

## Secrets Psycop 4 Jordan Castillo Price

Troubled medium Vic and his boyfriend Jacob try to find a home they can move into that’s not infested-with either cockroaches, or ghosts. A deceased junkie with a bone to pick leads Victor on a wild chase that ends in a basement full of horrors. Then, Jacob is the breaking point, and Victor’s old partner Lisa needs him to help her work through an ethical psychic dilemma.

The second PsyCop adventure finds the ghosts surrounding Victor getting awfully pushy. The medications that Victor usually takes to control his abilities are threatening to destroy his liver, and his new meds aren't any more effective than sugar pills. Vic is a mild-mannered guy named Roger with all the personality of white bread. At least he’s willing to spring for the Starbucks. Jacob’s ex-boyfriend, Crash, is an empathic healer who might be able to help Victor pull his powers into balance, but he seems more interested in providing any actual assistance.

"An anthology of the first and second PsyCop books."

Coming home from work to find my boyfriend banging our hairy, married landlord—in our bed—was bad enough. Discovering Jamie had also cleaned out my bank accounts made it officially the worst day of my life. I think I can be forgiven for wanting revenge, even if a few little laws (and possibly Jamie's nose) got bent in the process. Fortunately, the law is on my side in the form of my oldest friend, Tony Gervase. I've tried to deny my attraction to the sexy trooper for years. After all, he made it clear long ago that he wasn't interested in me that way. But if the hot encounter in his kitchen is any indication, he is now. At least the day is ending a whole lot better than it began... But the morning after, the Jamie situation goes from bad to seriously messed up. The jerk's in more trouble than I could have imagined. And as it turns out, I don't know Tony as well as I thought I did either... Previously published, newly revised by author. 36,000 words

Mark Hansen thought working as artist's assistant would be glamorous, especially if that artist was a vampire. Black tie events, witty repartee, gracing the pages of the local style section.... Didn't happen. Not even once. Jonathan Varga is an enigma. True, he's quiet, generous, and scrupulously polite. But he has zero social life, refuses to be interviewed or photographed, and insists he can only consume feline blood. Why supermarket blood won't suffice, Mark hasn't asked. He's rarely at a loss for words—he can dish an insult and follow it with a snap as quick as you can say "Miss Thang." But one look at Jonathan's black-as-sin gypsy eyes, and Mark's objections drain away. So he endures the perpetual grind of their routine: Jonathan hiding in his studio, swiping black paint onto black canvases. Mark hurling insults while he buffs the office to a shine with antirival wipes. Each of them avoiding the other in a careful choreography...until a blurb in Art in America unleashes a chain of harrowing events. As secrets from Jonathan's past are brought to light, it becomes clear that all his precautions weren't nearly enough.

The hunt is on. Pretty young men and women like Michael's best friend, Scary Mary, are disappearing from underground goth clubs all over Detroit. For over two years, Michael has been scouring the midwest for buried newspaper articles and obscure medical reports, and now he's finally pinpointed the source of the problem. Too bad he can't exactly go to the cops and tell them his friend was murdered by vampires. Since it's his duty to start wiping out the scourge, he's posing as baitand he's got a bag of sharpened hickory stakes to do the job. Everything should go smoothly, given the amount of preparation that Michael has put into the hunt. He's got a practiced repertoire of come-hither eyeliner looks and a full blister-pack of the date rape drug Rohypnol. But he didn't count on Wild Bill showing up. Wild Bill is a vision in spiked hair and scuffed black leatherexactly the type of guy Michael would have fallen for...if he'd ever had the chance. Unfortunately, with a vampire in his sights, Michael has no time for an actual date. Despite his best efforts, it seems there's nothing Michael can do to shake Bill loose. Looks like they're in for a wild, wild ride.

Imagine a world without hunger. In 1960, a superfood was invented that made starvation a thing of the past. Manna, the cheaply manufactured staple food, is now as ubiquitous as salt in the world's cupboards, pantries and larders. Nelson Oliver knows plenty about manna. He's a food scientist according to his diploma, that is. Lately, he's been running the register at the local video rental dive to scrape together the cash for his exorbitantly priced migraine medication. In a job fair gone bad, Nelson hooks up with copywriter Javier and his computer-geek pal Tim, who whisks them away from the worst of the fiasco in his repurposed moving truck. At least, Nelson thinks those two are acquainted, but they're acting so evasive about it, he's not sure how they know each other, exactly. Javier is impervious to Nelson's flirting, and Tim's name could appear in the dictionary under the entry for awkward. And with a riot raging through Manhattan and yet another headache coming on, it doesn't seem like Nelson will get an answer anytime soon. One thing's for sure, the tension between the three of them is thick enough to cut with a knife...even one of those dull plastic dealies that come in the package with Mannariffic EZ-Mealz.

