Philosophy for AS and A2 is the definitive textbook for students of Advanced Subsidiary or Advanced Level philosophy courses, structured directly around the specification of the AQA. Following a lively foreword by Nigel Warburton, author of Philosophy: The Basics, a team of experienced teachers devote a chapter each to the six themes covered by the syllabus: Each of the chapters include helpful student-friendly features. a list of key concepts, to introduce students to the topic bite-size sections corresponding to the syllabus topics actual exam questions from previous years suggested discussion questions to promote debate text-boxes with helpful summaries, case-studies and examples an annotated further-reading list directing students towards the best articles,

books and websites a comprehensive glossary, providing a handy reference point There is a final chapter on essay writing and exam preparation, designed to help students get to grips with the examination board requirements. Philosophy for AS and A2 is written by a team of expert teachers based at Heythrop College - part of the University of London - which specializes in teaching philosophy and theology.

Scrum has the magnetic characteristic to attract the individuals and organizations to adopt Scrum and achieve high value.

Flexibility, creativity and productivity not only motivate those who work on projects but also give most favorable results to the organizations. The structure and unique

features of this book that can help aspirants to adopt Scrum and get certified in PSM I or PSPO I examinations are: 1. Scrum Theory:

Cover everything which is part of Scrum Guide. We have not adulterated the concepts of Scrum Guide in any manner. "Information Nuggets" are added at the end of the chapters to explain those aspects that need a little more explanation. 2. Additional

Concepts: These topics are either mentioned in the Scrum Guide but not explained or are not part of Scrum Guide but are often asked

in certification examinations. 3. Questions (400 Unique): This unit has 5 Model Test Papers (MTPs). Each MTP has 80 questions. We have endeavored to minimize repetition to zero levels. These 400 questions are result of in-depth research of those who train professionals to prepare for certification examinations and those who apply Scrum Framework in organizations. Master these 400 questions to clear PSM I or PSPO I certification exam in first attempt itself. 4. **Scrum Rules in Tabular Format:** Scrum journey requires referring to the Scrum rules as and when required. In Scrum Guide, these rules are not given separately and are merged with the theory. It is a time-consuming and tedious exercise for users to search these rules in theory. We have simplified this tedious exercise through a tabular format.
