******Four starred reviews**** From the U.S.'s foremost Indigenous children's author comes a middle grade verse novel set during the COVID-19 pandemic, about a Wabanaki girl's quarantine on her grandparents' reservation and the local dog that becomes her best friend Malian loves spending time with her grandparents at their home on a Wabanaki reservation. She's there for a visit when, suddenly, all travel shuts down. There's a new virus making people sick, and Malian will have to stay with her grandparents for the duration. Everyone is worried about the pandemic, but Malian knows how to keep her family and community safe. She protects her grandparents, and they protect her. She doesn't go outside to play with friends, she helps her grandparents use video chat, and she listens to and learns from their stories. And when Malsum, one of the dogs living on the rez, shows up at their door, Malian's family knows that he'll protect them too. Told in verse inspired by oral storytelling, this novel about the COVID-19 pandemic highlights the ways Malian's community has cared for one another through plagues of the past, and how they keep caring for one another today.**

Reading fluency has been identified as a key component of proficient reading. Research has consistently demonstrated significant and substantial correlations between reading fluency and overall reading achievement. Despite the great potential for fluency to have a significant outcome on students' reading achievement, it continues to be not well understood by teachers, school administrators and policy makers. The chapters in this volume examine reading fluency from a variety of perspectives. The initial chapter sketches the history of fluency as a literacy instruction component. Following chapters examine recent studies and approaches to reading fluency, followed by chapters that explore actual fluency instruction models and the impact of fluency instruction. Assessment of reading fluency is critical for monitoring progress and identifying students in need of intervention. Two articles on assessment, one focused on word recognition and the other on prosody, expand our understanding of fluency measurement. Finally, a study from Turkey explores the relationship of various reading competencies, including fluency, in an integrated model of reading. Our hope for this volume is that it may spark a renewed interest in research into reading fluency and fluency instruction and move toward making fluency instruction an even more integral part of all literacy instruction.

This lavishly illustrated book takes readers into the world of ancient Olympia and the modern Olympic Games. Filled with photographs, drawings, and maps, this book explores the natural environment of the sanctuary and the important political and cultural role it played. Archaeological discoveries give a fascinating picture of an ancient Olympia whose legacy of peaceful competition and athletic excellence lives on. The first modern Olympic Games were held in 1896 and, since then, the number of nations competing has grown from 14 to more than 200. In addition to numerous illustrations, this book includes fascinating essays that offer a global perspective on the phenomenon that the Olympic Games have become and trace its evolution from a great idea to a grand spectacle. With hundreds of photographs and illustrations, it looks at aspects of the Games from the first Winter Olympic Games in 1924 to the highly politically charged Olympics in Berlin in 1936; from doping scandals to the growth of the Paralympics. 'I'm a singer-slash-rapper. I'm not the sort of girl that will be working in fucking Wetherspoons for eight pounds an hour.' Sasha Clayton is twenty-four and living with her mum, stepdad, and irritating little sister, in Plaistow, East London. She's gone from being the most popular girl at school, to spending most of her time on her own in her bedroom scrolling through social media. She may not have a job or a flat, and, admittedly her boyfriend's not answering her calls - but she's got talent and a dream. When she releases her first EP everything's going to change. Nicole Lecky's play Superhoe was first staged in the Jerwood Theatre Upstairs at the Royal Court Theatre, London, in January 2019, performed by its author and directed by Jade Lewis. It was the first collaboration between Talawa Theatre Company and the Royal Court.

Emmanuel Ofosu Yeboah's inspiring true story—which was turned into a film, Emmanuel's Gift, narrated by Oprah Winfrey—is nothing short of remarkable. Born in Ghana, West Africa, with one deformed leg, he was dismissed by most people—but not by his mother, who taught him to reach for his dreams. As a boy, Emmanuel hopped to school more than two miles each way, learned to play soccer, left home at age thirteen to provide for his family, and, eventually, became a cyclist. He rode an astonishing four hundred miles across Ghana in 2001, spreading his powerful message: disability is not inability. Today, Emmanuel continues to work on behalf of the disabled. Thompson's lyrical prose and Qualls's bold collage illustrations offer a powerful celebration of triumphing over adversity. Includes an author's note with more information about Emmanuel's charity.

Colliding with and confronting The Tempest and postcolonial identity, the poems in Safiya Sinclair's Cambal explore Jamaican childhood and history, race relations in America, womanhood, otherness, and exile. She evokes a home no longer accessible and a body at times uninhabitable, often mirrored by a hybrid Eve/Caliban figure. Blooming with intense lyricism and fertile imagery, these full-blooded poems are elegant, mythic, and intricately woven. Here the female body is a dark landscape; the female body is cannibal. Sinclair shocks and delights her readers with her willingness to disorient and provoke, creating a mult textured collage of beautiful and explosive poems.

The renowned artist Ed Ruscha was born in Nebraska, grew up in Oklahoma, and has lived and worked in Southern California since the late 1950s. Beginning in 1956, road trips across the American Southwest furnished a conceptual trove of themes and motifs that he mined throughout his career. The everyday landscapes of the West, especially as experienced from the automobile's gas stations, billboards, building facades, parking lots, and long stretches of roadway'are the primary motifs of his often deadpan and instantly recognizable paintings and works on paper, as well as his influential artist books such as Twentysix Gasoline Stations and All the Buildings on the Sunset Strip. His iconic word images'Declaring Adios, Rodeo, Wheels over Indian Trails, and Honey. . . I Twisted through More Damn Traffic to Get Here'further underscore a contemporary Western sensibility. Ruscha's interest in what the real West has become'and Hollywood's version of it'plays out across his oeuvre. The cinematic sources of his subject matter can be seen in his silhouette pictures, which often appear to be grainy stills from old Hollywood movies. They feature images of the contemporary West, such as parking lots and swimming pools, but also of its historical past: covered wagons, buffalo, teepees, and howling coyotes. Featuring essays by Karin Breuer and D.J. Waldie, plus a fascinating interview with the artist conducted by Kerry Brougher, this stunning catalogue, produced in close collaboration with the Ruscha studio, offers the first full exploration of the painter's lifelong fascination with the romantic concept and modern reality of the evolving American West.
