*On his last hunt on Redd Mountain,
Warner Barney—a well-known, world-
class hunter—more than met his match.
As a result of his arrogance and*

Read Online Redd

carelessness, several people were killed in a tragic snowslide. Warner has tried to put his past behind him and set new goals. He heads back to Redd Mountain, supremely confident that he is the only man who can bring down a legendary elk; he quickly finds, however, his task isn't as easy as he

Read Online Redd

had expected. To make matters worse, he is blocked at every turn by a park ranger and his former guide, Gerry Bruce. Gerry was involved in his last hunt on this mountain, the very hunt in which Warner's careless action caused the deaths that haunt him today. Gerry is very determined

Read Online Redd

not to let that happen again, so he reluctantly agrees to go along on this one. There are other people on the hunt for reasons of their own, and once on the mountain they will find themselves pulled along the slopes by an unseen hand. Someone else wants them to be there at the end, when the

Read Online Redd

chase is over and the quarry brought down. As they close in on the elk, they find themselves starting to wonder if they are following or being led, as more and more curious events start to take place. In the end, however, the mountain will decide who is the hunter ... and who is the prey.

Read Online Redd

REDD+ is based on the premise that actors with an interest in reducing emissions will pay for the costs of reducing deforestation. However, concerns have been raised about whether stakeholders in REDD+ host countries will end up bearing at least some of the costs. Drawing on a pan-

Read Online Redd

tropical dataset covering 22 subnational REDD+ initiatives in five countries, we examine the degree to which these concerns about REDD+ are played out. We find that many institutions in REDD+ host countries, particularly subnational governments, are bearing implementation costs not

Read Online Redd

covered by the budgets of subnational REDD+ initiatives. Opportunity costs are typically evaluated in terms of the value of production foregone, but can also be assessed in terms of the number of people affected. We show that expectations about which stakeholder groups will bear the

Read Online Redd

greatest opportunity costs depend on whether the metric is total value or total number of people. The stakeholder groups with the greatest number of people affected are likely to be small-scale actors engaged in legally ambiguous land uses, which is a potential barrier to recognition and

Read Online Redd

compensation of their costs. Our study clarifies the distribution of implementation and opportunity costs by characterizing the institutions and stakeholders that bear the costs of different types of subnational REDD+ initiatives. Thus, it complements common discourses in the benefit-

Read Online Redd

sharing literature about which stakeholder groups have legitimate claims on revenues from REDD+ and should therefore be considered in the design of benefit-sharing systems.
