

Rogue Economics Loretta Napoleoni

The end of the cold war was thought to signal the triumph of Western capitalism over Communism. In Maonomics: Why Chinese Communists Make Better Capitalists than We Do, Napoleoni argues just the opposite: what we are witnessing instead is the beginning of the collapse of capitalism and the victory of "communism with a profit motive." Maonomics charts the prodigious ascent of the Chinese economic miracle and the parallel course of

the West's ongoing insistence on misconstruing China and its economy even as we acknowledge its growing influence and importance. Maonomics is a warning call whereby Western governments can avoid economic collapse by learning how to understand more clearly what the lessons of the Chinese economy really are. Based on first-hand reporting from China during frequent visits in the last several years, Maonomics lends credence to the Chinese view and translates it for Western readers. For example, the Chinese too are attached to their vision of democracy, but it is

Read PDF Rogue Economics Loretta Napoleoni

different from ours. It isn't focused as much on voting as it is economic opportunity and the fair distribution of wealth and prosperity. Napoleoni also separates failed Leninist political ideology from true Marxist theory, showing that Marx's writings do not reject profit so long as it is used to benefit the people. Marx's dictatorship of the proletariat is being realized in China, she argues, where giant steps forward are being made in the name of progress and the wellbeing and prosperity of the Chinese people. Looking at the Chinese economy up close, any economist would be hard pressed to

the Muslim world from the Western economic system, and opposition to corrupt Arab governments.

A fascinating, groundbreaking exposé of how commodity traders in New York and London have destabilized societies all over the world, leaving the most vulnerable at the mercy of hunger, chaos, and war. For Rupert Russell, the Brexit vote was only the latest shock in a decade full of them: the unstoppable war in Syria, huge migrant flows into Europe, beheadings in Iraq, children placed in cages on the U.S. border. In Price Wars, he sets out on a worldwide journey to investigate

Read PDF Rogue Economics Loretta Napoleoni

what caused the wave of chaos that consumed the world in the 2010s. Russell travels to Tunisia, Iraq, Venezuela, Ukraine, East Africa, and Central America and discovers that unrest in all these places was triggered by dramatic and mysterious swings in the price of essential commodities. Deregulation of the commodities markets means that food prices can shoot up even in years of abundant harvests, causing hunger and protest. Oil prices and real-estate values can surge even when supplies are normal, enriching and emboldening dictators. It is this instability--fueled by banks and hedge funds

Lipstick Jihad

Drugs, weapons, migrant labour, women – these

are just a few of the many goods that effortlessly cross national borders in this globalized age, often without the knowledge or permission of the nations concerned. How is this remarkable criminal feat managed? From gun runners in the Ukraine, to money launderers in Dubai, cyber criminals in Brazil, racketeers in Japan, and the booming marijuana industry in western Canada, McMafia builds a breathtaking picture of a secret and bloody business. Internationally celebrated writer Misha Glenny crafts a fascinating, highly readable, and impressively well-researched account of the emergence of

organized crime as a globalized phenomenon and shows how its secret and bloody business mirrors both the methods and the rewards of the legitimate world economy. Employing his journalistic talent and his prior experience covering organized crime in Eastern Europe, Glenny reports on his travels around the planet to investigate this worrying and worsening situation. After comprehensively surveying the criminal scene, Glenny ends by considering the future of organized crime. *McMafia* is an important book that assembles all the pieces of this worldwide puzzle for the first time.

When we think of great events in the history of the world, we tend to think of war, revolution, political upheaval or natural catastrophe. But throughout history there have been moments of vital importance that have taken place not on the battlefield, or in the palaces of power, or even in the violence of nature, but between the pages of a book. In our digitised age of instant information it is easy to underestimate the power of the printed word. In his fascinating book, Melvyn Bragg presents a vivid reminder of the book as agent of social, political and personal revolution. 12 Books that Changed

the World presents a rich variety of human endeavour and a great diversity of characters. There are also surprises. Here are famous books by Darwin, Newton and Shakespeare - but we also discover the stories behind some less well-known works, such as Marie Stopes' Married Love, the original radical feminist Mary Wollstonecraft's A Vindication of the Rights of Woman - and even the rules to an obscure ball game that became the most popular sport in the world . . .

