Includes, as a separate section, reprints from Public utilities reports, annotated 1928–33, and from Public utilities reports (new series) 1934–LIFE Magazine is the treasured photographic magazine that chronicled the 20th Century. It now lives on at LIFE.com, the largest, most amazing collection of professional photography on the internet. Users can browse, search and view photos of today’s people and events. They have free access to share, print and post images for personal use.

Fact is never more strange than fiction than when it comes to crime, and the crimes described here are so bizarre it's inconceivable that they could have been made up. In this all-new collection of truly unusual crimes, a sequel to the bestselling Mammoth Book of Bizarre Crimes, Odell and Donnelley tell the extraordinary stories of criminal acts far stranger than any fiction, including the murder of Italian fashion designer Gianni Versace by spree-killer Andrew Cunanan and the killing of intern Chandra Ann Levy, who had had an affair with US Representative Gary Condit, though he was cleared of any involvement in her murder. They reveal how Danilo Restivo was eventually convicted of the murder of Heather Barnett in England after the ritualistic placing of hair connected him to another murder in Italy. They tell the terrible story of the inexplicably brutal murder, over a number of days, of 15-year-old Kristy Bamu by his sister and her lover because they believed him to be practising 'witchcraft'. They also give a chilling account of the thirty-one-year-old mother-of-two, Joanna Dennehy, who killed three men. 'I started killing,' she said, 'to see if I was as cold as I thought I was. Then it got moreish and I got a taste for it.'

This unique work profiles the private lives and careers of 32 American game show hosts, including the originals (e.g. Bill Cullen, Peter Marshall), the classics (e.g. Bob Barker), and the contemporaries (e.g. Regis Philbin). Organized by host, each chapter includes birth and family information and a complete career history. The most significant developments of each host are highlighted—complete with successes, failures, and scandals. Many of the biographies are accompanied by interviews with the host or his family and friends.

First Published in 1999. Routledge is an imprint of Taylor & Francis, an informa company.

This is the first book to examine the life and career of Dr. Joyce Brothers, a nearly ubiquitous figure who appeared on television from the mid-1950s (as a contestant on The \$64,000 Question) through the twenty-first century. Known primarily for her insight as a psychologist, Brothers wrote a daily newspaper advice column for more than five decades until her death in 2007. Brothers within the context of the broader American culture, incorporating relevant social, cultural, and historical events into this biographical narrative.

Sailing Made Easy is the first step in a voyage that will last you the rest of your life. It is a gift from a group of dedicated sailing professionals who have committed their lives to sharing their art, their skill, and their passion for this wonderful activity. This book, which Sailing Magazine called "best in class" upon its release in 2010, is the most comprehensive education and boating safety learn-to-sail guide to date. It is also the official textbook for the ASA Basic Keelboat Standard (ASA 101). Incorporated in the textbook are useful illustrations and exceptional photographs of complex sailing concepts. The text's most distinguishing feature is its user-friendly "spreads" in which instructional topics are self-contained on opposing pages throughout the book. There are also chapter end quizzes and a glossary to help those new to sailing to navigate their way through the extensive nautical terminology.

Today's media landscape is changing faster than ever, and students are experiencing these developments firsthand. Media & Culture pulls back the curtain on the media and shows students what all these new trends and developments really mean — giving students the deeper insight and context they need to become informed media critics. The 2013 Update also includes the must-cover events and trends students need to know to become informed media consumers and critics—from social media's influence on political events like the Occupy Wall Street movement and the Arab Spring revolutions and what the News Corp. phone-hacking scandal means for journalism to the continued growth of television streaming and apps and the advent of tablet-only newspapers. Read the preface.

A vivid memoir of life in one of New York City ' s most dynamic neighborhoods Growing Up Bank Street is an evocative, tender account of life in Greenwich Village, on a unique street that offered warmth, support, and inspiration to an adventurous and openhearted young girl. Bank Street, a short strip of elegant brownstones and humble tenements in Greenwich Village, can trace its lineage back to the yellow fever epidemics of colonial New York. In the middle of the last century, it became home to a cast of extraordinary characters whose stories intertwine in this spirited narrative. Growing up, Donna Fiorio had flamboyant, opera performer parents and even more free-spirited neighbors. As a child, she lived among beatniks, artists, rock musicians, social visionaries, movie stars, and gritty blue-collar workers, who imparted to her their irrepressibly eccentric life rules. The real-life Auntie Mame taught her that she is a divine flame from the universe. John Lennon, who lived down the street, was gracious when she dumped water on his head. Sex Pistol star Sid Vicious lived in the apartment next door, and his heroin overdose death came as a wake-up call during her wild twenties. An elderly Broadway dancer led by brave example as Donna helped him comfort dying Villagers in the terrifying early days of AIDS, and a reclusive writer gave her a path back from the brink when, as a witness to the attacks of 9/11, her world collapsed. These vibrant vignettes weave together a colorful coming of age tale against the backdrop of a historic, iconoclastic street whose residents have been at the heart of the American story. As Greenwich Village gentrifies and the hallmarks of its colorful past disappear, Growing Up Bank Street gives the reader a captivating glimpse of the thriving culture that once filled its storied streets.

