

Rosie Reverses Big Project Book For Bold Engineers

New York Times Bestseller Rosie may seem quiet during the day, but at night she's a brilliant inventor of gizmos and gadgets who dreams of becoming a great engineer. When her great-great-aunt Rose (Rosie the Riveter) comes for a visit and mentions her one unfinished goal—to fly—Rosie sets to work building a contraption to make her aunt's dream come true. But when her contraption doesn't fly but rather hovers for a moment and then crashes, Rosie deems the invention a failure. On the contrary, Aunt Rose insists that Rosie's contraption was a raging success: you can only truly fail, she explains, if you quit. From the powerhouse author-illustrator team of Iggy Peck, Architect comes Rosie Revere, Engineer, another charming, witty picture book about believing in yourself and pursuing your passion. Ada Twist, Scientist, the companion picture book featuring the next kid from Iggy Peck's class, is available in September 2016.

An uplifting story about the power of art, finding your voice, and telling your story even when you're out of step with your peers from the #1 bestselling creators of Sofia Valdez, Future Prez and Ada Twist, Scientist! Aaron Slater loves listening to stories and dreams of one day writing them himself. But when it comes to reading, the letters just look like squiggles to him, and it soon becomes clear he struggles more than his peers. When his teacher asks each child in the class to write a story, Aaron can't get a single word down. He is sure his dream of being a storyteller is out of reach . . . until inspiration strikes, and Aaron finds a way to spin a tale in a way that is uniquely his. Printed with a dyslexia-friendly font, Aaron Slater, Illustrator tells the empowering story of a boy with dyslexia who discovers that his learning disability may inform who he is, but it does not define who he is, and that there are many ways to be a gifted communicator. Follow Iggy Peck, Rosie Revere, Ada Twist, Sofia Valdez, and Aaron Slater on all of their adventures! Add the picture books, chapter books, and activity books starring The Questioners by Andrea Beaty and David Roberts to your family library today.

A new addition to the bestselling Questioners chapter book series following Ada Twist, the star of the Netflix TV show! Blue River Creek has a problem: There's a pet thief on the loose! Or at least, Sofia and Iggy are convinced that there is, once their pets go missing. But as a scientist, Ada knows it's important not to jump to conclusions and to follow the facts. How will they find out what really happened to the town's pets? By using the Scientific Method of course! Through making a hypothesis, collecting data, and experimentation, the Questioners must find the missing animals before even more pets disappear!

Rosie Revere is no stranger to flops and fails, kerfuffles and catastrophes. After all, engineering is all about perseverance! But this time, Rosie has a really important project to tackle—one that feels much bigger than herself. Rosie's beloved Aunt Rose and her friends, the Raucous Riveters—a group of fun-loving gals who built airplanes during World War II—need help inventing something new. And Rosie is just the engineer for the job! After one flop . . . then another . . . and another . . . Rosie starts to lose hope. But thanks to some help from her fellow Questioners Iggy Peck and Ada Twist, Rosie gets the job done. And, along with the Riveters, she

rediscovers the meaning of home.

Ada Twist, Scientist

A meditative picture book about the power of reading and how one child can change

the world, from #1 bestselling author Andrea Beaty *One girl. One spark. Faint and fading in the dark. Flicker . . . Flicker . . . Flicker . . . Glow. Tiny ember. Burning low.* Inspired by the global movement to empower girls through education, this lyrical story tells of one small girl who reads a book that lights a spark. She shares what she learns with her class, and the spark grows. The girl is then moved to write her own story, which she shares with girls around the globe, and it ignites a spark in them, lighting up the whole world. This heartwarming and moving narrative shows how books and education can inspire change and how one child can make a huge difference.

What happens when the wind stops? The air grows hot and still and hard to breathe. Hospitals fill with patients. The world begins to panic. What happens when the wind stops? For Hurricane, this global disaster strikes at his core; but he must recover the magical horn that will fix everything. Can magic be real? And how can it finding the horn rest on Hurricane's twelve-year-old shoulders? This classic epic fantasy from beloved author Bruce Coville will enthrall readers while it reminds them of the magic that lies in friendship and that friendship just might have the power to save the world. For Hurricane, this global disaster strikes at his core. He got his name because he was born during a hurricane, and he has always felt a strangely intense connection to the wind. And now his mother is one of the sick people in the hospital. But what can he do? He's just a kid. When all this turns out to be TRUE, Hurricane

embarks on the adventure of his life: a journey to different worlds, where he will make friends unlike any people he has ever known. He will discover courage, strength, humor, and an ability to bring people together.

