This ethnographic study shows how the Ngaju Dyaks, rain forest dwellers of Central Kalimantan (Indonesian Borneo) are responding to modernity. It depicts how they are attempting to fashion a modern identity for themselves, especially by remodelling their indigenous religion.

Microsoft Visual Basic .NET provides the productivity features developers need to rapidly create enterprise-critical web applications. In *Visual Basic .NET and the .NET Platform: An Advanced Guide*, author Andrew Troelsen shows experienced developers how to use VB .NET for developing virtually every possible kind of .NET application. From Windows-based to web-based applications, ADO .NET, XML Web services, and object-oriented language features, it's all here. There are detailed discussions of every aspect of .NET development and useful examples with no toy code. Troelsen starts with a brief philosophy of the VB .NET language and then quickly moves to key technical and architectural issues for .NET developers. Not only is there extensive coverage of the .NET Framework, but Troelsen also describes the object-oriented features of VB .NET including inheritance and interface-based programming techniques. You'll also learn how to use VB .NET for object serialization, how to access data with ADO.NET, and how to build (and interact with) .NET Web Services, and how to access legacy COM applications. Written in the same five-star style as Troelsen's previous two books, *Developer's Workshop to COM and ATL 3.0 and C# and the .NET Platform*, this is the comprehensive book on using VB .NET to build .NET applications that you've been waiting for! Author recounts unique personal reactions to the events of 9/11 through spirit-directed drawings PRESCOTT VALLEY, AZ □ Days following the events of September 11, 2001, Linda Lee Hack experienced something unexplainable. She felt an overwhelming, involuntary urge to pick up a pencil and draw. Linda's images were not formed in her own mind, but by her hand, seemingly guided by an external influence. At first, Linda's images appeared to be demonic in nature, perhaps channeling the evil spirits surrounding the 9/11 attacks. This unpredictable and unexplainable urge to draw lasted for nine months. It's believed by Linda that her early, more abstract drawings depict man's earthly sins against God's word. Later drawings left Linda questioning the reason for this behavior. Was she channeling the spirits surrounding the 9/11 attacks? Or, was it an answer to a prayer request to her deceased great-grandmother about the tribulation period foretold in the Book of Revelations? Or both? □For nine months, I was consumed by this urge to draw,□ Linda says. □To this day, I am left puzzled by questions and thoughts about channeling spirits, automatic writing, guardian angels and why this unusual phenomenon occurred to me.□ In her book, *The Channeling of September 11, 2001*, Linda invites readers to interpret for themselves her personal experiences through words and drawings and perhaps, to bring to light their own experiences or emotional and spiritual reactions in the hours, days and months following the attacks of 9/11. □I have struggled with the thoughts and theories about what happened to me,□ Linda says. □By putting my story into a narrative and visual account, I hope to reach those who may have had similar experiences and those still seeking answers in dealing with their own conflicts from the events of 9/11.□ Linda is donating a portion of the proceeds from her book sales to the Wounded Warrior Project and Tuesday's Children charities in honor of the losses and sacrifices of their beneficiaries.

The Fantasticks tells an age-old tale. Its ingredients are simple: a boy, a girl, two fathers, and a wall. Its scenery, a tattered cardboard moon, hovers over an empty wooden platform. With these bare essentials, Jones and Schmidt launched a theatrical phenomenon unmatched the world over.
