As conceived by the founders of the Econometric Society, econometrics is a field that uses economic theory and statistical methods to address empirical problems in economics. It is a tool for empirical discovery and policy analysis. The chapters in this volume embody this vision and either implement it directly or provide the tools for doing so. This vision is not shared by those who view econometrics as a branch of statistics rather than as a distinct field of knowledge that designs methods of inference from data based on models of human choice behavior and social interactions. All of the essays in this volume and its companion volume 6B offer guidance to the practitioner on how to apply the methods they discuss to interpret economic data. The authors of the chapters are all leading scholars in the fields they survey and extend. *Part of the renowned Handbooks in Economics Series *Updates and expands the existing Handbook of Econometrics volumes *An invaluable reference written by some of the world's leading econometricians.

The Handbook is a definitive reference source and teaching aid for econometricians. It examines models, estimation theory, data analysis and field applications in econometrics. Comprehensive surveys, written by experts, discuss recent developments at a level suitable for professional use by economists, econometricians, statisticians, and in advanced graduate econometrics courses. For more information on the Handbooks in Economics series, please see our home page on <http://www.elsevier.nl/locate/hes>.

The Indian Listener (fortnightly programme journal of AIR in English) published by The Indian State Broadcasting Service, Bombay, started on 22 December, 1935 and was the successor to the Indian Radio Times in english, which was published beginning in July 16 of 1927. From 22 August, 1937 onwards, it was published by All India Radio, New Delhi. In 1950, it was turned into a weekly journal. Later, The Indian listener became "Akashvani" in January 5, 1958. It was made a fortnightly again on July 1, 1983. It used to serve the listener as a bradshaw of broadcasting, and give listener the useful information in an interesting manner about programmes, who writes them, take part in them and produce them along with photographs of performing artists. It also contains the information of major changes in the policy and service of the organisation. NAME OF THE JOURNAL: The Indian Listener LANGUAGE OF THE JOURNAL: English DATE, MONTH & YEAR OF PUBLICATION: 07-06-1945 PERIODICITY OF THE JOURNAL: Fortnightly NUMBER OF PAGES: 93 VOLUME NUMBER: Vol. X, No. 12 BROADCAST PROGRAMME SCHEDULE PUBLISHED (PAGE NOS): 15-17, 19, 21, 23, 25-84 ARTICLE: 1. The second edition of this popular international handbook highlights the developing relationship between psychology and the law. Consisting of all-new material and drawing on the work of practitioners and academics from the UK, Europe, North America and elsewhere, this volume looks not only at the more traditional elements of psychology and the law - the provision of psychological assessments about individuals to the courts - but also many of the recent developments, such as the interaction between psychologists and other professionals, decision-making by judges and juries, and the shaping of social policy and political debate. Contemporary and authoritative in its scope, the second edition of The Handbook of Psychology in Legal Contexts will again prove to be a valuable resource for scholars and students, as well as being a vital tool for all professionals working in the field. * Well known editors and an international list of authors, most of whom are leaders in their field

* Focus on psychological concepts and knowledge that will enlighten best practice and research * The focus on process and issues ensures that the book is not limited in interest by specific legal codes or legislation, it is international * More than an updating of the old chapters, really a rethinking of the field and what is now

important and emerging
