Advances in Accounting Education features 13 papers surrounding four themes: curriculum and pedagogical innovations, faculty reflections on teaching accounting during the COVID-19 pandemic, research on passing professional exams in accounting, and historical underpinnings and the choice of taxation as an area of specialization.

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Operations Management is all around us and is integral to every industry. Using contemporary and engaging examples this brand new text book brings to life fundamental Operations Management principles and theories that are applicable to both manufacturing and service situations, reflecting the very latest developments in this dynamic field.

Cognitive Psychology is a brand new textbook by Ken Gilhooly, Fiona Lyddy & Frank Pollick. Based on a multidisciplinary approach, the book encourages students to make the connections between cognition, cognitive neuroscience and behaviour. The book provides an up-to-date, accessible introduction to the subject, showing students the relevance of cognitive psychology through a range of examples, applications and international research. Recent work from neuroscience is integrated throughout the book, and coverage is given to

rapidly-developing topics, such as emotion and cognition. Cognitive Psychology is designed to provide an accessible and engaging introduction to Cognitive Psychology for 1st and 2nd year undergraduate students. It takes an international approach with an emphasis on research, methodology and application.

The approach used by Hoyle, Schaefer, and Doupnik in the new edition allows students to think critically about accounting, just as they will do while preparing for the CPA exam and in their future careers. With this text, students gain a well-balanced appreciation of the Accounting profession. As Hoyle 12e introduces them to the field's many aspects, it often focuses on past controversies and present resolutions. The text continues to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to

ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

The 8th edition of Lind/Marchal/Wathen: Basic Statistics for Business and Economics, is a step-by-step approach that enhances student performance, accelerates preparedness and improves motivation for the student taking a business statistics course. The main objective of the text is to provide students majoring in all fields of business administration with an introductory survey of the many applications of descriptive and inferential statistics. The relevant approach taken in this text relates to the college students today as they will receive the information that is important to them in this class as well as their future careers. Understanding the concepts, seeing and doing plenty of examples and exercises, and comprehending the application of statistical methods in business and economics are the focus of this book.

Auditors are trained to investigate beyond appearances to determine the underlying facts—in other words, to look beneath the surface. The recent financial crisis has made this skill more crucial to the business community. As a result of this recent crisis and of the financial statement accounting scandals that occurred at the turn of the century, understanding an auditor's responsibility related to fraud, maintaining a clear perspective, probing for details, and understanding the big picture are indispensable to effective auditing. The authors—Louwers, Ramsay, Sinason, Strawser, and Thibodeau—have dedicated years of experience in the auditing field to this new edition of *Auditing & Assurance Services*, supplying the necessary investigative tools for future auditors.

Organized for easy reference and crucial practice, coverage of all the essential topics is presented as 500 AP-style questions with detailed answer explanations. *500 AP Biology Questions to Know by Test Day* is tailored to meet your study needs—whether you have only the last minute to prepare or have been studying for months. You will benefit from the questions over the questions written to parallel the topic, format, and degree of difficulty of the questions contained in the AP exam, accompanied by answers with comprehensive explanations. Features: 500 AP-style questions and answers referenced to core AP material. Review explanations for right and wrong answers. Additional online practice. Close simulations of the real AP exams. Updated material reflects the latest tests. Online practice exercises.

