**** A Christian Classic ** ** Active Table of Contents **** This book comes complete with a Touch-or-Click Table of Contents, divided by each section. The Lais of Marie de France are a series of twelve short narrative Breton lais by the poet Marie de France. They are written in the Anglo-Norman and were probably composed in the late 12th century. The short, narrative poems generally focus on glorifying the concept of courtly love through the adventures of their main characters. Despite her stature in Anglo-Norman literature and medieval French literature generally, little is known of Marie herself, though it is thought that she was born in France and wrote in England. Marie de France's lais, told in octosyllabic, or eight syllable verse, are notable for their celebration of love, individuality of character, and vividness of description - hallmarks of the emerging literature of the times. Five different manuscripts contain one or more of the lais, but only one, Harley 978, a thirteenth century manuscript housed in the British Library, preserves all twelve. It has been suggested that if the author had indeed arranged the Lais as presented in Harley 978, that she may have chosen this overall structure to contrast the positive and negative actions that can result from love. In this manuscript, the odd lais - "Guigemar," "Le Fresne," etc. - praise the characters who express love for other people. By comparison, the even lais, such as "Equitan," "Bisclavret" and so on, warn how love that is limited to oneself can lead to misfortune. The Harley 978 manuscript also includes a 56-line prologue in which Marie describes the impetus for her composition of the lais. In the prologue, Marie writes that she was inspired by the example of the ancient Greeks and Romans to create something that would be both entertaining and morally instructive. She also states her desire to preserve for posterity the tales that she has heard. Two of Marie's lais - "Lanval," a very popular work that was adapted several times over the years (including the Middle English Sir Launfal), and "Chevrefoil" ("The Honeysuckle"), a short composition about Tristan and Iseult - mention King Arthur and his Knights of the Round Table. Marie's lais were precursors to later works on the subject, and Marie was probably a contemporary of Chrétien de Troyes, another writer of Arthurian tales. As plague ravages the overcrowded Earth, observed by a ruthless lunar people, Cinder, a gifted mechanic and cyborg, becomes involved with handsome Prince Kai and must uncover secrets about her past in order to protect the world in this futuristic take on the Cinderella story. Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward

provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

A Novel

Bad Marie

The "wisest and most captivating novel" (Boston Globe) from the author of the bestselling The Valley of Amazement and the new memoir Where the Past Begins Set in San Francisco and in a remote village of Southwestern China, Amy Tan's The Hundred Secret Senses is a tale of American assumptions shaken by Chinese ghosts and broadened with hope. In 1962, five-year-old Olivia meets the half-sister she never knew

existed, eighteen-year-old Kwan from China, who sees ghosts with her "yin eyes." Decades later, Olivia describes her complicated relationship with her sister and her failing marriage, as Kwan reveals her story, sweeping the reader into the splendor and violence of mid-nineteenth century China. With her characteristic wisdom, grace, and humor, Tan conjures up a story of the inheritance of love, its secrets and senses, its illusions and truths.

After meeting a mysterious stranger, a sickly woman drinks a powerful potion that opens her eyes, heart and mind to the wonders of the supernatural. Once she's been exposed, she's eager to learn more about the spiritual world. A Romance of Two Worlds follows a young woman who struggles with a serious health condition. Despite her doctor's best efforts, they are unable to provide a cure or any long-term relief. In an attempt to ease her physical and emotional pain, she goes on vacation and encounters a stranger called Raffello Cellini. He has a divine energy and supplies the woman with a potion that leads to a spiritual awakening. She develops a thirst for knowledge and experience that can only be quelled by one figure—God. A Romance of Two Worlds was Marie Corelli's first novel, which set the tone for her subsequent works. Her stories are infused with various themes that often conflict with one another. This novel is a unique and captivating debut from one of the most read authors of the late-nineteenth and early-twentieth centuries. With an eye-catching new cover, and professionally typeset manuscript, this edition of A Romance of Two Worlds is both modern and readable.

A sweeping, lyrical novel following a Korean immigrant pursuing the American dream who must confront the secrets of the past or risk watching the world he's worked so hard to build come crumbling down. Dr. Yungman Kwak is in the twilight of his life. Every day for the last fifty years, he has brushed his teeth, slipped on his shoes, and headed to Horse Breath's General Hospital, where, as an obstetrician, he treats the women and babies of the small rural Minnesota town he chose to call home. This was the life he longed for. The so-called American dream. He immigrated from Korea after the Korean War, forced to leave his family, ancestors, village, and all that he knew behind. But his life is built on a lie. And one day, a letter arrives that threatens to expose it. Yungman's life

is thrown into chaos—the hospital abruptly closes, his wife refuses to spend time with him, and his son is busy investing in a struggling health start-up. Yungman faces a choice—he must choose to hide his secret from his family and friends or confess and potentially lose all he’s built. He begins to question the very assumptions on which his life is built—the so-called American dream, with the abject failure of its healthcare system, patient and neighbors who perpetuate racism, a town flawed with infrastructure, and a history that doesn’t see him in it. Toggling between the past and the present, Korea and America, Evening Hero is a sweeping, moving, darkly comic novel about a man looking back at his life and asking big questions about what is lost and what is gained when immigrants leave home for new shores.