This book won the Ohio Professional Writer's, Inc. 2014 Communication Competition Award Now in its second edition, The Televiewing Audience is a user's guide for the only household appliance that doesn't come with one. Watching television seems relatively effortless - it is, after all, a major form of entertainment in the U.S. and overseas - yet this book argues that there is nothing simple about watching television, it is a learned activity which is in a constant state of revision and upgrading. Now more than ever, televiewing requires the generation and application of critical thinking to guide program selection, inform appreciation, generate greater pleasure, and inspire dialogue after consumption. This book is about becoming a more thoughtful and informed consumer, designed to shatter the anonymity of the televiewer, and to create a sense of community, for we rarely think of ourselves as instrumental in the televiewing experience or think of the experience as a shared event. Designed for courses related to broadcasting, media effects, media literacy, and audience studies, this book provides a comprehensive overview of the ways in which television influences the way we think about ourselves and our culture. It places us center-stage in the extremely complicated, competitive, rhyasitic and costly endeavor that is television.

*An advanced training series that requires the user to have already mastered basic climbing skills (or aerial lift operation) and cutting techniques. This series begins with the basic methods for hardware selection and use, knot tying, and limb removal, and advances to compound rigging techniques and methods for removing heavy wood.~Back cover of accompanying book.

Normal Organizational Wrongdoing

A Guide

Instances of wrongdoing in and by organizations have featured heavily in news headlines in recent years. Why do organizational participants—employees, managers, senior officials—engage in illegal, unethical, and socially irresponsible behavior? The dominant view of wrongdoing as an abnormal phenomenon assumes that the perpetrator is a rational, proactive actor, working in isolation. However, Palmer develops an alternative approach in this book, examining wrongdoing as a normal occurrence, produced by boundedly rational actors whose behaviour is shaped by the immediate social context over a period of time. The book provides a comprehensive critical review of the theory and research on organizational wrongdoing. By using rich case study material, it illuminates different perspectives, potential explanations, and policy suggestions for the reduction of organizational wrongdoing.

As so-called baby boomers age, there has arisen a new generation to be categorized, characterized, analyzed, stereotyped, written about, targeted, and advertised and sold to. And apparently none of this can happen without first tagging it with a label. The name that seems to have stuck so far is "Generation X," taken from Douglas Coupland's 1991 novel. If nothing else, though, that label suggests an unknown quantity and emphasizes the fact that the most recent generation to come of age is more diverse and fragmented than any before. Undaunted, Ritchie, a past senior vice-president at advertising powerhouse McCann-Erickson and now responsible for media buying for General Motors, argues that marketers and advertisers have ignored differences between "X-ers" and "boomers," which they must now face up to or risk losing this newly dominant market. Traits belonging to this group worth noting, suggests Ritchie, are its diversity, fascination with interactivity, resistance to obvious or patronizing marketing appeals, uncertain future, and general resentfulness of the attention the previous generation received.

Where others have viewed the fifties as an era of conformity, William O'Neillsees a confident time of buoyant expectations and rare national unity.

The Medical College Admission Test® (MCAT®), developed and administered by the AAMC, is a standardized, multiple-choice examination created to help medical school admissions offices assess your problem solving, critical thinking, and knowledge of natural, behavioral, and social science concepts and principles prerequisite to the study of medicine. Preparing for the MCAT exam to become enter Medical College this year? Here We 've brought 450+ Exam Questions for you so that you can prepare well for this MCAT exam. Unlike other online simulation practice tests, you get an eBook version that is easy to read & remember these questions. You can simply rely on these questions for successfully certifying this exam.

Presenting case studies of well-known shows including Will and Grace, Birds of a Feather, Sex and the City and Absolutely Fabulous, as well as 'reality' television, this book examines the transformations that have occurred in consumer society since its appearance and the ways in which these have been constructed and represented in popular media imagery. With analyses of the ways in which consumerism has played out in society, Consumerism on TV highlights specific aspects of the changing nature of consumerism by way of considerations of gender, sexuality and class, as well as less definable changes such as those to do with the celebration of ostentatious greed or the righteousness of the ' ethical ' shopper. With attention to the highly delineated consumer field in which ' shopping ' as an embedded practice of everyday life is caught between escapism and politics, authors explore a variety of themes, such as the extent to which consumerism has become embedded in forging identity, the positing of consumerism as a form of activism, the visibility of the gay male consumer and invisibility of the lesbian consumer, and the (re)stratification of consumer types along class lines. An engaging invitation to consider whether the positioning of consumerism through on-screen depictions is indicative of a new type of non-philosophical politics of 'choice' - a form of marketised, (a)political pragmatism - this book will appeal to scholars and students of sociology and cultural and media studies, with interests in class, consumption and gender.

