

## Robert B Ellis Department Of Applied Mathematics

On October 1, 1962, James Meredith was the first African American student to enroll at the University of Mississippi. Preceded by violent rioting resulting in two deaths and a lengthy court battle that made it all the way to the Supreme Court, his admission was a pivotal moment in civil rights history. Citing his "divine responsibility" to end white supremacy, Meredith risked everything to attend Ole Miss. In doing so, he paved the way for integration across the country. Originally published in 1966, more than ten years after the Supreme Court ended segregation in public schools in Brown v. Board of Education, Meredith describes his intense struggle to attend an all-white university and break down long-held race barriers in one of the most conservative states in the country. This first-person account offers a glimpse into a crucial point in civil rights history and the determination and courage of a man facing unfathomable odds. Reprinted for the first time, this volume features a new introduction by historian Aram Goudsouzian.

**In 'The Games People Play', Robert Ellis constructs a theology around the global cultural phenomenon of modern sport, paying particular attention to its British and American manifestations. Using historical narrative and social analysis to enter the debate on sport as religion, Ellis shows that modern sport may be said to have taken on some of the functions previously vested in organized religion. Through biblical and theological reflection, he presents a practical theology of sport's appeal and value, with special attention to the theological concept of transcendence. Throughout, he draws on original empirical work with sports participants and spectators. 'The Games People Play' addresses issues often considered problematic in theological discussions of sport such as gender, race, consumerism, and the role of the modern media, as well as problems associated with excessive competition and performance-enhancing substances.**

George Dallas Mosgrove was born in Louisville, Kentucky, in 1844 and enlisted in the Fourth Kentucky Cavalry Regiment as a private on September 10, 1862. Through service as a clerk and orderly in both regimental and brigade headquarters, he became familiar with the environment of officers and command. His eyewitness account illuminates the western theater of the Civil War in Kentucky, east Tennessee, and southwest Virginia. Mosgrove admits to a romanticism influenced by Sir Walter Scott in his description of the superiority of the officers and "some of the boys" in his regiment. At the same time, his narrative includes unadorned passages that depict with stark honesty the sordidness of war and man's inhumanity. Mosgrove provides firsthand information about military actions at Blue Springs, Saltville, and elsewhere and relates details of his participation in John Hunt Morgan's Last Kentucky raid and the skirmish where Morgan was killed.

Mosgrove's highly entertaining account is a perceptive and informative retelling of the truth as he saw it. This Bison Books edition also contains newly discovered material on Morgan's death.

**When a vibrant young woman is found in bed by her hotshot businessman husband, carved from belly to throat with a very sharp knife, the elite Robbery-Homicide division of the LAPD responds in full force. Best-case scenario for lead Detective Lena Gamble: Nikki Brant's husband killed her, case closed, and on to the next crime scene before the ravenous Hollywood media can get their lurid tabloid machinery up and running. Unfortunately for Lena, though, she knows that best-case scenarios only happen in the movies. The murder is the first in a series of brutal crimes against beautiful women thought to be perpetrated by the same man, a killer dubbed Romeo in the press. It's the case of a lifetime, and promises to either elevate Lena to the upper echelons of a publicity-hungry department in need of heroes, or bring about a very public and painful fall from grace. Lena has been in the public eye before, on the night her rock-star brother was gunned down on a dark street in Hollywood--an unsolved murder so grisly she's never recovered. She knows the score when the press and the LAPD collide. As the investigation plays out and a massive forest fire blankets the city with acrid smoke, a cloud of conspiracy descends on Lena's investigation, and she knows she'll have to grind this one out . . . because Nikki Brant's death just breathed new life into more than one closed case . . . because the web of conspiracy is spun more intricately than she can possibly imagine . . . and because Lena knows there's only one rock solid rule to murder in L.A.: The bigger the spectacle, the deeper the horror.**
