Real trials and courtroom movies are made for each other. Lawyers are storytellers, courtrooms are theaters, and the trial process provides drama, surprise, suspense or comedy. This book will serve as a video guide to help you identify the courtroom movies you'd like to see. It ranks each of the films on a one- to four- gavel system, with four gavels for the classics. And it answers the questions you'll be asking as you see the films. Where does truth end and trickery begin? Can lawyers really pull rabbits out of hats with unexpected courtroom stunts? Did the trial process reveal the truth—or conceal it? How well do reel trials reflect real events? These are just some of the topics you'll encounter as the authors analyze over 200 courtroom movies, including such classics as To Kill a Mockingbird, My Cousin Vinny, 12 Angry Men, and The Trial of the Chicago 7. An index at the back of the book lists all of the films reviewed in the book. The book celebrates the courtroom genre that has intrigued viewers around the world. The authors will entertain and educate you on a fascinating journey through nine decades of reel law, lawyers and justice.

From the infamous Scopes Monkey Trial, portrayed in Inherit the Wind, to the sensational war crimes trials that inspired Judgment at Nuremberg, celluloid trials have provided a compelling source of entertainment. A revolutionary and hopeful look at depression as a silent epidemic in men that manifests as workaholism, alcoholism, rage, difficulty with intimacy, and abusive behavior by the cofounder of Harvard’s Gender Research Project. Twenty years of experience treating men and their families has convinced psychotherapist Terrence Real that depression is a silent epidemic in men—that men hide their condition from family, friends, and themselves to avoid the stigma of depression’s “un-manness.” Problems that we think of as typically male—difficulty with intimacy, workaholism, alcoholism, abusive behavior, and rage—are really attempts to escape depression. And these escape attempts only hurt the people men love and pass their condition on to their children. This groundbreaking book is the “pathway out of darkness” that these men and their families seek. Real reveals how men can unearth their pain, heal themselves, restore relationships, and break the legacy of abuse. He mixes penetrating analysis with compelling tales of his patients and even his own experiences with depression as the son of a violent, depressed father and the father of two young sons.

A history of urban modernity in Cairo through cinema The relationship between the city and cinema is formidable. The images and sounds of the city found in movies are perhaps the only experience that many people will have of cities they may never visit. Films influence the way we construct images of the world, and accordingly, in many instances, how we operate within it. Cinematic Cairo: Egyptian Urban Modernity from Reel to Real offers a history of Cairo’s urban modernity using film as the primary source of exploration, and cinematic space as both an analytical tool and a medium of critique. Cairo has provided rich subject material for Egypt’s film industry since the inception of the art form at the end of the nineteenth century. The “real” city—imagined, perceived, and experienced—provides the spatial domain that mirrors change and allows for an interrogation of the “real” city as it encountered modernity over the course of a century. Bringing together chapters by architects and art and literary historians, this volume explores this parallel and convergent relationship through two sections. The first uses films from the 1930s to the end of the twentieth century to illustrate the development of a modern Cairo and its modern subjects. The second section is focused on tracing the transformation of the cinematic city under conditions of neoliberalism, religious fundamentalism, and gender tensions. The result is a comprehensive narrative of the urban modernity of one of the most important cities in the Arab world and Global South. Contributors Ahmed H. Liberals and conservatives proclaim the end of the American holiday from history. Now the easy games are over: one should take sides. Žižek argues this is precisely the temptation to be resisted. In such moments of apparently clear choices, the real alternatives are most hidden. Welcome to the Desert of the Real steps back, complicating the choices imposed on us. It proposes that global capitalism is fundamentalist and that America was complicit in the rise of Muslim fundamentalism. It points to our dreaming about the catastrophe in numerous disaster movies before it happened, and explores the irony that the tragedy has been used to legitimize torture. Last but not least it analyzes the fiasco of the predominant leftist response to the events.

*As the cradle religion I belong to has been, at every age, probing into her managing and conserving of the Mysterious Treasures entrusted to her, with the enlightenment, offered by Vatican Council II, I too longed to scrutinize my own handling of Catholic Christian Faiths. I wanted to examine whether the religion I practice personally was real or reel? If true or false? If genuine or false? If authentic or artificial? If heartfelt or routine? If fruitful or poisonous? Or original or counterfeit? If single-hearted or double-hearted? Certainly, as a priest I had lot of occasions like recollections and retreats regularly to regularly assess the genuineness of my religious holdings and practices. Though I began 10ten years back, gathering all my scribbles and journals of evaluation about my personal religion, I started putting them seriously into a book form only after Pope Benedict XVI announced year 2012 as the Year of Faith. I considered it a call from God who wanted to befriend me more intensely and to promote to my friends this habit of assessing one's own faith. This is how this book was conceived and shaped. This book can be considered as a self-imposed act of examining my conscience about the identity, nature, and application, and practice of religion in my life. Shaheen, noting that only Native Americans have been more relentlessly smeared on the silver screen, painstakingly makes his case that "Arab" has remained Hollywood's shameless shorthand for "bad guy," long after the movie industry has shifted its portrayal of other minority groups. In this comprehensive study of over one thousand films, arranged alphabetically in such chapters as "Villains," "Sheikhs," "Cameos," and "Cliffhangers," Shaheen documents the tendency to portray Muslim Arabs as Public Enemy #1—brutal, heartless, uncivilized Others bent on terrorizing civilized Westerners. Shaheen examines how and why such a stereotype has grown and spread in the film industry and what may be done to change Hollywood's defamation of Arabs.**

