A common tendency in the field of population ecology has been to overlook individual differences by treating populations as homogeneous units; conversely, in behavioral ecology the tendency has been to concentrate on how individual behavior is shaped by evolutionary forces, but not on how this behavior affects population dynamics. Adam Lomnicki and others aim to remedy this one-sidedness by showing that the overall dynamical behavior of populations must ultimately be understood in terms of the behavior of individuals.

Professor Lomnicki's wide-ranging presentation of this approach includes simple mathematical models aimed at describing both the origin and consequences of individual variation among plants and animals. The author contends that further progress in population ecology will require taking into account individual differences other than sex, age, and taxonomic affiliation--unequal access to resources, for instance. Population ecologists who adopt this viewpoint may discover new answers to classical questions of population ecology. Partly because it uses a variety of examples from many taxonomic groups, this work will appeal not only to population ecologists but to ecologists in general.

This Google Play Book version is not interactive because it is not on PowerPoint. The interactive PowerPoint version can be downloaded from: <https://www.teacherspayteacher.com/Store/E3-Scholastic/Search:Regents+powerpoint+spectacular> This Google Play version of the Regents exam is great for practicing anytime and anywhere without the need for your book and reference table. It's all on the slides. This has never been done before, and there's no resource like it out there. Be the first in your school to use this for your Regents prep. I created this product originally on PowerPoint because I was frustrated with using pdf download of the exams to review with my students. Here are some key features that make this resource on PowerPoint a much better alternative to just using pdf.

1. Each Regents Question on an Individual Slide.
2. All Information, Table, Diagram, and/or Graph of a Question Are on the Same Screen.
3. Correct Multiple-Choice Answer or Acceptable Constructed Response Answers to a Question is Revealed with Just a Click or Touch.
4. Spectacular Background Images and Flashy Borders.
5. Beautiful Cinematic Wide Screen View on Media Projectors and Mobile Devices.

I will have Regents on PowerPoint available for the following exams: Biology: August 2017, June 2017, January 2017, August 2016 and June 2016 Chemistry: August 2017, June 2017, January 2017, August 2016 and June 2016 Earth science: August 2017, June 2017, January 2017, August 2016 and June 2016 Please leave me your rating and comment. Thanks.