This unique textbook provides a fresh interpretation of media analysis and cultural studies. Each chapter focuses on a particular aspect of American popular culture - including Hollywood cinema, presidential elections and the Super Bowl - to demystify complex concepts such as ritual, postmodernism and political economy. This use of popular culture texts, narratives and interpretations will enable readers to understand more about this important yet esoteric debate. Exploring Media Culture synthesizes a wealth of information and research and presents this in an engaging and accessible format.

It's no secret today's media landscape is evolving at a fast and furious pace — and students are experiencing these developments firsthand. While students are familiar with and may be using the latest products and newest formats, they may not understand how the media has evolved to this point or what all those changes mean. This is where Media and Culture steps in. The eighth edition pulls back the curtain and shows students how the media really works, giving students the deeper insight and context they need to become informed media critics.

Although nearly every other television form or genre has undergone a massive critical and popular reassessment or resurgence in the past twenty years, the game show's reputation has remained both remarkably stagnant and remarkably low. Scholarship on game shows concerns itself primarily with the history and aesthetics of the form, and few works assess the influence the format has had on American society or how the aesthetics and rhythms of contemporary life model themselves on the aesthetics and rhythms of game shows. In Truth and Consequences: Game Shows in Fiction and Film, author Mike Miley seeks to broaden the conversation about game shows by studying how they are represented in fiction and film. Writers and filmmakers find the game show to be the ideal metaphor for life in a media-saturated era, from selfhood to love to family to state power. The book is divided into “rounds,” each chapter looking at different themes that books and movies explore via the game show. By studying over two dozen works of fiction and film—bestsellers, blockbusters, disasters, modern legends, forgotten gems, award winners, self-published curios, and everything in between—Truth and Consequences argues that game shows offer a deeper understanding of modern-day America, a land of high-stakes spectacle where a game-show host can become president of the United States.

What is the smartest, most celebrated game show of all time? In this insider's guide, discover the rich history of Jeopardy! -- the beloved game show that has shaped our culture and entertained audiences for years. Jeopardy! is a lot of things: record-setting game show, beloved family tradition, and proving ground for many of North America's best and brightest. Nearly four decades into its current edition, Jeopardy! now finds itself facing unprecedented change. This is the chronicle of how the show became a cross-generational touchstone and where it's going next. ANSWERS IN THE FORM OF QUESTIONS dives deep behind the scenes, with longtime host Alex Trebek talking about his life and legacy and the show's producers and writers explaining how they put together the nightly game. Readers will travel to bar trivia showdowns with the show's biggest winners and training sessions with trivia whizzes prepping for their shot onstage. And they'll discover new tales of the show's most notable moments--like the time the Clue Crew almost slid off a glacier--and learn how celebrity cameos and Saturday Night Live spoofs built a television mainstay. ANSWERS IN THE FORM OF QUESTIONS looks to the past -- and the future -- to explain what Jeopardy! really is: a tradition unlike any other.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

America was certainly the big winner of World War II, being the last major country intact. Euphoria, hubris, and a naive self-confidence became hallmarks of the people. This hubris was dented a bit in the 1950s when scandals erupted around the TV quiz shows that made everyoe feel so smart, and the U-2 spy incident of 1960 that revealed Americans were being lied to by the government. The book argues that these two events began the credibility gap that engulfed the nation later in the 1960s and continues to haunt us to this day. When the War ended, the United States still had its economy, infrastructure and industry intact. Taking up where the British Empire left off, the powerful new America expanded its influence around the globe. Suddenly light years ahead of any competitor, Americans abandoned themselves to a haze of consumerism and entertainment, trusting that they were safe and could not be harmed. The contestants on the big-money quiz shows turned out to be fakes, and the respected TV executives were also revealed to be liars and cheats. Far worse was yet to come. The United States government was caught in a lie regarding the CIA's U-2 reconnaissance planes overflying the Soviet Union. On the eve of a crucial summit meeting in 1960, the USSR knocked Gary Powers out of the sky, along with plenty of incriminating hardware and data. Moscow delayed revealing what it knew, and Washington spent ten days denying it was a spy plane, then denying that President Eisenhower was aware of it. The world was turning into a very scary place, and soon, American schoolchildren were being taught to duck under their desks if a bomb should strike. Fear began to percolate into the heart of the nation.