The Business Ethics Workshop by James Brusseau focuses on reality and engagement.

Students respond to examples and contemporary cases that touch on their own anxieties, desires and aspirations, and this textbook drives that without sacrificing intellectual gravity. It incites student interest and gets to the core of ethical issues.

Forfatteren kortlægger terrorismen som et verdensomspændende økonomisk netværk, der forsyner bevæbnede grupper med en endeløs strøm af penge. Samtidig er dette netværk så økonomisk stærkt, at en afvikling vil kunne ryste verdensøkonomien

***The winners of the Nobel Prize in Economics
upend the most common assumptions about how***

economics works in this gripping and disruptive portrait of how poor people actually live. Why do the poor borrow to save? Why do they miss out on free life-saving immunizations, but pay for unnecessary drugs? In Poor Economics, Abhijit V. Banerjee and Esther Duflo, two award-winning MIT professors, answer these questions based on years of field research from around the world. Called "marvelous, rewarding" by the Wall Street Journal, the book offers a radical rethinking of the economics of poverty and an intimate view of life on 99 cents a day. Poor Economics shows that creating a world without poverty begins

with understanding the daily decisions facing the poor.

In an engaging Q-and-A with the reader, Forbes and Ames answer tough questions about today's issues while explaining the fundamentals of a free-market economy. They show how democratic capitalism is more effective than any other system in improving the lives of people. An unparalleled look into the Iraqi insurgency and the multitude of forces that continue to shape it, Insurgent Iraq: Al-Zarqawi and the New Generation presents a chilling account of the regrouping of terror networks, and the

development of an Iraqi resistance since the invasion by coalition forces over two years ago. One of the world's leading specialists on terrorism, economist Loretta Napoleoni is uniquely qualified to make sense of the ways in which terror networks do and do not operate in Iraq, and what role they play in the Iraqi resistance. Is the insurgency in Iraq a counter-Crusade, a national liberation movement, or a civil war? With a complex understanding of all the intricacies inherent in such a question, Napoleoni provides a mindful discussion, offering a much-needed understanding of how the US

occupation of Iraq has catalyzed the cultural, religious, and political divides within the country to create a wholly changed, more volatile landscape. Composed of independent Iraqi Jihadist groups, Islamo-Nationalist and Ba'ath party resistance, ethnic infighting between Sunni, Shi'ite and Kurd, and foreign suicide bombers, the resistance is a divided yet maintains one demand: the end of US occupation. Overall, Napoleoni offers a breakdown of the current political landscape in Iraq, and a renovated al-Qaeda. Insurgent Iraq is a necessary read for anyone concerned with the

future of Iraq, or seeking greater insight into the U.S.'s critical role in the Middle East.

and the financial crisis, we will never work our way out of the looming global recession that now threatens our way of life. While we feared that Al-Qaeda might destroy our world, Wall Street ripped it apart.

On Point is a study of Operation IRAQI FREEDOM (OIF) as soon after the fact as feasible. The Army leadership chartered this effort in a message to the major commands on 30 April 2003. In his guidance, Army Chief of Staff General Eric K. Shinseki directed "a quick, thorough

review that looks at the US Army's performance, assesses the role it played in the joint and coalition team, and captures the strategic, operational, and tactical lessons that should be disseminated and applied in future fights." For those of us in the Operation IRAQI FREEDOM Study Group (OIF-SG), this translated into three separate products. A "quick look" lessons-learned briefing produced in July, less than 30 days after returning from the theater. On Point-this work-is the second product and was largely

completed by mid-August 2003. Finally, the most significant product is the archive of 119,000 documents, some 2,300 interviews and 69,000 photos archived with the support and assistance of the Combined Arms Research Library at Fort Leavenworth, Kansas.

of the CIA to ensure our nation's safety at home and abroad.

Publisher Description

Worshipped by her fans, denounced by her enemies, and forever shadowed by controversy and scandal, the novelist and philosopher Ayn Rand was a powerful thinker whose views on government and markets shaped the conservative movement from its earliest days.