THE DEFINITIVE EDITION • Discovered in the attic in which she spent the last years of her life, Anne Frank's remarkable diary has since become a world classic—a powerful reminder of the horrors of war and an eloquent testament to the human spirit. Updated for the 75th Anniversary of the Diary's first publication with a new introduction by Nobel Prize-winner Nadia Murad "The single most compelling personal account of the Holocaust ... remains astonishing and excruciating."—The New York Times Book Review In 1942, with Nazis occupying Holland, a thirteen-year-old Jewish girl and her family fled their home in Amsterdam and went into hiding. For the next two years, until their whereabouts were betrayed to the Gestapo, they and another family lived cloistered in the "Secret Annex" of an old office building. Cut off from the outside world, they faced hunger, boredom, the constant cruelties of living in confined quarters, and the ever-present threat of discovery and death. In her diary Anne Frank recorded vivid impressions of her experiences during this period. By turns thoughtful, moving, and amusing, her account offers a fascinating commentary on human courage and frailty and a compelling self-portrait of a sensitive and spirited young woman whose promise was tragically cut short.

NEW YORK TIMES BESTSELLER • The little-known true story of Marie-Madeleine Fourcade, the woman who headed the largest spy network in occupied France during World War II, from the bestselling author of *Citizens of London* and *Last Hope Island* "Brava to Lynne Olson for a biography that should challenge any outdated assumptions about who deserves to be called a hero."—The Washington Post NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR AND THE WASHINGTON POST In 1941 a thirty-one-year-old Frenchwoman, a young mother born to privilege and known for her beauty and glamour, became the leader of a vast intelligence organization—the only woman to serve as a chef de résistance during the war. Strong-willed, independent, and a lifelong rebel against her country's conservative, patriarchal society, Marie-Madeleine Fourcade was temperamentally made for the job. Her group's name was Alliance, but the Gestapo dubbed it Noah's Ark because its agents used the names of animals as their aliases. The name Marie-Madeleine chose for herself was Hedgehog: a tough little animal, unthreatening in appearance, that, as a colleague of hers put it, "even a lion would hesitate to bite." No other French spy network lasted as long or supplied as much crucial intelligence—including providing American and British military commanders with a 55-foot-long map of the beaches and roads on which the Allies would land on D-Day—as Alliance. The Gestapo pursued them relentlessly, capturing, torturing, and executing hundreds of its three thousand agents, including Fourcade's own lover and many of her key spies. Although

Fourcade, the mother of two young children, moved her headquarters every few weeks, constantly changing her hair color, clothing, and identity, she was captured twice by the Nazis. Both times she managed to escape—once by slipping naked through the bars of her jail cell—and continued to hold her network together even as it repeatedly threatened to crumble around her. Now, in this dramatic account of the war that split France in two and forced its people to live side by side with their hated German occupiers, Lynne Olson tells the fascinating story of a woman who stood up for her nation, her fellow citizens, and herself. “Fast-paced and impressively researched . . . Olson writes with verve and a historian’s authority. . . . With this gripping tale, Lynne Olson pays [Marie-Madeleine Fourcade] what history has so far denied her. France, slow to confront the stain of Vichy, would do well to finally honor a fighter most of us would want in our foxhole.”—The New York Times Book Review

And I Thought...

"Brings to life Franklin's grit and spirit...an important contribution to the historical record." –The Washington Post The new novel from the New York Times bestselling author of *The Mystery of Mrs. Christie*! She changed the world with her discovery. Three men took the credit. Rosalind Franklin has always been an outsider—brilliant, but different. Whether working at the laboratory she adored in Paris or toiling at a university in London, she feels closest to the science, those unchanging laws of physics and chemistry that guide her experiments. When she is assigned to work on DNA, she believes she can unearth its secrets. Rosalind knows if she just takes one more X-ray picture—one more after thousands—she can unlock the building blocks of life. Never again will she have to listen to her colleagues complain about her, especially Maurice Wilkins who'd rather conspire about genetics with James Watson and Francis Crick than work alongside her. Then it finally happens—the double helix structure of DNA reveals itself to her with perfect clarity. But what unfolds next, Rosalind could have never predicted. Marie Benedict's powerful new novel shines a light on a woman who sacrificed her life to discover the nature of our very DNA, a woman whose world-changing contributions were hidden by the men around her but whose relentless drive advanced our understanding of humankind.
