Or you can give yourself the gift of done.

Go get the life you want. Be a Rhinoceros! There is something dangerous about this book. Something big. Something full of power, energy and force of will. It could be about you. You could become three tons of thick-skinned, snorting hard-charging rhinoceros. It is time to go get the life you want.

It is worse, much worse, than you think. If your anxiety about global warming is dominated by fears of sea-level rise, you are barely scratching the surface of what terrors are possible. In California, wildfires now rage year-round, destroying thousands of homes. Across the US, "500-year" storms pummel communities month after month, and floods displace tens of millions annually. This is only a preview of the changes to come. And they are coming fast. Without a revolution in how billions of humans conduct their lives, parts of the Earth could become close to uninhabitable, and other parts horrifically inhospitable, as soon as the end of this century. In his travelogue of our near future, David Wallace-Wells brings into stark relief the climate troubles that await -- food shortages, refugee emergencies, and other crises that will reshape the globe. But the world will be remade by warming in more profound ways as well, transforming our politics, our culture, our relationship to technology, and our sense of history. It will be all-encompassing, shaping and distorting nearly every aspect of human life as it is lived today. Like An Inconvenient Truth and Silent Spring before it, The Uninhabitable Earth is both a meditation on the devastation we have brought upon ourselves and an impassioned call to action. For just as the world was brought to the brink of catastrophe within the span of a lifetime, the responsibility to avoid it now belongs to a single generation"--

Overthinking isn't a personality trait. It's the sneakiest form of fear. It steals time, creativity, and goals. It's the most expensive, least productive thing companies invest in without even knowing it. And it's an epidemic. When New York Times bestselling author Jon Acuff changed his life by transforming his overthinking, he wondered if other people might benefit from what he discovered. He commissioned a research study to ask 10,000 people if they struggle with overthinking too, and 99.5 percent said, "Yes!" The good news is that in Soundtracks, Acuff offers a proven plan to change overthinking from a super problem into a superpower. When we don't control our thoughts, our thoughts control us. If our days are full of broken soundtracks, thoughts are our worst enemy, holding us back from the things we really want. But the solution to overthinking isn't to stop thinking. The solution is running our brains with better soundtracks. Once we learn how to choose our soundtracks, thoughts become our best friend, propelling us toward our goals. If you want to tap into the surprising power of overthinking and give your dreams more time and creativity, learn how to DJ the soundtracks that define you. If you can worry, you can wonder. If you can doubt, you can dominate. If you can spin, you can soar.
