This pioneering book presents a history and ethnography of adventure comic books for young people in India with a particular focus on vernacular superheroism. It chronicles popular and youth culture in the subcontinent from the mid-twentieth century to the contemporary era dominated by creative audio-video-digital outlets. The authors

highlight early precedents in adventures set by the avuncular detective Chacha Chaudhary with his 'faster than a computer brain', the forays of the film veteran Amitabh Bachchan's superheroic alter ego called Supremo, the Protectors of Earth and Mankind (P.O.E.M.), along with the exploits of key comic book characters, such as Nagraj, Super Commando Dhruv, Parmanu, Doga, Shakti and Chandika. The book considers how pulp literature, western comics, television programmes, technological developments and major space ventures sparked a thirst for extraterrestrial action and how these laid the grounds for vernacular ventures in the Indian superhero comics genre. It contains descriptions, textual and contextual analyses, excerpts of interviews with comic book creators, producers, retailers and distributors, together with the views, dreams and fantasies of young readers of adventure comics. These narratives touch upon special powers, super-intelligence, phenomenal technologies, justice, vengeance, geopolitics, romance, sex and the amazing potentials of masked identities enabled by navigation of the internet. With its lucid style and rich illustrations, this book will be essential reading for scholars and researchers of popular and visual cultures, comics studies, literature, media and cultural studies, social anthropology and sociology, and South Asian studies.

Comics, Humor Magazines, and Picture Books

Illustrations used for story-telling and mirth-making have enlivened Asian walls, scrolls, books, public and private places, and artifacts for millennia. Often playful and humorous, Asian pictorial stories lent conspicuous elements to contemporary comic art, particularly with their use of narrative nuance, humor, satire, and dialogue. *Illustrating Asia* is a fascinating book on a subject that is of wide and topical interest. All of the articles consider cartoon and/or comic art in the historical and social setting of seven South, Southeast, and East Asian countries: India, Taiwan, Malaysia, Indonesia, Sri Lanka, China, and Japan. The contributors treat comic and narrative art—including comic books, comic strips, picture books, and humor and fan magazines—in both historical and socio-cultural perspectives, as well as portrayals of ancient Chinese philosophy, gender, and the enemy in cartoons and comics. Contributors: Laine Berman, John A. Lent, Fusami Ogi, Rei Okamoto, Ronald Provencher, Aruna Rao, Kuiyi Shen, Shimizu Isao, Shu-chu Wei, Yingjin Zhang.

Most people's perception of comicbooks is one of superheroes like Spider-Man and Batman. But it belies an art form that is not unique to the UK and USA. Practically every country in the world has its own thriving comicbook industry. In some countries like France, they are a highly regarded form of expression - The Ninth Art. While in Japan, comics are so integral to its culture and society that it would be impossible to imagine the country without them. The cultural impact of comics cannot be underestimated. Did you know that sales of Mexico's leading comic outstrip those of the country's bestselling daily newspaper by six to one? Or that comicbooks are often used to convey a very serious message (only recently a comic featuring Superman was distributed to 500,000 children in Kosovo to teach them how to spot and avoid land mines)? Arranged geographically, this book assesses the medium in every major area of the world, discussing the history of the genre, the comics and characters, the publishers, creators and artists. Regions covered include the UK and United States, central Europe (France, Belgium, Germany, Spain, Italy), Eastern Europe, Scandinavia, Japan and Asia, Africa, India, Central and South America, and Australasia. Including key feature spreads and a wealth of colour images - many of them unseen - this book is the first of its kind to provide a global picture of an often-underrated art form.

Maurice Horn, the editor of World Encyclopedia of Comics, has described cartoonist PRAN as Walt Disney of India. Entertaining generation after generation, his comics have been constant companion of all the growing youngsters providing fun and amusement through his famous characters like CHACHA CHAUDHARY, SABU, SHRIMATIJI, PINKI, BILLOO, RAMAN etc. More than 600 of his titles are selling well in the market, and numerous comic strips are regularly appearing in various newspapers. His CHACHA CHAUDHARY comics had already been adapted for a TV Serial, and ran continuously for 600 episodes on a premier channel. Travelling widely over the globe, he delivers lectures at various International Conferences. He has also been honoured with 'People of The Year Award' by Limca Book of Records for popularizing comics. His comic book 'United We Stand' was released in 1983 by the then Prime Minister Mrs. Indira Gandhi, and is still very popular among children.
