STUDYGUIDE FOR RACE ETHNICITY

Race, Ethnicity, Gender, and Class + Race, Gender, Sexuality, and Social Class: Dimensions of Inequality

As the age of globalization and New Media unite disparate groups of people in new ways, the continual transformation and interconnections between ethnicity, class, and gender become increasingly complex. This reader, comprised of a diverse array of sources ranging from the New York Times to the journals of leading research universities, explores these issues as systems of stratification that work to reinforce one another. Understanding Inequality provides students and academics with the basic hermeneutics for considering new thought on ethnicity, class, and gender in the 21st century.

Multicultural aspects of psychology have received some attention in the literature in the last decade. A number of texts currently address these significant concerns, for example, Counseling the Culturally Different (Sue & Sue, 2008); Handbook of Multicultural Counseling (Potter et al., 2009); and Handbook of Multicultural Counseling Competencies (Pope-Davis & Coleman, 2005). In their most recent editions, several of these books address more nuanced complexities of diversity, for example, the intersections of gender or social class with race-ethnicity.

Meanwhile, other texts have addressed gender issues in psychology (Handbook of Counseling Women, Counseling Men), with some attention paid to racial-ethnic and other diversity concerns. Clearly the progression of scholarship in this field reflects the importance of incorporating multiple aspects of diversity within psychology. However, no book currently exists that fully addresses the complexities of race-ethnicity and gender together. Better understanding of the dual impact of race-ethnicity and gender on psychological functioning may lead to more effective conceptualizations of a number of mental health issues, such as domestic violence, addictions, health-related behaviors and achievement. Exploring the impact of race-ethnicity and gender also may provide a broader understanding of self-in-community, as this affects individuals, families and other social groups and work and career development. Topics of interest may include identity development, worldviews and belief systems, parenting styles, interventions for promoting resilience and persistence and strategies for enhancing more accurate diagnostic and treatment modalities. Today's world is comprised of multiple and intersecting communities that remain in need of psychological models and interventions that support and promote both individual and collective mental health. We believe that utilizing unidimensional conceptual models (e.g. focusing solely on race-ethnicity or gender) no longer adequately addresses psychological concerns that are dynamic, complex and multi-faceted. The proposed Handbook will focus on timely topics which historically have been under-addressed for a number of diverse populations.

This book of readings is designed to be both a stand alone reader as well as a companion title to Healey's Diversity and Society, Second Edition. The book is a unique mix of first-person accounts, competing views on various issues, and it includes articles from the research literature. The Narrative Portraits and most of the Current Debates articles are from Healey's Race, Ethnicity, Gender and Class, Fourth Edition. It will provide orientation on the issues which many instructors utilize when teaching the race and ethnicity course.

Issues in Race, Ethnicity, Gender, and Class

Producing Power

Known for its clear and engaging writing, the bestselling *Race, Ethnicity, Gender, and Class* by Joseph F. Healey, Andi Stepnick, and Eileen O'Brien has been thoroughly updated to make it fresher, more relevant, and more accessible to undergraduates. The Eighth Edition retains the same use of sociological theory to tell the story of race and other socially constructed inequalities in the U.S. and for examining the variety of experiences within each minority group, particularly differences between those of men and women. This edition also puts greater emphasis on intersectionality, gender, and sexual orientation that will offer students a deeper understanding of diversity. New to this Edition New co-author Andi Stepnick adds fresh perspectives to the book from her teaching and research on race, gender, social movements, and popular culture. New coverage of intersectionality, gender, and sexual orientation offer students a deeper understanding of diversity in the U.S. The text has been thoroughly updated from hundreds of new sources to reflect the latest research, current events, and changes in U.S. society. 80 new and updated graphs, tables, maps, and graphics draw on a wide range of sources, including the U.S. Census, Gallup, and Pew. 35 new internet activities provide opportunities for students to apply concepts by exploring oral history archives, art exhibits, video clips, and other online sites.

This edited collection critiques postfeminist advertising through the lenses of gender, race, ethnicity, sexuality, disability, age, class, and nationality. The authors represent a variety of feminisms, including Black, disabled, lesbian, transnational, and more.

An eye-opening exploration of how social statuses intersect to shape our identities and produce inequalities. In this fully edited and streamlined *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity, Second Edition*, Susan Ferguson has carefully selected readings that open readers' eyes to the ways that social statuses shape our experiences and impact our life chances. The anthology represents many of the leading voices in the field and reflects the many approaches used by scholars and researchers to understand this important and evolving subject. The anthology is organized around broad topics (Identity, Power and Privilege, Social Institutions, etc.), rather than categories of difference (Race, Gender, Class, Sexuality) to underscore this fundamental insight: race, class, gender, and sexuality do not exist in isolation; they often intersect with one another to produce social inequalities and form the bases of our identities in society. Nine readings are new to this edition: Michael Polgar—on Jewish assimilation and culture in the U.S. Katherine Franke—on the 1940 Supreme Court case, *Suneri v. Cassagne*, concerning racial identity Carla Pfeffer—on transgender identity Michelle Alexander—on the New Jim Crow Richard Lachmann—on the decline of the U.S. as an economic and political power Abby Ferber—on privilege and “oppression blindness” Amada Hess—Why Women Aren't Welcome on the Internet Iris Marion Young—Five Faces of Oppression Ellis Cose—Rage of the Privileged “The choice of readings in *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity* is better than my current text in terms of inequality and steps of closing the gaps.” – Dr. Deden Rukmana, Savannah State University “I really like how *Race, Gender, Sexuality, and Social Class: Dimensions of Inequality and Identity* deals with underlying concepts rather than difference by x, y, or z.” – Ana Villalobos, Brandeis University

In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior

and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

This text is an introduction to the sociology of minority-dominant relations and was written for students who do not have extensive backgrounds in the social sciences. I have tried to make the subject matter coherent to these students, in part by applying a unified set of themes and concepts throughout the text. The analysis is consistent and continuous, even while examining multiple perspectives and a variety of viewpoints. This subject matter is highly controversial and filled with drama, tragedy, and triumph. I have tried to deal with the issues and tell the stories behind the issues in a way that makes the text both a pleasure to read and a demonstration of the power and importance of thinking sociologically.

