Red Sparrow is now a major motion picture starring Jennifer Lawrence and Joel Edgerton! The thrilling sequel to Red Sparrow—CIA insider Jason Matthews's compulsively readable New York Times bestseller and Edgar Award winner—featuring Russian spy Dominika Egorova and CIA agent Nate Nash “shimmers with authenticity. The villains are richly drawn...the scenes of them on the job are beyond chilling” (The New York Times Book Review). Captain Dominika Egorova of the Russian Intelligence Service despises the oligarchs, crooks, and thugs of Putin's Russia—but what no one knows is that she is also working for the CIA. Her “sparrow” training in the art of sexual espionage further complicates the mortal risks she must take, as does her love for her handler Nate Nash—a shared lust that is as dangerous as treason. As Dominika expertly dodges exposure, she deals with a murderously psychotic boss, survives an Iranian assassination attempt and attempts to rescue an arrested double agent—and thwart Putin's threatening flirtations. A grand, wildly entertaining ride through the steel-trap mind of a CIA insider, Palace of Treason is a story “as suspenseful and cinematic as the best spy

movies” (The Philadelphia Inquirer)—one that feels fresh and so possible, in fact, that it’s doubtful this novel can ever be published in Russia.

The study of human stupidity is not a new science but it certainly makes fascinating reading. An interesting thing about the human race is that if there is a way to screw up, someone will eventually stumble upon it. Enter the fool. By the author of the Pattaya best seller Money Number One and the updated Money Still Number One, this the sequel to A Fool in Paradise, adding a further 32 stories to the colourful tapestry that is Pattaya, Thailand. In the opinion of many people including the author, Pattaya is the most wonderful place on the planet. As with A Fool in Paradise, the stories are all true or based on true events. 'A Brief History of Pattaya' takes a lighthearted look at what the history books don't tell you whereas 'Miss Goodbar' offers advice to foreign men on how to choose, woo and cohabit with their Thai dream girl. 'Boys at Play' is the unofficial, unauthorized and unholy account of one holiday of lifetime. When you take six mischievous Aussie mates, add ten days of unsupervised freedom and put them together in South East Asia's number one party town, you get a true adventure of unbelievable proportions; full of fun, laughter, love, sex and tragedy. Why tragedy? Because none of them could ever speak about it, except amongst themselves. Apart from one photograph, this remains the only record of their tale. So pull up a chair, take your shoes off and relax. For your reading pleasure, The

The Complete Uncensored Massage (3 Books in One)

Why do men need lingam or penis massages? To awaken their Inner Clitorises, and because "men keep a lot of their stress in their pelvic area," say the experts. Which leads the author to propose a grand plan in which universal lingam and yoni massages lead to safe sex, peace, and global economic recovery. This is a book of humor and satire meant as a gift to make people laugh.

An "urgent and significant book [that] speaks to our times" (The New York Times Book Review) from the bestselling, Man Booker Prize-winning author of *The White Tiger* and *Selection Day* about a young illegal immigrant who must decide whether to report crucial information about a murder—and thereby risk deportation. Danny—formerly

Dhananjaya Rajaratnam—is an illegal immigrant in Sydney, Australia, denied refugee status after he fled from Sri Lanka. Working as a cleaner, living out of a grocery storeroom, for three years he's been trying to create a new identity for himself. And now, with his beloved vegan girlfriend, Sonja, with his hidden accent and highlights in his hair, he is as close as he has ever come to living a normal life. But then one morning, Danny learns a female client of his has been murdered. The deed was done with a knife, at a creek he'd been to with her before; and a jacket was left at the scene which he believes belongs to another of his clients—a doctor with whom Danny knows the woman was having an affair. Suddenly Danny is confronted with a choice: Come forward with his knowledge about the crime and risk being deported. Or say nothing, and let justice go undone? Over the course of this day, evaluating the weight of his past, his dreams for the future, and the unpredictable, often absurd reality of living invisibly and undocumented, he must wrestle with his conscience and decide if a person without rights still has responsibilities. "Searing and inventive," Amnesty is a timeless and universal story that succeeds at "illuminating the courage of displaced peoples and the cruelties of those who conspire against them" (Star Tribune, Minneapolis).

