Quick Guide to CO-PA (Profitability Analysis)

Because of its complex integration, Product Cost Controlling (CO-PC) is often regarded as the most challenging module in SAP ERP. In this book, you will learn the most important concepts, business processes, and configuration settings. By concentrating only on the essentials, this book will quickly enable you to use it as a supplementary reference guide for implementing or supporting SAP CO-PC. Screenshots of transactions and configuration are included to illustrate written content. This book also dives into CO-PC integration details with other modules and tips on how to properly configure and implement a highly integrated sub-module. This complete and simplified guide to configuration and business processes for SAP Product Costing covers: * Introduction to Value Flows in SAP Controlling * Step-by-Step Examples * Configuration for Product Costing * Detailed Month End Closing Processes

This book on 'Configuring SAP General Ledger Accounting' in SAP S/4HANA Finance, covers configuring your SAP system for making use of the important functional areas of SAP General Ledger (G/L) Accounting. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy reference. You will come across with appropriate menu paths and Transactions, to help you to navigate the

Access Free Report Painter For Sap Guide File Type

various activities. The coverage includes: Case Study SAP General Ledger Accounting: Overview Features & Functionalities Pre-requisites for Configuring SAP G/L Accounting Master Data Business Transactions Periodic Processing Preparation for Productive Start Information System The book starts with a case study, setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity / step, in each Chapter. We discuss the overview of SAP G/L Accounting, before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We, then, move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here, you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out, in detail, the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation, and adjustment posting / reversal. In periodic processing for G/L, you will learn about the various closing operations like check/count, valuate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for

Access Free Report Painter For Sap Guide File Type

new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

This up-to-date quick reference guides the reader through the most popular SAP module (myERP Financial 6.0). It thoroughly covers all of the sub modules of ERP Financials, including, FICO, FSCM, New GL functionality, SAP integration points, and Report Painter. Unlike other books that only provide questions and answers for certification preparation, this book covers both configurations and end user transactions for validating the implementation methods.

A companion CD-ROM with FICO templates, short cuts, and color figures is included. Features: * Includes both

configurations and end-user transactions for validation* Uses a quick-reference style for finding information quickly* Covers the latest account configurations for New GL* Includes a CD-ROM with FICO templates, short cuts, and color figures

It's clear that FICO is one of the most important areas in SAP--and finding answers can be difficult. This guide is helpful in assessing FICO skills and evaluating candidates for a job.

"SAP R/3 Reporting" shows how to deliver effective reports

Access Free Report Painter For Sap Guide File Type

for every area of the enterprise. It's the first book to focus specifically on SAP R/3 reporting. Curran begins by introducing SAP R/3's key information systems, data resources, and business processes. Next, he reviews specific reports for financials, logistics, HR, asset management, and shows how to build reports that are readable, accurate, and timely. Finally, Curran introduces ActiveSheets, third-party software that streamlines reporting by working through Microsoft Excel. A working ActiveSheets demo is included on CD-ROM.

Incorporate the Benefits of Activity-Based Costing into the Efficiencies of Your SAP R/3 System Given SAP's dominance in the enterprise resource planning (ERP) market, many companies and their managers encounter SAP AG applications in some form or another. Many of these organizations have recognized the value of utilizing Activity-Based Costing/Management concepts to perform more accurate cost assignments or drive performance initiatives. Managers are then faced with trying to determine how Activity-Based Costing can be incorporated into the SAP environment. The 123s of ABC in SAP is the first book of its kind designed to help business managers understand the capabilities of the SAP R/3 business application to support Activity-Based Costing, Management, and Budgeting. Divided into three parts-the conceptual foundation, the capabilities of SAP ABC, and integration with other tools-the book provides readers with the following: An explanation of how Activity-Based Costing can be used with SAP Helpful hints for implementing ABC into SAP Insights into the most common difficulties and potential solutions when implementing ABC into SAP Summary tables that highlight key decisions to be made, implementation hints, and organizational challenges Detailed descriptions of SAP software applications to support the Activity-Based Costing approach as well as the integration

Access Free Report Painter For Sap Guide File Type

of SAP R/3 with Oros software Examples of the tandem usage of Resource Consumption Accounting with Activity-Based Costing

"Fascinating... a regular field manual... meticulously researched and very entertaining." --G. Gordon Liddy A thoroughly revised and updated edition of the essential guide to preserving your personal security From cyberspace to crawl spaces, new innovations in information gathering have left the private life of the average person open to scrutiny, and worse, exploitation. In this thoroughly updated third edition of his immensely popular guide How to Be Invisible, J.J. Luna shows you how to protect your home address, hide your ownership of vehicles and real estate, use pagers with dumbphones, switch to low-profile banking and invisible money transfers, use alternate signatures, and how to secretly run a home-based business. J.J. Luna is an expert and highly trained security consultant with years of experience protecting himself, his family, and his clients. Using real life stories and his own consulting experience, J.J. Luna divulges legal methods to attain the privacy you crave and deserve, whether you want to shield yourself from casual scrutiny or take your life savings with you and disappear without a trace. Whatever your needs, Luna reveals the shocking secrets that private detectives and other seekers of personal information use to uncover information and then shows how to make a serious commitment to safeguarding yourself. There is a prevailing sense in our society that true privacy is a thing of the past. In a world where privacy concerns that only continue to grow in magnitude, How to Be Invisible, Third Edition is a critical antidote to the spread of new and more efficient ways of undermining our personal security. Privacy is a commonly-lamented casualty of the Information Age and of the world's changing climate--but that doesn't mean you have to stand for it. This new edition of J. J.

