This book tells the story of how John Egan gradually overcame the odds and, piece by piece, rebuilt this great company, winning over the workforce, the overseas dealers and, most important of all, the customers. Working with Margaret Thatcher and her Government, Egan and his team of managers overcame every obstacle, every set-back, every challenge. Again and again, it looked impossible. Yet using innovative techniques, intelligence, eloquence, openness, motor racing and much more, they saved this most charismatic company which has created some of the finest and most loved motor cars of all time. It is an amazing story that will appeal equally to car enthusiasts, those in business and readers interested in social history.

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.

African American history is the part of American history that looks at the past of African Americans or Black Americans. Of the 10.7 million Africans who were brought to the Americas until the 1860s, 450 thousand were shipped to what is now the United States. Most African Americans are descended from Africans who were brought directly from Africa to America and became slaves. The future slaves were originally captured in African wars or raids and transported in the Atlantic slave trade. Our collection includes the following works: Narrative Of The Life by Frederick Douglass. The impassioned abolitionist and eloquent orator provides graphic descriptions of his childhood and horrifying experiences as a slave as well as a harrowing record of his dramatic escape to the North and eventual freedom. Incidents In The Life Of A Slave Girl by Harriet Jacobs. Powerful by portrayal of the brutality of slave life through the inspiring tale of one woman's dauntless spirit and faith. Up From Slavery by Booker T. Washington. Washington rose to become the most influential spokesman for African Americans of his day. He describes events in a remarkable life that began in slavery and culminated in worldwide recognition. The Souls of Black Folk by W. E. B. Du Bois. W. E. B. Du Bois was an American sociologist, socialist, historian, civil rights activist, Pan-Africanist, author, writer and editor. Contents: 1. Frederick Douglass: Narrative Of The Life 2. Harriet Ann Jacobs: Incidents in the Life of a Slave Girl 3. Booker Taliaferro Washington: Up From Slavery 4. W. E. B. Du Bois: The Souls of Black Folk