Latinx representation in the popular imagination has infuriated and befuddled the Latinx community for decades. These misrepresentations and stereotypes soon became as American as apple pie. But these cardboard cutouts and examples of lazy storytelling could never embody the rich traditions and histories of Latinx peoples. Not seeing real Latinxs on TV and film does as kids inspired the authors to dive deep into the world of mainstream television and film to uncover examples of representation, good and bad. The result: a riveting ride through television and celluloid reels that make up mainstream culture. As pop culture experts Frederic Luis Adams and Christopher González show, the way Latinx peoples have appeared an are still represented in mainstream TV and film narratives is as frustrating as it is illuminating. Stereotypes such as drug lords, petty criminals, buffoons, and sexed-up lovers have filled both small and silver screens—and the minds of the public. Adams and González blaze new paths through Latinx cultural phenomena that disrupt stereotypes, breathing complexity in real Latinx subjectivities and experiences. In this grand sleuthing sweep of Latinx representation in mainstream TV and film that continues to shape the imagination of U.S. society, these two Latinx pop culture authorities call us all to scholarly action.

No one was supposed to get hurt. But in March 1996, the robbery of a Hollywood Video store went horribly wrong, ending in a hail of gunfire and the worst mass murder in the history of Albuquerque, New Mexico. This book is based on the true story of three ex-cons who met through the New Mexico Community Corrections early release program. One was obsessed with movies and guns, another was hopelessly in love, and the third double-crossed them both. Initially, all hoped for a new and better life, but in this modern tragedy, the ex-cons' self-destructive impulses ultimately led to their doom and that of their innocent victims. An entire city was left to mourn.

LAMBDA LITERARY AWARD FINALIST A transgender reporter's "powerful, profoundly moving" narrative tour through the surprisingly vibrant queer communities sprouting up in red states (New York Times Book Review), offering a vision of a stronger, more humane America. Ten years ago, Samantha Allen was a suit-and-tie-wearing Mormon missionary. Now she's a GLAAD Award-winning journalist happily married to another woman. A lot in her life has changed, but what hasn't changed is her deep love of Red State America, and of queer people who stay in so-called "flyover country" rather than moving to the liberal coasts. In Real Queer America, Allen takes us on a cross-country road-trip stretching all the way from Provo, Utah to the Rio Grande Valley to the Bible Belt to the Deep South. Her motto for the trip: "Something gay every day." Making pit stops at drag shows, political rallies, and hubs of queer life across the heartland, she introduces us to scores of extraordinary LGBT people working for change, from the first openly transgender mayor in Texas history to the manager of the only queer night club in Bloomington, Indiana, and many more.

All too often, highly fictionalized cinematic depictions of the past are accepted as the unassailable truth by those unfamiliar with the "real" account. This book profiles sixty movies that portray actual moments in history, and compares the mythologized account of each event to what really happened. Movies chronicled include The Ten Commandments, Spartacus, A Man for All Seasons, Gladiator, Gandhi, Apollo 13, The Thin Red Line, Dances with Wolves, Braveheart, The Last Emperor, All the Presidents Men, Hush, Gone with the Wind, Bonnie & Clyde, Patton, and Elizabeth. Sanello also contrasts several historical figures with their filmed treatments, including Julius Caesar, Henry V, Christopher Columbus, Joan of Arc, Sir Thomas More, Jesus Christ, Catherine the Great, Sigmund Freud, and Harry Houdini. Lavishly illustrated with sixty film stills, Reel v. *The city and the cinema have become inextricably intertwined over the last century, with the identities of places becoming bound up in their cinematic portrayals. We have seen the landmarks of New York, London and Tokyo turn into iconic symbols of wealth, power, status, style and culture, and for the majority of people the images and sounds of movies form the only experience they will ever have of distant cities. Cinematic Urbanism presents an urban history of modernity and postmodernity through the lens of cinema. AlSayyad traces the dissolution of the boundary between real and reel through time and space via a series of films that represent different modernities. They include: Cinema Paradiso It's a Wonderful Life Metropolis Brazil Blade Runner Annie Hall Taxi Driver Do the Right Thing My Beautiful Laundrette The Truman Show. Alsayyad argues that our understanding of the city cannot be viewed independently of cinematic experience. Films do not only capture the depiction of a society; they influence the way we construct images of the world and, as a result, how we operate within it. We are beginning to blur the distinction between what is real in the everyday, and how we imagine the everyday. Cinematic Urbanism explores this dynamic, bringing together insights from urban and film studies to illuminate current architectural debate. .*

In The Return of the Real Hal Foster discusses the development of art and theory since 1960, and reorders the relation between prewar and postwar avant-gardes. Opposed to the assumption that contemporary art is somehow belated, he argues that the avant-garde returns to us from the future, repositioned by innovative practice in the art and theory against the reactionary undoing of progressive culture that is pervasive today. After the models of art-as-text in the 1970s and art-as-simulacrum in the 1980s, Foster suggests that we are now witness to a return to the real—to art and theory grounded in the materiality of actual bodies and social sites. If The Return of the historical avant-gard, it concludes with an original reading of this contemporary situation—and what it portends for future practices of art and theory, culture and politics.