Interview questions and answers on BPC, SAP S/4 HANA Central Finance and Group reporting.

SAP Transaction Codes is a useful reference for end users of the SAP business software, as well as those implementing and/or maintaining the SAP application. The book lists approximately 3800 of the most frequently used transaction codes available in the SAP system. It will enable a user to quickly identify the most popular T-codes within a functional module, such as finance, controlling, materials management, human resources, payroll, quality management, etc. Also, when the T-code is known, it can help identify the associated module. SAP Transaction Codes also contains three step-by-step procedures, which demonstrate how to execute a transaction using the T-code

Access Free Report Painter For Sap Guide File Type

shortcut method, how to determine the menu tree when the T-code is known, and how to use the menu tree for executing a transaction.

Features: • *Includes approximately 3800 of the most frequently used transaction codes available in the SAP software system* •

Enables the user to quickly identify the most popular T-codes within a functional module, such as finance (SAP FI), controlling (SAP CO) materials management, human resources, payroll, quality management, etc. •

Demonstrates how to execute a transaction using the T-code shortcut method, how to determine the menu tree when the T-code is known, and how to use the menu tree for executing a transaction • *Covers the latest versions of SAP* • *Shows an alphabetical listing of T-codes along with their associated modules and the procedures for executing a transaction code either through the shortcut method or the menu*

Highlights * SAP General Ledger * Organizational Entities in Financial Accounting * Accounts Payable and Accounts Receivable * Asset Accounting * Banking * Special Purpose Ledger * Transaction Codes * Tables and Program Codes

Over the last few years, financial statement scandals, cases of fraud and corruption, data

Access Free Report Painter For Sap Guide File Type

protection violations, and other legal violations have led to numerous liability cases, damages claims, and losses of reputation. As a reaction to these developments, several regulations have been issued: Corporate Governance, the Sarbanes-Oxley Act, IFRS, Basel II and III, Solvency II and BilMoG, to name just a few. In this book, compliance is understood as the process, mapped not only in an internal control system, that is intended to guarantee conformity with legal requirements but also with internal policies and enterprise objectives (in particular, efficiency and profitability). The current literature primarily confines itself to mapping controls in SAP ERP and auditing SAP systems. Maxim Chuprunov not only addresses this subject but extends the aim of internal controls from legal compliance to include efficiency and profitability and then well beyond, because a basic understanding of the processes involved in IT-supported compliance management processes are not delivered along with the software. Starting with the requirements for compliance (Part I), he not only answers compliance-relevant questions in the form of an audit guide for an SAP ERP system and in the form of risks and control descriptions (Part II), but also shows how to automate the compliance management process based on SAP GRC (Part III). He thus addresses the current need for solutions for implementing an integrated GRC system in an organization,

Access Free Report Painter For Sap Guide File Type

especially focusing on the continuous control monitoring topics. Maxim Chuprunov mainly targets compliance experts, auditors, SAP project managers and consultants responsible for GRC products as readers for his book. They will find indispensable information for their daily work from the first to the last page. In addition, MBA, management information system students as well as senior managers like CIOs and CFOs will find a wealth of valuable information on compliance in the SAP ERP environment, on GRC in general and its implementation in particular. Get a head start on SAP Profitability Analysis (CO-PA)! This practical guide explains step by step how to implement CO-PA. By concentrating only on the essentials, this book will quickly enable you to set up your own contribution margin analysis. 5 video tutorials included !

- Familiarize yourself with basic organizational entities and master data in CO-PA
- Define the actual value flow
- Set up a planning environment
- Create your own reports

Stefan Eifler has worked for more than 15 years as both a consultant and in-house-consultant, with a strong focus on SAP Profitability Analysis. He delivers key CO-PA information precisely and in detail.

20. LSMW
21. Step By Step

Guide To Configure Fiori Launchpad Tiles For Fiori Transactional App 22.Ê SAP UI5

Manufacturing companies need to put a large amount of effort into controlling variances in production. The SAP S/4HANA system provides many tools for highlighting and reviewing these variances. In this book, explore the sources of manufacturing order costs and how they interact to generate variances. Look into target cost versions and learn how different views of variances can give each stakeholder a fuller understanding of non-conformance in manufacturing. Review strategies for setting up the reporting tools to give the most actionable information. Learn some tips for analyzing reporting needs and how to keep the information fresh and meaningful. Understand the interaction between manufacturing orders and cost centers in order to see the big picture of manufacturing performance. Look into the period-end tasks required for order settlement and see how that impacts views of variances. Get an overview of the important configuration tasks. Learn about: - How SAP Manufacturing and Controlling modules interact - Sources of target and actual costs used to determine variances - How manufacturing reporting affects cost center accounting - Strategies for interpreting and managing variances in manufacturing

**Practical Guide to SAP Cost Center Accounting
Practical Guide to SAP CO-PC (Product Cost Controlling)**

**Sap: How to Write a Report Functional Specification
SAP ABAP List Viewer (ALV) - A Practical Guide for ABAP Developers**

Let's Use the Library!

The perfect reference for end-users (accounting clerks, sales reps, shipping and receiving clerks, human resources employees, etc.) who merely use SAP as a tool to get their job done. Much of the coverage is aimed at "immediate" material so that end-users can get back to work on their job functions with the SAP software. Chapters on navigation, integration with Microsoft Office, reporting, business process, and performing common tasks will jump start you into getting work done, and accomplishing more immediately.
