Come with the Mob Squad on an amazing adventure through the Overworld in this official Minecraft novel! The village of Cornucopia is practically perfect in every way. Plenty of food, cozy homes, and a huge wall to keep everyone safe from the scary world outside. What more could a kid possibly need? Well, a lot, actually. Mal, a fearless girl, needs adventure, and her friends are right there with her: Lenna, a dreamer whose family underestimates her every day. Tok and Chug, brothers who love to build stuff (Tok) and smash stuff (Chug). They're best friends, and in a town whose grown-ups value safety over bravery and fitting in over standing out, they're the bad apples. But when a mysterious mob sneaks past Cornucopia's defenses, the village is in huge trouble. And nobody knows what to do. Finally faced with the adventure she's always wanted, Mal and her friends defy the rules their elders have always followed and set out beyond the wall for the first time. On their journey across the Overworld, they discover wonders they've never dreamed of and dangers they've never imagined. To save the day, they'll have to prove they're more than bad apples. They're the Mob Squad!

Take flight with the ender dragon in this official Minecraft novel! When a desert town is threatened by illager raids, a young adventurer turns to a newborn dragon to save her home. Zetta is the best potion-maker in the village of Sienna Dunes. Okay, maybe she's the only potion-maker in the village of Sienna Dunes. And maybe her potions don't exactly work like they're supposed to all the time. But when her village is menaced by a pack of illagers, only Zetta can see that the traditional ways won't keep Sienna Dunes safe anymore. Zetta journeys to her eccentric aunt's workshop outside town to search for an answer and finds a lot more than she bargained for. A mysterious egg hatches into a scaly creature with purple eyes, black wings, and poisonous breath. It can't possibly be the mythical ender dragon . . . can it? And if it is, can Zetta raise it to be the savior her village needs? The threat of the illagers is growing fast, and Zetta's accidental dragon is growing even faster. With the help of her two best friends and her daydreaming little cousin, Zetta must train the scariest (and scaliest) baby in the Overworld. But when the dragon is fully grown, will it save Sienna Dunes? Or will it spell the village's end?

Audisee® eBooks with Audio combine professional narration and sentence highlighting to engage reluctant readers! Do you play computer games? If you do, you've probably played Minecraft. When Minecraft creator Markus Persson was young, he wasn't very interested in the games themselves. He was more interested in the programing instructions in the computer's manual. By the time Persson was eight years old, he was writing code for his own computer games. When he was eighteen, Persson landed his dream job as a video game programmer. In 2009, he designed Minecraft in a single weekend. In the game, players use blocks to build whatever they choose. Persson wanted to let players use their imaginations, and the idea paid off. Today, Minecraft is one of the most popular computer games in the world. Although Persson doubts he will ever top this success, he continues to develop games, while fans wait for what's next.

A National Book Award Finalist! In kindergarten, Jarrett Krosoczka's teacher asks him to draw his family, with a mommy and a daddy. But Jarrett's family is much more complicated than that. Jarrett lives with his grandparents -- two very loud, very loving, very opinionated people who had thought they were through with raising children until Jarrett came along. Meet the next big thing in the world of official Minecraft novels: zombies! Looking after a little sibling can be a real headache . . . especially when they're trying to eat your brains! Life is good for Bobbie in the sleepy village of Plaintown. Sure, her villager parents only ever say "Hrm," but you pick up the local language quickly. And maybe her little brother, Johnny, is always getting into trouble, but the village's iron golem is there to look out for him. And, yeah, things are too busy for exploring when you're the only one in town who ever takes their hands out of their sleeves. But maybe that's for the best. After all, there are things out there beyond the torchlight that are better handled by adventurers. But one night, a stranger comes to Plaintown—and he's followed by a horde of ravenous zombies. Bobbie's village is overrun, and her world is turned upside down. Life is not so good for Ben, an adventurer with nothing left to his name but the armor on his back. When dawn's light shows him an abandoned village, he sees it as a chance to pick through the wreckage and get himself back on track. What he wasn't expecting to run into was a desperate girl with a baby zombie villager on a leash. Bobbie and Johnny are the only ones left . . . and her brother's a lot greener and a lot bitier than he was last night. There's still some of Johnny rattling around the little monster's mind; Bobbie just knows it. And Ben might know a way to bring him back. As the two journey across the Overworld, dragging Johnny along (literally), they brave dangerous depths, terrifying mobs, and an expanding mystery. Was the attack on Bobbie's village really just bad luck? Where did the rest of the zombie villagers go? And how exactly do you take care of a little brother who can't stop trying to eat you?