Thailand's prostitution industry has secrets, and there's a law that bargirls are not supposed to tell their customers. If customers ask, bargirls have to say that they love their job, no one is forcing them to do it, they've never tried drugs, they are regularly tested for diseases, and of course they're over eighteen years old. How else can they answer, especially with a boss watching over them? The truth is often very different from these answers and Thai smiles, and the truth is seldom

realized by tourists to Thailand. We're Not Supposed to Tell You details the gritty reality of Thai sex work, including debt slavery, drug addiction, and underage prostitution. It was written by an insider, a former bargirl who now lives in the United States, and is no longer afraid to speak out about what bargirls know but most customers don't know or choose not to acknowledge.

Following hot the heels of his best seller, Money Number One, Neil Hutchison continues his in-depth investigation into the tourist playground of Pattaya. This collection of short stories, originally published individually under the pseudonym 'A Fool in Paradise', form a collage of insights into the machinations of this fantastic city on the eastern seaboard of Thailand. Anyone who has read Money Number One will enjoy this follow-up book as it reinforces the conclusions drawn and advice presented in the former through the personal experiences of the author. The tales are fast-paced, humorous, well written and ALL TRUE. Well, almost. Sir Winston Churchill quipped that "Success consists of going from failure to failure without loss of enthusiasm. If that is true, then Neil is a success story because his love and enthusiasm for Pattaya and its people has not diminished over the years. The highs, lows, ups, downs, laughter and tears portray a convincing analysis of the human condition. As Neil says, "Pattaya is to a writer what a room full of fruit bowls is to an artist." The last story, 'Footprints in the Sand', is a particularly poignant tale of just how the city can affect its visitors and guests, even those who should know better. Written with his heart firmly on his sleeve, it proves that no matter how smart we think we are or how old we get, we just never learn. This tale is a 'must read

for any foreign male contemplating a long-term liaison with a Thai lady.

HINDSIGHT is one man's remarkably revealing story about sex and relationships, on the silver screen and in his private life. Howie Gordon (screen name Richard Pacheco) was an award-winning actor during The Golden Age of Porn, whose memoir does not duck the question, "What about love?"

With charm, passion, wit, and what may best be described as a crude elegance, Gordon's story takes us back to the fabled Baby Boomer era, when erotic films took a dramatic step closer to mainstream entertainment in America. His memoir recounts scenes with Marilyn Chambers, Georgina Spelvin, Seka, Annette Haven, Kay Parker and many others. This was the heyday of John Holmes, John Leslie, Jamie Gillis and Anthony Spinelli, and they are all characters in what may prove to be the finest inside story to ever come out of the fascinating world of Adult Film during its Golden Age.

Ultimately, HINDSIGHT is a surprising love story: here in a triumph over incredible odds, is an unlikely victory for true love, common sense, and the American way. Full of pictures and high spirits - this memoir is a great read, whether you know the world of porn, or are just a curious reader. "It was the time of storytelling with an X Rating, and there's no one better to tell this story than my friend Howie Gordon." - Whoopi Goldberg "Howie Gordon writes about life as a porn star with more honesty, integrity and humor than any other porn star, ever You will laugh, cry, and fall in love. I hope his book gets made into a movie, because it will be a one-of-a-kind blockbuster." - Annie Sprinkle, Ph.D. Post Porn Modernist "Mark Twain meets Don Juan-a delectable fusion of brains and balls" - Dr. Marianna Beck, Ph.D. The

The Shock Doctrine

Thomas Hunter narrowly survives a shooting attempt only to awaken in an alternate universe of green forests, a world to which he subsequently travels every time he goes to sleep.

