

Rivers Your Local Area

Adventure is out there – you just have to go and find it! Childhood obesity is increasing year on year. Happiness and well-being levels in children are on the decline too. Children spend less time outside and more time in front of screens: computers, phones, games, television. 100 Family Adventures provides a valuable resource bank of tried and tested outdoor activities to enjoy with children, swapping 'screen time' for 'green time'. Particularly inspiring for people who want to get started, but don't know how, the book shows how any family, anywhere in the country, can enjoy time together outdoors. Activities are grouped into themes: Woodland, Water, Close to Home, Hills and Mountains, Exploring, By the Sea, Extreme Weather. Within each section is a range in difficulty, from making a rope swing to scrambling up a stream, from spending a day without electricity to going on a charity bike ride, from exploring a rockpool to camping on an uninhabited island. Packed with inspiring photos, sensible but enthusiastic instructions from parents Tim and Kerry combine with remarks and advice (and jokes!) from children Amy and Ella. 'The adventure ambassadors our current generation of cotton-wool kids urgently need' Daily Telegraph

Committee Serial No. 83-17. Continuation of hearings on beach erosion projects authorization, v.2.

Joint Hearing Before the Subcommittee on Investigations and Review and the Subcommittee on Water Resources of the Committee on Public Works and Transportation, House of Representatives, Ninety-fifth Congress, Second Session, September 30, 1978, at East Grand Forks, Minn

Rivers and Harbors, Flood Control, 1962

A natural and not-so-natural history

Wild Rivers System

Hearings Before the Committee on Interior and Insular Affairs, United States Senate, Eighty-first Congress, First Session, on S. 75 ... and S.J. Res. 4

Hearings Before the Subcommittee on National Parks and Recreation..., 92-1, on H.R. 9119, H.R. 8382, and S. 7..., October 28 and 29, 1971

Studying your Local Area: a guide to information sources (2nd ed)Combat Poverty AgencyProgress in Geography Fieldwork: Key Stage 3Hodder Education

Emphasizes on the acquisition of skills, gathering and evaluating evidence and drawing conclusions, and making learning fun for the young geographer. This work meets the requirements of the National Curriculum and the QCA Scheme of Work and is correlated to the Scottish 5-14 Guidelines.

Civil functions, Department of the army, Delaware river basin commission, St. Lawrence seaway corporation, The Panama canal

Rivers and Harbors Omnibus Bill (title I - H.R. 9859)

Horizons provides accessible material for exciting and motivating geography lessons.

Help your students understand and conduct fieldwork enquiries in their local area with Progress in Geography Fieldwork: Key Stage 3. Nine ready-made fieldwork enquiries contain the instructions, data and activities your students need to successfully carry out, analyse and evaluate fieldwork in their local area or in the classroom. Save time planning and easily integrate fieldwork into your KS3 curriculum with enquiries such as how safe do people think my local area is for cyclists; how sustainable is my local community; and what are the different microclimates around my school. This book can be used flexibly throughout KS3, to gradually builds towards the skills needed for fieldwork at GCSE. Progress in Geography Fieldwork: Key Stage 3 will allow pupils to: - Experience primary and secondary data collection techniques, from traffic counts to quality of life questionnaires - Learn how to present and analyse data effectively - Develop skills of evaluation to judge the strengths and limitations of various techniques - Complete enquiries even if they are unable to leave school grounds, through the data provided in the book

Hearings ... on S. 75, and S.J.Res.4 ... March 21, 22, 23, 24, 25, 26, 28, 29, 30, and 31, April 2, 9, 11, 12, 13, 14, 26, 27, 28, and 30, and May 2, 1949

OCR GCSE (9–1) Geography A: Geographical Themes

Stones River National Battlefield General Management Plan, Rutherford County

Rivers

Throughout British history rivers have been of profound economic, social and cultural importance – yet as we see with increasing frequency they have the potential to wreak great destruction. This book describes the natural and not-so-natural changes that have affected British rivers since the last ice age and looks at the many plants and animals that live along, above and within them. Detailed case studies of the Meon, Dee and Endrick illustrate the incredibly varied nature of our river ecosystems, and the natural and human factors that make each one different. Written by two widely respected river ecologists, the book looks not only at rivers as they were and are but also at how they can be managed and cared for. Full of interesting facts and stunning images, Rivers is essential reading for anyone professionally involved in rivers and for the naturalist, conservationist and layman alike. It is the one book you need to understand this singularly important and often contentious feature of the British landscape.
