The world of investing normally sees experts telling us the 'right' way to manage our money. How often do these experts pull back the curtain and tell us how they invest their own money? Never. How I Invest My Money changes that. In this unprecedented collection, 25 financial experts share how they navigate markets with their own capital. In this honest rendering of how they invest, save, spend, give, and borrow, this group of portfolio managers, financial advisors, venture capitalists and other experts detail the 'how' and the 'why' of their investments. They share stories about their childhood, their families, the struggles they face and the aspirations they hold. Sometimes raw, always revealing, these stories detail the indelible relationship between our money and our values. Taken as a whole, these essays powerfully demonstrate that there is no single 'right' way to save, spend, and invest. We see a kaleidoscope of perspectives on stocks, bonds, real assets, funds, charity, and other means of achieving the life one desires. With engaging illustrations throughout by Carl Richards, How I Invest My Money inspires readers to think creatively about their financial decisions and how money figures in the broader quest for a contented life. Some of the smartest, most successful people in the country didn't finish college. None of them learned their most critical skills at an institution of higher education. And like them, most of what you'll need to learn to be successful you'll have to learn on your own, outside of school. Michael Ellsberg set out to fill in the missing pieces by interviewing a wide range of millionaires and billionaires who don't have college degrees, including fashion magnate Russell Simmons and Facebook founding president Sean Parker. This book is your guide to developing practical success skills in the real world: how to find great mentors, build a world-class network, make your work meaningful (and your meaning work), build the brand of you, and more. Learning these skills is a necessary addition to any education, whether you're a high school dropout or graduate of Harvard Law School.

Fresh, funny, and fearless, The Middle Finger Project is a point-by-point primer on how to get unstuck, slay imposter syndrome, trust in your own worth and

ability, and become a strong, capable, wonderful, weird, brilliant, ballsy, unfuckwithable YOU. "Don't worry, this isn't a book about God, nor is it a book about Ryan Gosling (second in command). But it is a book about authority and becoming your own." --Ash Ambirge After a string of dead-end jobs and a death in the family, Ash Ambirge was down to her last \$26 and sleeping in a Kmart parking lot when she faced the truth: No one was coming to her rescue. It was up to her to appoint herself. That night led to what eventually became a six-figure freelance career as a sought-after marketing and copywriting consultant, all while sipping coffee from her front porch in Costa Rica. She then launched The Middle Finger Project, a blog and online course hub, which has provided tens of thousands of young "women who disobey" with the tools and mindset to give everyone else's expectations the finger and get on your own path to happiness, wealth, independence, and adventure. In her first book, Ash draws on her unconventional personal story to offer a fun, bracing, and occasionally potty-mouthed manifesto for the transformative power of radical self-reliance. Employing the signature wit and wordsmithing she's used to build an avid following, she offers paradigm-shifting advice along the lines of: • The best feeling in the world is knowing who you are and what you're capable of doing. • Life circumstances are not life sentences. If a Scranton girl who grew up in a trailer park can make it, so can you. • What you believe about yourself will either murder your chances or save your life. So why not believe something good? • You don't need a high-ranking job title to be authorized to contribute. You just need to contribute. • Be your own authority. Authority only works as long as you trust that someone smarter than you is making the rules. • The way you become a force is by being the most radically real version of yourself that you can be. • You only have 12 fucks a day to give, so use them wisely.

Once again, #1 New York Times bestselling author Julia Quinn transports her readers to historical romance heaven! Quinn's Just Like Heaven is the dazzling first installment of a delightful quartet of Regency Era-set tales featuring the romantic exploits of the well-meaning but less-than-accomplished Smythe-Smith musicians—in this case, a beautiful violinist in the pitiful group who has her sights set on marrying the last unwed Bridgerton...unless her handsome, love-struck guardian has anything to say about it. Bridgerton fans will cry, "Encore!"—as will every reader who adores England's Regency period and great love stories that are smart, witty, and lighthearted.

At last, for a generation that's materially ambitious yet financially clueless comes I Will Teach You To Be Rich, Ramit Sethi's 6-week personal finance program for 20-to-35-year-olds. A completely practical approach delivered with a nonjudgmental style that makes readers want to do what Sethi says, it is based around the four pillars of personal finance--banking, saving, budgeting, and investing--and the wealth-building ideas of personal entrepreneurship. Sethi covers how to save time by not wasting it managing money; the guns and cars myth of credit cards; how to negotiate like an Indian--the conversation begins with "no"; why "Budgeting Doesn't Have to Suck!"; how to get things rolling--for real--with only \$20; what most people don't understand about taxes; how to get a CEO to take you out to lunch; how to avoid the Super Mario Brothers trap by making your savings work harder than you do; the difference between cheap and frugal; the hidden relationship between money and food. Not to mention his first key lesson: Getting started is more important than being the smartest person in the room. Integrated with his website, where readers can use interactive charts, follow up on the latest information, and join the community, it is a hip blueprint to building wealth and financial security. Every month, 175,000 unique visitors come to Ramit Sethi's website, Iwillteachyoutoberich.com, to discover the path to financial freedom. They praise him thoughtfully ("Your site summarizes everything I want with my life--to be rich in finances, rich in experience, rich in family blessings," Dan Esparza) and effusively ("Dude, you rock. I love this site!" Richard Wu).

The press has caught on, too: "Ramit Sethi is a rising star in the world of personal finance writing . . . one singularly attuned to the sensibilities of his generation. his style is part frat boy and part silicon Valley geek, with a little bit of San Francisco hipster thrown in" (San Francisco Chronicle). His writing is smart, his voice is full of attitude, and his ideas are uncommonly sound and refreshingly hype-free.
