

Safer Roads Essex Highways

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

The Statutes of New York in Relation to Highways, Bridges, Ferries and Plank Roads, with Commentaries, Also an Appendix Containing Forms and Precedents

This book sets out to investigate the relationship between crime and the design and planning of housing, and to produce practical recommendations to help architects and planners to reduce crime. It builds upon and updates research originally published in Crime Free Housing (1991), providing an easily accessible, high quality and well presented account of crime and housing layout. The recommendations of this book focus on ways of reducing four different types of crime through better design: burglary - a strategy to discourage people trying to break into houses car crime - a strategy for providing a safe place to park cars theft around the home - a strategy for protecting the front of house, items in gardens, sheds and garages safe criminal damage - a strategy to minimize malicious damage to property.

Crime-free Housing in the 21st Century

'This book is a gift for anyone teaching PSHE whether they are new to the profession or experienced practitioners. Sound pedagogical discussion is combined with practical advice to ensure lessons are relevant, meet the needs of learners and allow sensitive issues to be explored in a safe and supportive way.' - Liz Griffiths, Lead Assessor, National PSHE CPD Programme
Personal, Social, Health and Economic Education (PSHEe) is a challenging subject and when well taught, of great value. Drawing from theory and practice in education, health and welfare it encompasses sensitive issues, such as relationships, drugs, safety, and bullying, and is influenced by political concerns of the day such as childhood obesity and the health of the economy. This book, written for those training to teach and early career primary teachers, provides clear guidance on how to tackle sensitive issues and informed ideas to help you to develop into a confident PSHE educator. It has been endorsed as a PSHE Association quality assured resource. The PSHE Association is the national subject association supporting teachers and other professionals working in the field of personal, social, health and economic education (www.pshe-association.org.uk) Key features: Full of practical strategies and examples from schools that clearly demonstrate how to teach PSHEe with primary-aged children. A focus on best practice teaching enabling you to plan flexibly to meet the needs of your learners. Nick Boddington acts as National Subject Adviser for the PSHE Association, Jenny McWhirter is the Research Associate for the PSHE Association, and both her and Adrian King are experienced PSHE authors and education consultants.

Transportation and Public Health: An Integrated Approach to Policy, Planning, and Implementation helps current and future transportation professionals integrate public health considerations into their transportation planning, thus supporting sustainability and promoting societal health and well-being. The book defines key issues, describes potential solutions, and provides detailed examples of how solutions have been implemented worldwide. In addition, it demonstrates how to identify gaps in existing policy frameworks. Addressing a critical and emerging urgent need in transportation and public health research, the book creates a coherent, inclusive and interdisciplinary framework for understanding. By integrating principles from transportation planning and engineering, health management, economics, social and organizational psychology, the book deepens understanding of these multiple perspectives and tensions inherent in integrating public health and transportation planning and policy implementation. Bridges the gap between transport and public health, two fields that have traditionally traveled on separate and parallel tracks Synthesizes key research and practice literature Includes teaching and learning aids, such as case studies, chapter objectives, summaries and discussion questions