Meet Izzy Gizmo – a fabulously feisty new character from Pip Jones (Squishy McFluff; Daddy's Sandwich) brought brilliantly to life with exuberant and detailed illustrations from the best-selling illustrator of *The Detective Dog*, Sara Ogilvie. Izzy Gizmo, a girl who LOVED to invent, carried her tool bag wherever she went in case she discovered a thing to be mended, or a gadget to tweak to make it more splendid. Isabelle Gizmo just loves to invent, but her inventions never seem to work the way she wants them to. And that makes her really CROSS! When she finds a crow with a broken wing she just has to help. But will she be able to put her frustrations to one side and help her new friend to fly again? Shortlisted for the Sainsbury's Children's Book Prize 2017, this empowering book is perfect for fans of Rosie Revere, Engineer, *Fantastically Great Women Who Changed the World* and *Good Night Stories for Rebel Girls*. The Icarus Project

Peck & Revere Studio Two-Pocket Journal

Rosie Revere and the Raucous Riveters

More than anything, Maya wants to discover something incredible. Her parents are scientists: Her mother spends most of her time in tropical rainforests, uncovering ancient artifacts, and her dad is obsessed with digging up mammoths. When her father gets invited by an eccentric billionaire to lead a team investigating a mammoth's remains in the Arctic, Maya begs to come along. Upon her arrival at the isolated camp, the mammoth is quickly revealed to be a fake, but there is something hidden in the ice—something unbelievable. Along with a team of international experts, each with his or her own agenda and theory about the mystery in the ice, Maya learns more about this discovery, which will change her life forever. Laura Quimby expertly mixes adventure, science, and wonder into a page-turning story perfect for middle-grade explorers. Praise for *The Icarus Project* "Who wouldn't want to find something earth-shatteringly unique while on an Arctic expedition?.. Quimby's plot is exuberantly fast-paced and earnest." —Kirkus Reviews "Maya's earnest first-person point of view and sense of fair play make her easy to root for, and the inclusion of a boy character as a foil to Maya, along with lively writing and plenty of

action, will help this middle-grade novel pull in reluctant readers."
—Booklist "Maya is an earnest and likable character and the plot is fast-paced enough to hold readers' attention. Maya's curiosity, bravery, and desire to do the right thing will resonate with many readers." —School Library Journal

A Project Guide to Matter

“A lighthearted, clever send-up of zany horror conventions, this book is just the thing for kids about ready for M. T. Anderson’s Whales on Stilts.” –Booklist When Joules and Kevin Rockman’s parents drop them off at Camp Whatsitooya on their way to an International Spamathon, the twins expect a summer of marshmallows, campfires, and canoe trips. What they do not expect is to defend the earth from an invasion of sugar-addicted, murderous, seven-foot-tall rabbits from another galaxy. Happily, the Rockman twins, veteran watchers of the Late, Late, Late Creepy Show for Insomniacs, are unusually well-

prepared for dealing with monstrous beings from outer space. If only their fellow campers were so lucky. Andrea Beaty, New York Times–bestselling author of several very funny picture books and a mystery novel, here reaches new heights of hilarity and verbal dexterity in a novel sure to become a camp—ba-dum-dum—classic. “Beaty’s tale of high silliness is sure to please, and it’s dotted with Santat’s mini-comics and spot illustrations, which move the story along.” —Kirkus Reviews “Beaty’s storytelling is lighthearted and fast-paced . . . her unconventional and entertaining narrative make it a wholly fun read.” —Publishers Weekly

