Rd Cosmetics Personal Care Products

Splashy ads and commercials for personal care products are everywhere we turn, promising to keep our appearances

fresh and our partners satisfied. But do consumers really know what they're applying to their faces and bodies in their quests for youth and beauty? Do they know the health

Get Free Rd Cosmetics Personal Care Products

risks they're taking by simply applying lipstick, face moisturizer or deodorant? Toxic cosmetics and personal care products clutter the shelves at retail stores everywhere, and

Get Free Rd Cosmetics Personal Care Products

consumers don't know the avoidable risks they're taking by following a simple beauty regimen.

Written by Dr. Samuel S. Epstein, a founder and chairperson of the Cancer

Globalization and economic restructuring have decimated formal

jobs in developing countries, pushing many women into informal employment such as direct selling of cosmetics, perfume, and other personal care products as a way to “make up the difference” between household income and expenses. In

Ecuador, with its persistent economic crisis and few opportunities for financially and personally rewarding work, women increasingly choose direct selling as a way to earn income by activating their social networks.

While few women

earn the cars and trips that are iconic prizes in the direct selling organization, many use direct selling as part of a set of household survival strategies. In this first in-depth study of a cosmetics direct selling organization in Latin America, Erynn Masi

These are one of many different compounds that make up a detergent. They are added to remove dirt from skin, clothes and household articles particularly in kitchens and