Presents fantasy stories written by Internet authors that explore how people, cultures, and societies are affected by the predictions of the Machine, an object that provides short yet vague phrases about how a person will die.

The bestselling author of No Logo shows how the global "free market" has exploited crises and shock for three decades, from Chile to Iraq In her groundbreaking reporting, Naomi Klein introduced the term "disaster capitalism." Whether covering Baghdad after the U.S. occupation, Sri Lanka in the wake of the tsunami, or New Orleans post-Katrina, she witnessed something

remarkably similar. People still reeling from catastrophe were being hit again, this time with economic "shock treatment," losing their land and homes to rapid-fire corporate makeovers. The *Shock Doctrine* retells the story of the most dominant ideology of our time, Milton Friedman's free market economic revolution. In contrast to the popular myth of this movement's peaceful global victory, Klein shows how it has exploited moments of shock and extreme violence in order to implement its economic policies in so many parts of the world from Latin America and Eastern Europe to South Africa, Russia, and Iraq. At the core of disaster capitalism is the use of cataclysmic events to advance radical privatization combined with the privatization of the disaster response itself. Klein argues that by capitalizing on crises, created by nature or war, the disaster capitalism complex now exists as a booming new economy, and is the violent culmination of a radical economic project that has been incubating for fifty years.

How differently would we live if we

believed that every dimension of our lives---from the happy to the tragic to the mundane---were part of a beautiful and purposeful design in which no thread were wrongly woven? That's what best-selling author and internationally-known apologist, Ravi Zacharias, explores in The Grand Weaver. As Christians, we believe that great events such as a death or a birth are guided by the hand of God. Yet we drift into feeling that our daily lives are the product of our own efforts. This book brims with penetrating stories and insights that show us otherwise. From a chance encounter in a ticket line to a beloved father's final word before dying, from a random phone call to a line in a Scripture reading, every detail of life is woven into its perfect place. In The Grand Weaver, Dr. Zacharias examines our backgrounds, our disappointments, our triumphs, and our beliefs, and explains how they are all part of the intentional and perfect work of the Grand Weaver. Also available: unabridged audio CD. In Tantric Sex for Busy Couples, Diana Daffner offers readers a modern

approach to intimacy based on ancient techniques. Combining age-old tantric teachings, the peaceful exercise program of t'ai chi, and meditation, the book shows couples how to energize their relationship. The basic exercises include "Solo Stillness," which helps readers embrace the inner self; "Connected Pose," a way for couples to simply be together; and the "Tantra T'ai Chi Trilogy," a tri-partite system for moving sexual energy throughout the body. The author's foundational tantra t'ai chi exercises help readers prepare.

From the bestselling author of *The Day of the Jackal*, international master of intrigue Frederick Forsyth, comes a thriller that brilliantly blends fact with fiction for one of this summer's—or any season's—most explosive reads! The Circle Series

From the novelist the New York Times compares to Paul Bowles, Evelyn Waugh and Ian McEwan, an evocative new work of literary suspense *Adrift in Cambodia* and eager to side-step a life of quiet desperation as a small-town teacher, 28-year-old Englishman Robert Grieve decides to go missing. As he crosses the border from Thailand, he tests the threshold of a new future. And on that first night, a small windfall precipitates a chain of events-- involving a bag of “jinxed” money, a suave American, a trunk full of heroin, a hustler taxi driver, and a rich doctor’s daughter-- that changes Robert’s life forever. *Hunters in the Dark* is a sophisticated game of cat and mouse redolent of the nightmares of Patricia Highsmith,

where identities are blurred, greed trumps kindness, and karma is ruthless. Filled with Hitchcockian twists and turns, suffused with the steamy heat and pervasive superstition of the Cambodian jungle, and unafraid to confront difficult questions about the machinations of fate, this is a masterful novel that confirms Lawrence Osborne's reputation as one of our finest contemporary writers.