Robbie Darko is a magician. An old-school, pull-a-rabbit-out-of-your-hat-style magician. Robbie loves magic and he’s good at it—sort of. Despite his best efforts, passion, and practice, something always goes wrong with his tricks, landing Robbie in trouble. Enter crotchety Grandma Melvyn, who calls everyone “Trixie” and complains about everything. When Grandma Melvyn moves in and takes over his room, Robbie discovers that she was once an internationally renowned magician and learns about the heartache that turned her into a bitter woman. Against all odds, Robbie and Grandma Melvyn form an uneasy

alliance to show the world—or at least the kids of Hobson Elementary School—that he is a true magician. Shortly after a successful talent show, Grandma Melvyn performs a final disappearing act, and Robbie learns a little about the true meaning of magic. Written with pitch-perfect middle-grade humor and unforgettable characters, this gem of a novel will stay with readers long after Dorko the Magnificent has taken his final bow. Praise for Dorko the Magnificent "A young would-be magician gets lessons in both stagecraft and life from a crusty elder... the supporting characters steal the show." —Kirkus Reviews "Short chapters keep the story moving. Robbie has impressive determination, but it is Grandma Melvyn who is the star in this moving story." —Booklist "Satisfying and enjoyable, Dorko will engage reluctant and voracious readers alike." —School Library Journal " A thoroughly likable middle-grade novel, offering a blend of poignancy and giggle-worthy humor, this book is a solid back-to-school read." —The Bulletin of the Center for Children's Books "Literature circles would work well with this title that deals with alienation, friendship, family, reconciliation, and death." —Library Media Connection A #1 New York Times Bestseller A Wall Street Journal Bestseller A USA

Today Bestseller The creators of the New York Times bestselling picture books Rosie Revere, Engineer and Iggy Peck, Architect are back with a story about the power of curiosity in the hands of a child who is on a mission to use science to understand her world. Ada Twist, Scientist, from powerhouse team Andrea Beaty and David Roberts, is a celebration of STEM, perseverance, and passion. Like her classmates, builder Iggy and inventor Rosie, scientist Ada, a character of color, has a boundless imagination and has always been hopelessly curious. Why are there pointy things stuck to a rose? Why are there hairs growing inside your nose? When her house fills with a horrific, toe-curling smell, Ada knows it's up to her to find the source. What would you do with a problem like this? Not afraid of failure, Ada embarks on a fact-finding mission and conducts scientific experiments, all in the name of discovery. But, this time, her experiments lead to even more stink and get her into trouble! Inspired by real-life makers such as Ada Lovelace and Marie Curie, Ada Twist, Scientist champions girl power and women scientists, and brings welcome diversity to picture books about girls in science. Touching on themes of never giving up and problem solving, Ada

comes to learn that her questions might not always lead to answers, but rather to more questions. She may never find the source of the stink, but with a supportive family and the space to figure it out, she'll be able to feed her curiosity in the ways a young scientist should. Iggy Peck and Rosie Revere have earned their places among the most beloved children's characters, and they have inspired countless kids and adults to follow their dreams and passions. Now in her own charming and witty picture book, determined Ada Twist, with her boundless curiosity for science and love of the question "Why?," is destined to join these two favorites. The book is the perfect tool to remind both young girls and women that they have the intelligence and perseverance to achieve their dreams.

Entertaining word problems that let verbal types master the language of math! Math is a universal language, but it's also the least understood and most undervalued subject taught in school. Two Trains Leave Paris: Number Problems for Word People offers an opportunity to experience math like never before. You must use the Pythagorean Theorem to figure out how far apart two ex-lovers are when they simultaneously realize that they cannot live without each other. You

must use addition (and logic) to explore the ridiculous (and patriarchal!) wage gap. Throughout six math-themed chapters, readers will follow a series of characters as they apply for jobs, fall in love, get abducted by aliens, and experience many of life's other big and small moments, all of which are dictated by—you guessed it—math! With the help of humor, mathematical history, and how-to-solve sections, *Two Trains Leave Paris* asks readers to help its characters find growth in the most unexpected of places: word problems. And the answers are, of course, in the back.

What can you engineer from recycled materials? This books has loads of ideas! Construct an airplane from cardboard and a plastic bottle, transform an old T-shirt into a working wind sock, and build a small city from plastic containers. Detailed instructions and photos of the steps and the finished product will guide crafty engineers-in-training to try these engineering-themed activities.
