The History of the Rebellion and Civil Wars in England, Begun in the Year 1641

The Bookseller

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Abraham Lincoln, a History

Abraham Lincoln; a History, by John G. Nicolay and John Hay

Appletons' Cyclopaedia of American Biography

The Publishers' Circular and Booksellers' Record of British and Foreign Literature

Polk's Medical Register and Directory of North America

*John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.*

*The Gentleman's Magazine*

*Hart's Annual Army List, Special Reserve List, and Territorial Force List*

*The Northwestern Miller*

*International Catalogue of Scientific Literature*

Through the 'magic' of averages it is shown that Maxwell's equations can be used in a simple way to describe filamentary composites as well as pure bulk superconductors. The second edition of AC Loss and Macroscopic Theory of Superconductors, like the first edition, is written for both physicists and engineers. It starts with a rigorous and partially new derivation of Maxwell's equations as they apply to superconductors, and the remainder of the book is devoted to loss approximations for a wide range of applications.

The chapters on high-Tc materials were updated and include a change to SI units and the addition of some historical perspective.

**Backpacker brings the outdoors straight to the reader's doorstep, inspiring and enabling them to go more places and enjoy nature more often. The authority on active adventure, Backpacker is the world's first GPS-enabled magazine, and the only magazine whose editors personally test the hiking trails, camping gear, and survival tips they publish. Backpacker's Editors' Choice Awards, an industry honor recognizing design, feature and product innovation, has become the gold standard against which all other outdoor-industry awards are measured.**