The wild massage scene in Thailand, Indonesia, Vietnam, and China, is often a front, the author realizes, in this hilarious voyage of discovery that begins with a Sandwich Massage in Thailand and proceeds to massages with sexually ravenous Indonesian women and extreme sexual provocation in Vietnam and China. There are also some scenes set in Cambodia and India. Non-pc, R-rated sexual content.

Humankind rushes toward self-destruction and must evolve or die. Our perspective: a scientist exploring an alien artifact on Triton, a teen-aged hacker in a city gone mad, three actors manipulated into igniting interplanetary war, the de-facto ruler of half the solar system, a soldier fighting in Africa to entertain his audience, an artificial intelligence facing personal crisis, and a cast of billions.--Publisher description.

Al Queda's war on America did not start on September 11, 2001. Just ask the Diplomatic Security Service. It was on February 6, 1993,

that the United States was first attacked on its own soil by foreign terrorists. A zealous band of Middle Easterners, holy warriors determined to punish the U.S. for its supposed transgressions against Islam, packed over a ton of home made explosives into the back of a rented van. They drove their bomb across the Hudson from New Jersey, maneuvered it through downtown traffic and parked it in the underground garage at the Vista Hotel, beneath the twin towers of the World Trade Center. They lit a long fuse, which allowed them time to get back to New Jersey to watch the results of the explosion on CNN. They hoped to topple one mammoth tower into the other and kill ten thousand people or more. Miraculously, only six people were killed. Most of the group were captured within a week, but the mastermind behind the attack, Ramzi Ahmed Yousef, had immediately gone to JFK airport to fly to Pakistan. Before leaving, he phoned the Associated Press and claimed responsibility for the bombing in the name of the Arab Liberation Army, a terrorist group led by Saudi exile Osama bin Laden. A succession of such brazen crimes has revealed complex connections among terrorist groups with an implacable hostility toward Western civilization. Outrages such as the assassination of the Jewish Defense League founder Meier Kahane, a huge plot in the Philippines to plant bombs on intercontinental airlines and to assassinate the Pope, the bombing of U.S. embassies,

culminating in the African embassy bombings of 1998, the attack on the USS Cole in 1999, and the devastating attack on the World Trade Center in 2001 have made it clear that a worldwide network of terrorists led by Osama bin Laden is making war on the United States. On the front lines combating these terrorists in 150 countries around the world have been the 1,200 agents of the U.S. Department of State's Diplomatic Security Service. A little-known but highly effective branch of the government, the DSS is the one arm of federal law enforcement with international powers of arrest. These agents maintain close ties to local police commanders in many countries and can entice informants with bounties of up to \$4,000,000. After a challenging international search, it was DSS agents in Pakistan who captured Ramzi Yousef. DSS agents have been in the vanguard of the War on Terrorism long before it was declared. In *Relentless Pursuit*, Samuel Katz reviews the escalating series of terrorist attacks on the U.S. during the last decade, including those in many foreign countries and finally in New York and Washington. In the process, he tells the gripping story of the DSS and its agents protecting us and our representatives here and abroad. Katz's detailed, personal, on-the-ground anecdotes bring home the contexts and linkages of the War on Terrorism that has been fought on our behalf by the DSS since the 1980s. *Relentless Pursuit* is a stirring tribute to an unsung group of brave

Americans. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

In the colorful tradition of Orwell and Hemingway, Maugham and Theroux, Jerry Hopkins recalls his first decade as a Bangkok expatriate by profiling twenty-five of the city's most unforgettable characters. Among them are the man thought to be the model for Colonel Kurtz in *Apocalypse Now*, an advertising executive who photographs Thai bargirls for *Playboy*, an Oscar-winning screenwriter who moved there to die, a Catholic priest who has lived and worked in the Bangkok slums for 35 years, a circus dwarf turned computer programmer turned restaurateur, three Vietnam war helicopter pilots who opened a go-go bar, a pianist at one of the world's best hotels who ended up on the FBI's 10 Most Wanted list, a gem dealer who smuggles antiquities from Burma and Cambodia, a detective who tracks runaways who fake their deaths, and a documentary filmmaker who lives with elephants. All of them "escaped" to Thailand to re-invent themselves and live out their fantasies in one of the world's most notorious cities.