Introducing... Essentials of Investments, 9th Global Edition, by Zvi Bodie, Alex Kane and Alan J. Marcus. We are pleased to present this Global Edition, which has been developed specifically to meet the needs of international Investment students. A market leader in the field, this text emphasizes asset allocation while presenting the practical applications of investment theory without unnecessary mathematical detail. The ninth edition includes new coverage on the roots and fallout from the recent financial crisis and provides increased content on the changes in market structure and trading technology. Enhancements to this new Global Edition include: - New 'On the market front' boxes highlight important investment concepts in real world situations across the globe, to promote student thinking without taking a full case study approach. Topics include short-selling in Europe & Asia, credit default swaps and the debt crisis in Greece and include examples from Commerzbank, JP Morgan, Facebook, Coca-Cola, Santander, The European Energy Exchange, plus many more! - Revised worked examples illustrate problems using both real and fictional scenarios from across the world to help students develop their problem solving skills. Regional examples include Hutchinson Whampoa (Asia), The Emirates Group (The Middle East) and KLM Royal Dutch Airlines (The Netherlands). - Revised end-of chapter material includes brand new global questions and global internet exercises that feature currencies, companies and scenarios from Europe, Middle East, Africa and Asia to increase engagement for international students. - Global Edition of Connect Plus Finance, McGraw-Hill's web-based

assignment and assessment platform with eBook access, helps students learn faster, study more efficiently, and retain more knowledge. This Global Edition has been adapted to meet the needs of courses outside of the United States and does not align with the instructor and student resources available with the US edition.

Ebook: Managerial Economics and Organizational Architecture

This Global edition has been designed specifically to meet the needs of international financial accounting students. The text successfully implements a real-world, single focus company approach in every chapter. The companies chosen are engaging and the decision-making focus shows the relevance of financial accounting in the real world. In addition to the latest examples of both contemporary and traditional topics, new material has been added to make the content more relevant and improve learning outcomes for the international student.

The Second Middle East Edition blends theory with contemporary management practice. Dr. Marina Apaydin (American University of Beirut) joins the authoring team in this edition for significant enhancements to content and

presentation of topics. New chapter-opening cases have been added to feature companies and management personalities from the Middle East. Management Insights vignettes offer balanced representation of international as well as local, small-to-medium sized companies and start-ups, to ensure applicability of theory in a variety of contexts. Updated content and improved topics coverage ensure closer alignment with introductory management courses:

- ***Two new topics have been added on the history of management in the Arab world in Chapter 2, and Islamic ethics in Chapter 5.***
- ***Improved content coverage includes a new Chapter 3 focusing on the Manager as a Person.***
- ***Improved and streamlined coverage of managerial processes relating to organizational culture in Chapter 4.***
- ***Managing in the Global Environment includes revised terminology consistent with International Business courses.***
- ***Chapters 8 through 11 have gone through substantial revision to focus on control as part of managing the organizational structure, and organizational learning as part of change and innovation.***
- ***Chapter 16 includes contemporary topics on***

communication including social media, influencers, and a guide to networking. Dr. Marina Apaydin is an Assistant Professor of Strategic Management at the Olayan School Business at the American University of Beirut, Lebanon. Dr. Omar Belkohodja is an Associate Professor of Strategic Management and International Business at the School of Business Administration at the American University of Sharjah, UAE. Ebook: Managerial Economics and Organizational Architecture In this book, readers will learn practical tips and strategies to teach music appreciation online. As online education is a growing field, an increasing number of teachers trained in traditional/live methods find themselves now teaching online and potentially without mentors to assist them. Students are also changing, seeking highly engaged, relevant, and interactive learning opportunities that connect to their lives. Here, readers will find helpful guidance in planning curriculum, integrating multimedia assets, designing forum discussions, developing assignments, preparing rubrics, engaging in forum discussions, preparing, managing, and teaching, the course,

providing feedback and grading, and following up with struggling and challenging students. The book can serve as a resource to those already teaching music appreciation online or as a comprehensive guide to those new to the field. Additionally, it may serve as a resource to instructors in other disciplines who seek to shift live-courses to the online format, as well as music appreciation instructors who would like to integrate digital or online components into traditional face-to-face courses. The book is organized into five major sections, designed to guide the novice online educator in depth while also appealing to the seasoned veteran through the ability to review each section as a stand-alone resource. Although some readers will desire to read from cover to cover, they will also be able to move in a non-linear manner from chapter to chapter, using chapters in modular form, in order to benefit from the sections that most apply to them at any given time.
