center. Reviews of new games and profiles of game designers now regularly appear in the New York Times and the New Yorker, and sales figures for games are reported alongside those of books, music, and movies. They are increasingly used for purposes other than entertainment, yet debates about videogames still fork along one of two paths: accusations of debasement through violence and isolation or defensive paeans to their potential as serious cultural works. In How to Do Things with Videogames, Ian Bogost

contends that such generalizations obscure the limitless possibilities offered by the medium's ability to create complex simulated realities. Bogost, a leading scholar of videogames and an award-winning game designer, explores the many ways computer games are used today: documenting important historical and cultural events; educating both children and adults; promoting commercial products; and serving as platforms for art, pornography, exercise, relaxation, pranks, and politics. Examining

these applications in a series of short, inviting, and provocative essays, he argues that together they make the medium broader, richer, and more relevant to a wider audience. Bogost concludes that as videogames become ever more enmeshed with contemporary life, the idea of gamers as social identities will become obsolete, giving rise to gaming by the masses. But until games are understood to have valid applications across the cultural spectrum, their true potential will remain unrealized. How to Do

In this radiant homage to the resiliency, strength, and power of women, Wally Lamb—author of numerous New York Times bestselling novels including She's Come Undone, I Know This Much is True, and We Are Water—weaves an evocative, deeply affecting tapestry of one Baby Boomer's life and the trio of unforgettable women who have changed it. I'll Take You There centers on Felix, a film scholar who runs a Monday night movie club in what was once a vaudeville theater. Lois invites Felix to revisit—and in some cases relive—scenes from his past as they are projected onto the cinema's big screen. There's his daughter Aliza, a Gen Y writer for New York Magazine who is trying to align her post-modern feminist beliefs with her lofty career ambitions; his sister, Frances, with whom he once shared a complicated bond of kindness and cruelty; and Verna, a fiery would-be contender for the 1951 Miss Rheingold competition, a beauty contest
