For students who live and write in the real world, this remarkably successful developmental workbook gives a practical introduction to the writing skills they need to succeed in college, at work, and in their everyday lives.

Best-selling authors and veteran college writing instructors Laurie Kirszner and Stephen Mandell believe that students learn to write best when they use their own writing as a starting point. In Writing First with Readings: Paragraphs and Essays, the authors take a simple yet effective approach to helping students improve their writing skills: visual writing prompts open every chapter and get students writing immediately. Then, throughout the chapter, students move between their own writing, writing models and instruction, and workbook-style mastery exercises so that they continually revise, rewrite, and improve their own writing. It is this formula that makes writing instruction meaningful and accessible for students. Thoughtful chapters on academic writing and success, research, and critical reading, along with high-interest essays, round out this new edition, making it the perfect introduction to college writing.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.