50 Writers Relive Their Most Memorable

Concertgoing Experience

In the spring of 1972, North Vietnam invaded South Vietnam in what became known as the Easter Offensive. Almost all of the American forces had already withdrawn from Vietnam except for a small group of American advisers to the South Vietnamese armed forces. The 23rd ARVN Infantry Division and its American advisers were sent to defend the provincial capital of Kontum in the Central Highlands. They were surrounded and attacked by three enemy divisions with heavy artillery and tanks but, with the help of air power, managed to successfully defend Kontum and prevent South Vietnam from being cut in half and defeated. Although much has been written about the Vietnam War, little of it addresses either the Easter Offensive or the Battle of Kontum. In *Kontum: The Battle to Save South Vietnam*, Thomas P. McKenna fills this gap, offering the only in-depth account available of this violent engagement. McKenna, a U.S. infantry lieutenant colonel assigned as a military adviser to the 23rd Division, participated in the battle of Kontum and combines his personal experiences with years of interviews and research from primary sources to describe the events leading up to the invasion and the battle itself. *Kontum* sheds new light on the actions of U.S. advisers in combat during the Vietnam War. McKenna's book is not only an essential historical resource for America's most controversial war but a personal story of valor and survival.

Simple Heuristics That Make Us Smart invites readers to embark on a new journey into a land of rationality that differs from the familiar territory of cognitive science and economics. Traditional views of rationality tend to see decision makers as possessing superhuman powers of reason, limitless knowledge, and all of eternity in which to ponder choices. To understand decisions in the real world, we need a different, more psychologically plausible notion of rationality, and this book provides it. It is about fast and frugal heuristics--simple rules for making decisions when time is pressing and deep thought an unaffordable luxury. These heuristics can enable both living organisms and artificial systems to make smart choices, classifications, and predictions by employing bounded rationality. But when and how can such fast and frugal heuristics work? Can judgments based simply on one good reason be as accurate as those based on many reasons? Could less knowledge even lead to systematically better predictions than more knowledge? Simple Heuristics explores these questions, developing computational models of heuristics and testing them through experiments and analyses. It

shows how fast and frugal heuristics can produce adaptive decisions in situations as varied as choosing a mate, dividing resources among offspring, predicting high school drop out rates, and playing the stock market. As an interdisciplinary work that is both useful and engaging, this book will appeal to a wide audience. It is ideal for researchers in cognitive psychology, evolutionary psychology, and cognitive science, as well as in economics and artificial intelligence. It will also inspire anyone interested in simply making good decisions.

Understanding Dogs

How to Deepen Your Passion in Just Ten Minutes a Day

40 Years of Classic Rock Journalism: A Rock's Backpages

Reader

The Fool is Back

Can people have authentic social relationships with speechless animals? What does your dog mean to you, your understanding of yourself, and your perceived and actual relationships with other s and the world? What do you mean to your dog? In *Understanding Dogs*, sociologist and faithful dog companion Clinton R. Sanders explores the day-to-day experiences of living and working with domestic dogs. Based on a decade of research in veterinary offices and hospitals, dog guide training schools, and obediences classes -- and colored with his personal experiences and observations at and outside home with his own canine companions -- Sanders's book examines how everyday dog owners come to know their animal companions as thinking, emotional, and responsive individuals. Linking animal companionship with social as well as personal identity, *Understanding Dogs* uses detailed ethnographic data in