Drawing on unprecedented access to Rand's private papers and the original, unedited versions of Rand's journals, Jennifer Burns offers a groundbreaking reassessment of this key cultural figure, examining her life, her ideas, and her impact on conservative political

Read PDF Rogue Economics Loretta Napoleoni

thought. Goddess of the Market follows Rand from her childhood in Russia through her meteoric rise from struggling Hollywood screenwriter to bestselling novelist, including the writing of her wildly successful *The Fountainhead* and *Atlas Shrugged*. Burns highlights the two facets of Rand's work that make her a perennial draw for those on the right: her promotion of capitalism, and her defense of limited government. Both sprang from her early, bitter experience of life under Communism, and became among the most deeply enduring of her messages, attracting a diverse audience of college students and intellectuals, business people and Republican Party activists, libertarians and

Read PDF Rogue Economics Loretta Napoleoni

conservatives. The book also traces the development of Rand's Objectivist philosophy and her relationship with Nathaniel Branden, her closest intellectual partner, with whom she had an explosive falling out in 1968. One of the Denver Post's Great Reads of 2009 One of Bloomberg News's Top Nonfiction Books of 2009 "Excellent." --Time magazine "A terrific book--a serious consideration of Rand's ideas, and her role in the conservative movement of the past three quarters of a century." --The American Thinker "A wonderful book: beautifully written, completely balanced, extensively researched. The match between author and subject is so perfect that one might believe that the author was

chosen by the gods to write this book. She has sympathy and affection for her subject but treats her as a human being, with no attempt to cover up the foibles." --Mises Economics Blog

Are the huge profits garnered by corporations each year a case of a few bad apples in the business world taking advantage of unmonitored dealings? Is this consolidation of wealth made at the expense of the overall economy and the wellbeing of the average citizen? Will the planet be saved by developing more "green businesses" and "green collar" jobs? Joel Magnuson delivers a powerful response to the current misconceptions about the US economy in his brilliantly accessible *Mindful Economics*.

Read PDF Rogue Economics Loretta Napoleoni

The troubles we face are not the result of a good system gone awry, but rather a system that is built to do exactly what it is doing: corporations are designed to reap profits for its shareholders, at any cost. The greater welfare of society, or of the environment, will never be as important as financial gain. Magnuson shows us the relationship between the current wars abroad; rising oil prices; the recession; ballooning incomes of top CEOs; the mortgage crisis; and the health care, insurance, and auto industries, and he teaches us that the best way to understand the US economy is to think like an economist. With stunning clarity, Magnuson shows the interconnectedness of the local with the global, and

offers real alternatives to this capitalist model.

underground business delivers thousands
of refugees a day all along the
Mediterranean coasts of Europe. The new
breed of criminals that controls it has
risen out of the political chaos of
post-9/11 Western foreign policy and
the fiasco of the Arab Spring. These
merchants of men are intertwined with*

jihadist armed organizations such as al Qaeda in the Maghreb. They have prospered smuggling cocaine from West Africa and kidnapping Westerners. More recently, the destabilization of Syria and Iraq coupled with the rise of ISIS offered them new business opportunities in the Middle East, from selling Western hostages to jihadist groups to trafficking in refugees numbering in the millions. Overall, the kidnapping industry today is bigger than the

illegal drug trade and worth hundreds of billions of dollars annually.

Merchants of Men is based on exclusive access to hostage negotiators actively involved in ransom negotiations and rescue missions, counter-terrorism experts, members of security services, and former hostages, among many others. The reader will discover that the protocols of prevention and rescue change according to the type of abduction and the designated targets,

and will come to know first hand the range of experiences of kidnapping victims. Will the West once again reap the benefits of the political chaos it has sown in its own backyard? From colonization to the advent of "friendly" dictatorial regimes, today's fast-aging European nations are buyers on the refugee market. New workers are needed, and the merchants of men are supplying them. But only skilled, highly educated refugees are wanted. As

*a tsunami of migrants and refugees
floods Europe, new questions almost too
numerous to count must be answered.*

Islamic Finance

Rogue Economics