*Race, Ethnicity, and Gender: Selected Readings* is the companion reader to: *Race, Ethnicity, and Gender*, Third Edition by Joseph Healey (SAGE, 2003) but also a stand-alone reader as a unique mix of first-person accounts, competing views on various issues, as well as articles from the research literature. It provides lecturers with essential readings in Race and Ethnicity studies.

Derived from the Fifth Edition of Joseph F. Healey's bestselling text *Race, Ethnicity, Gender, and Class*, the Third Edition of *Diversity and Society: Race, Ethnicity, and Gender*, 2011 Update provides an accessible sociological analysis of U.S. minority groups. Updated throughout, this abbreviated edition retains the conceptual frameworks and organizational format of the larger version, and is the only brief text to present a unitary sociological frame of reference for the

analysis of minority-dominant relations.

This edition uses sociological perspectives to tell the story of race and other socially constructed inequalities with consistency and clarity. Through a vivid writing style and engaging pedagogical features, the authors ensure that readers engage with core concepts in a meaningful way. The text conveys much of the richness and varieties of experience within minority groups, instead of treating them as single, undifferentiated entities. Although it focuses mainly on the minority groups in the United States, it compares group relations in the United States with other societies as well.

"The text offers a comprehensive study of historical evolution of race, ethnicity, and gender in the U.S.; and makes effective use of contemporary (including open access) sources of information about these issues. My students find the reflective questions and related activities to be instructive and engaging." —Cheryl Renee Gooch, Arts and Humanities Department, Cumberland County College Adapted from the bestselling Race, Ethnicity, Gender, and Class by Joseph F. Healey and Andi Stepnick, Diversity and Society provides a brief overview of inter-group relations in the U.S. In ten succinct chapters, Healey and Stepnick explain concepts and theories about dominant-minority relations; examine historical and contemporary immigration to the U.S.; and narrate the experiences of the largest racial and ethnic minorities. The Sixth Edition of this bestseller explores a variety of experiences within groups, paying particular attention to the intersection of gender with race and ethnicity. While the focus is on minority groups in the U.S., the text also includes comparative, cross-national coverage of group relations in other societies. Updated with the most current trends and patterns in inter-group relations, this text presents empirical data in an accessible format to show students how minorities are inseparable from the larger American experience.*

*Ethnicity, Class and Gender in Australia is a major study of the impact of immigration on Australian society, and of the fragmentation that has developed along ethnic, class and gender lines. Rather than thumbnail sketches of ethnic groups or celebrations of multiculturalism, it offers detailed critiques of policy and practice, backed up by evidence from the experiences and research of the authors. This book confronts issues crucial to all Australians: the increasing fragmentation of the workforce; the class, gender and origin-based inequalities present in an 'egalitarian' country; and the ideologies, from racism to multiculturalism, designed to mask these inequalities. The authors also point to evidence of growing resistance to the status quo, and strategies for working towards a more genuine equality - to more positive education programmes, to political action at the workplace and beyond. The aim is to broaden readers' understanding of Australian society by including those who are so often omitted from analysis of that society.*

A decade after its first publication, *Class, Race, Gender, and Crime* remains the only authored book to systematically address the impact of class, race, and gender on criminological theory and all phases of the criminal justice process. The new edition has been thoroughly revised, for easier use in courses, and updated throughout, including new examples ranging from Bernie Madoff and the recent financial crisis to the increasing impact of globalization.

*Gender, Race, and Class in Media* provides students a comprehensive and critical introduction to media studies by encouraging them to analyze their own media experiences and interests. Editors Bill Yousman, Lori Bindig Yousman, Gail Dines, and Jean McMahan Humez explore some of the most important forms of today's popular culture—including the Internet, social media, television, films, music, and advertising—in three distinct but related areas of investigation: the political economy of production, textual analysis, and audience response. Multidisciplinary issues of power related to gender, race, and class are integrated into a wide range of articles examining the economic and cultural implications of mass media as institutions. Reflecting the rapid evolution of the field, the Sixth Edition includes 18 new readings that enhance the richness, sophistication, and diversity that characterizes contemporary media scholarship.

Students, beginning and seasoned mental health professionals will be better prepared for diversity practice by this accessible, timely, provocative, and critical work, *The Convergence of Race, Ethnicity and Gender: Multiple Identities in Counseling, Fifth Edition*. Author Tracy Robinson-Wood demonstrates, through both the time honored tradition of storytelling and clinically-focused case studies, the process of patient and therapist transformation. This insightful, practical resource offers behavioral health professionals a nuanced view of diversity beyond race, culture, and ethnicity to include and interrogate intersectionality among race, culture, gender, sexuality, age, class, nationality, religion, and disability. With a keen focus on quality patient care, this important text aims to help professionals better serve patients across sources of diversity. Readers will recognize their roles and responsibilities as social justice agents of change, while identifying the ways in which dominant cultural beliefs and values furnish and perpetuate clients' feelings of stuckness and inadequacy, in both the therapeutic alliance and within the larger society. This remarkable text reveres the lifelong commitment of using knowledge and skills as power for good to make a meaningful difference in people's lives.