***There's a new drug on the streets called Kick. The side effects are so brutal, most folks only try it once...unless they're psychic. Then they do it until it kills them. Psychic medium Victor Bayne is well acquainted with pharmaceuticals, from the Auracel that blocks his ghosts to the Seconal that offers him a blissful night's sleep. But he's managed to steer clear of street drugs...so far. Jacob Marks has a medicine cabinet filled with every over-the-counter remedy known to man, but none of them are doing much for his mood--and his long, fruitless days of combing through records at The Clinic are taking a heavy toll. But their lackluster investigation does have one silver lining: a front row seat at The Clinic when the first Kick overdose comes in. And as scary as the drug might be, if it truly does augment psychic ability, the appeal is not lost on Vic. Because the very first hit never killed anyone. Where did Kick come from? Why is it so addictive? And why is everyone at The Clinic acting so darn shady? That's what Vic intends to find out. And if he's lucky, he can also expose a shadowy figure from Camp Hell. Unfortunately, the demons of his pill addiction might prove just as deadly as his long-buried history. He thought he'd managed to ditch that pernicious habit. But what if it was only lurking in the shadows, waiting for the best time to rear its ugly head? PsyCop is an ongoing series filled with supernatural action and delightfully awkward humor--with a steady undercurrent of gay romance. It's best read in order, so if you're new to the series, start with PsyCop #1, Among the Living...and prepare for a hauntingly good read.***

A serial killer is on the loose, apparently targeting gay men at random for death by a most unusual means, and the homophobic police force seems much more interested in meeting its parking ticket quota than in bothering with a bunch of dead faggots. As the body count mounts, it's up to PI Dick Hardesty to find out not only to find what all the dead men had in common, but who killed them, and why.

James Spencer is hardly the typical troubled youth who ends up at Whisperwood School for Boys. Instead of hating the strict schedules and tight oversight by staff, James blossoms, quickly making friends, indulging in his love of writing, and contemplating the merits of sneaking love poems to the elusive and aloof William Esher.The rumours about William 's sexuality and opium reliance are prime gossip material amongst the third years...rumours that only further pique James' curiosity to uncover what William is really like beneath all that emotional armor. And, when the normally collected William stumbles in one night, shaken and ranting of ghosts, James is the only one who believes him.James himself has heard the nails dragging down his bedroom door and the sob's echoing in the halls at night. He knows others have, too, even if no one will admit it. The staff refuses to entertain such ridiculous tales, and punishment awaits anyone who brings it up.Their fervent denial and the disappearance of students only furthers James ' determination to find out what secrets Whisperwood is hiding...especially if it prevents William and himself from becoming the next victims.

Several months after their first brush with death, Dannel Ortea and Osian Garey are back with a thrilling murder investigation in the second London Podcast Mystery Series novel. It's all fun and games until a friend is found kneeling over a dead body. Is he the murderer or an unfortunate witness? When one body turns to two, then to three, will the killer ever be found? As Dannel and Osian work together to solve the mystery, the murderer focuses on them. Their drive to clear their friend's name puts them centre stage. But not everything under the glow of the bright lights glimmers. Will anyone be left when the curtain falls?

**Everett Larkin works for the Cold Case Squad: an elite—if understaffed and overworked—group of detectives who solve the forgotten deaths of New York City. Larkin is different from others, but his deduction skills are unmatched and his memory for minute details is unparalleled. So when a spring thunderstorm uproots a tree in Madison Square Park, unearthing a crate with human remains inside, the best Cold Case detective is assigned the job. And when a death mask, like those prominent during the Victorian era, is found with the body, Larkin requests assistance from the Forensic Artists Unit and receives it in the form of Detective Ira Doyle, his polar opposite in every way. Among the living: Victor is a PsyCop, also know as a member of the Paranormal Investigation Team. He's not popular with the living, as most people consider him a little odd, but the ghosts of violent crimes can't wait to tell him all about their deaths. His new case pairs him with Victor and Jacob have a history, and as they work together to solve a set of serial crimes, they begin to explore the possibilities of a future together.

Eli and Dag survived a monster. Two monsters, in fact. A year later, though, they're still trying to settle into a 'regular' life. Dag is working hard in school. It's not going great. Eli is working hard at...being a better Eli. He's eating right. Most of the time. He's thinking about exercise as long as he doesn't walk past any mirrors. He goes out some nights, though. He goes across the lake, back to Bragg, where the monsters were. And he's not sure why. He's not sure what keeps calling him back. When a woman is brutally murdered and an eyewitness claims to have seen the monster, Eli and Dag are forced to set aside their own problems and face a difficult truth: there is another monster out there. Worse, there doesn't seem to be anybody else who can stop it from killing again. But not all monsters are the same, as Eli and Dag discover. And the most dangerous monster of all is the one you what you've always wanted.

**Fierce. Audacious. Independent. Curtis Ash can't be bothered to settle down. He's too busy enjoying his cushy job as a high-paid stylist, caught in a whirlwind of hookups, parties, and obscenely priced cocktails. The only snarl in an otherwise charmed life is the salon's hotshot colorist, Red Turner. Not only does Red put the whammy on customers and rake in all the big tips, he's oblivious to Crash's flirtation. But there will be plenty of time to win him over...so Crash thinks. Thanks to his refusal to trust his gut, Crash not only tanks his career—he allows the one man who truly holds his interest to slip away. While he insists he doesn't need a relationship to complete him, would sharing his life with someone really be so bad? Skin After Skin is a sweeping saga that begins two years before Among the Living and ends just after Spook Squad. Experience PsyCop like you've never seen it before, through Crash's eyes. Discover new facets of characters and events from the span of the entire series and beyond, all from the viewpoint of an extroverted empath.**

**Is seeing really believing? Hank would never dream of coming on to the most striking guy at the barbut it's his lucky night since Thomas, the burgundy-haired vision in black lipstick and mirrored shades, takes it upon himself to make the first move.While the encounter itself is mind-blowing, the hot-and-heavy grapple in the janitor's closet isn't the only way in which Thomas blows Hank's mind.**

**Victor Bayne, the psychic half a PsyCop team, is a gay medium who's more concerned with flying under the radar than in making waves. He hooks up with Jacob Marks, a non-psychic (or 'Stiff') from an adjacent precinct and it seems like his dubious luck has improved, when a serial killer with a gruesome M.O. surfaces--and no one agrees what he looks like. Explicit gay content.**