viewing human and animal efforts to understand, manipulate, care for, and interact with each other. From nineteenth-century disapproval of what was seen as irresponsibly indulgent pet ownership among the poor to Bill Clinton's caring and fun-loving image and populist connection to the "common person" as achieved through his labrador companion Buddy, Sanders looks at how dogs serve not only as social facilitators but also as adornments to social identity. He also reveals how, while we often strive to teach and shape our dogs' behavior, dogs often teach us to appreciate with more awareness a nourishing meal, physical warmth, a walk in the woods, and the simple joys of the immediate moment. Sanders devotes chapters to the specialized work of guide dog trainers; the problems and joys experienced by guide dog owners; the day-to-day work of veterinarians dealing with the healing, death, and euthanizing of their animal patients; and the everyday interactions, assumptions, and approaches of people who choose, for various reasons and in various ways, to spend their lives in the company of dogs. Understanding Dogs will interest those who live and work with animals as well as those studying the sociology of human-animal interactions.

Philosopher, entrepreneur, and former National Geographic and New York Times correspondent Zoltan Istvan presents his visionary novel, *The Transhumanist Wager*, as a seminal statement of our times. Scorned by over 500 publishers and literary agents around the world, his philosophical thriller has been called "revolutionary" and "socially dangerous" by readers, scholars, and religious authorities. The novel debuts a challenging original philosophy, which rebuffs modern civilization by inviting the end of the human species-and declaring the onset of something greater. Set in the present day, the novel tells the story of transhumanist Jethro Knights and his unwavering quest for immortality via science and technology. Fighting against him are fanatical religious groups, economically depressed governments, and mystic Zoe Bach: a dazzling trauma surgeon and the love of his life, whose belief in spirituality and the afterlife is absolute. Exiled from America and reeling from personal tragedy, Knights forges a new nation of willing scientists on the world's largest seasteading project, Transhumania. When the world declares war against the floating city, demanding an end to its renegade and

godless transhuman experiments and ambitions, Knights strikes back, leaving the planet forever changed. A Taste for Brown Sugar boldly takes on representations of black women's sexuality in the porn industry. It is based on Mireille Miller-Young's extensive archival research and her interviews with dozens of women who have worked in the adult entertainment industry since the 1980s. The women share their thoughts about desire and eroticism, black women's sexuality and representation, and ambition and the need to make ends meet. Miller-Young documents their interventions into the complicated history of black women's sexuality, looking at individual choices, however small—a costume, a gesture, an improvised line—as small acts of resistance, of what she calls "illicit eroticism." Building on the work of other black feminist theorists, and contributing to the field of sex work studies, she seeks to expand discussion of black women's sexuality to include their eroticism and desires, as well

as their participation and representation in the adult entertainment industry. Miller-Young wants the voices of black women sex workers heard, and the decisions they make, albeit often within material and industrial constraints, recognized as their own.

A Collection of Stories about People who Know how They Will Die

Simple Heuristics that Make Us Smart

"Enter a school of magic unlike any you have ever encountered: There are no teachers, no holidays, and no friendships save strategic ones. Survival is more important than any letter grade, for the school won't allow its students to leave until they graduate . . . or die. The rules are deceptively simple: Don't walk the halls alone. And beware of the monsters who lurk everywhere. El is uniquely prepared for the school's dangers. She may be without allies, but she possesses a dark power strong enough to level mountains and wipe out untold millions. It would be easy enough for El to defeat the monsters that prowl the school. The problem? Her powerful dark magic might also kill all the other students. So El is trying her hardest not to use her power . . . at least not until she has no other option. Meanwhile, her fellow student, the insufferable Orion Lake, is making heroism look like

a breeze. He's saved hundreds of lives--including El's - with his flashy combat magic. But in the spring of their junior year, after Orion rescues El for the second time and makes her look like more of an outcast than she already is, she reaches an impulsive conclusion: Orion Lake must die. But El is about to learn some lessons she never could in the classroom: About the school. About Orion Lake. And about who she really is."--Provided by publisher.
