The truck's role in American society changed dramatically from the 1960s through the 1980s, with the rise of off-roaders, the van craze of the 1970s and minivan revolution of the 1980s, the popularization of the SUV as family car and the diversification of the pickup truck into multiple forms and sizes. This comprehensive reference book follows the form of the author's popular volumes on American cars. For each year, it provides an industry overview and, for each manufacturer, an update on new models and other news, followed by a wealth of data: available powertrains, popular options, paint colors and more. Finally, each truck is detailed fully with specifications and

measurements, prices, production figures, standard equipment and more. Vols. for 1970-71 includes manufacturers' catalogs.

family in a Coachmen Leprechaun or a Holiday Rambler is unforgettable. Indiana retains a unique place in the RV industry going back to the 1930s, when pioneering individuals like Milo Miller, Harold Platt and Wilbur Schult created the original RV businesses in the Elkhart-South Bend area, making campers for sale. By the end of World War II, the national media was identifying Elkhart as the "Trailer Capital of the World." That

status has been reinforced ever since, and the industry is still thriving in Indiana with the successes of Thor Industries and Forest River. Join author and RV expert Al Hesselbart as he chronicles how the Hoosier State became the RV Capital of the World.
