This is a book about the life and experiences of Pat Morrell as a Realtor, and a real estate broker. On her long journey she spent over fifty one years in the real estate industry as an active agent. She traveled through many valleys and over many mountains, experiencing challenges, losses, and trying times. It required faith, determination, and persistence. There were constant, new experiences, and changes in the market, and the paper work requirements. The book includes articles and poems Pat wrote that were published over the years in the Real Toro, Real Estate Guide, and SACBOR by her real estate board. Some of the articles are motivational, and some are about the lives of realtors, including Presidents of her Board of Realtors. Her book, So You Want To Sell Real Estate was started over thirty years ago, and never completed. Because of other obligations, and life's challenges, it was filed away until just recently. Those pages are included in her book, as well as other miscellaneous, inspirational, motivational, and thought provoking articles and poems. The survivors can take a trip down memory lane, journeying back through the years.

After learning the science of marketing to sustain lead generation, the book will teach you about modern sales and negotiation tactics, two commonly overlooked business skills. corporate entities to protect your profits, and how to lend your earnings to other real estate investors if you choose a more passive role in the business. Not everyone will be able to read this with the same level of knowledge, so for those just beginning your business pursuits it will be important to take the time to read the information at the beginning of the book that precedes the real estate discussion. Even if you have business or real estate experience, and are familiar with a particular topic, there is always more to learn, and I promise that even the seasoned pro will walk away with some new nuggets of wisdom. When I began educating myself, the materials I read lacked the structure that I desired, which was an organized high level overview of the most popular, the most reproducible, and the most consistent and efficient investment strategies. I was not looking for the quickest way to get rich, but rather I was looking for the most reliable way to get rich. I wanted to know which methods returned the most value with the least amount of time. Most importantly, I was looking for strategies that would generate income that could replace what I earned at my 9 to 5 job. I suspect that this is what you are looking for as well. Only a few of the transactions that I explain will be examples, and the majority of the transactions shown are real life deals that I have actually completed. There is no exaggeration or embellishment. This is truly a non-fiction book. However, some names and most addresses have been changed for privacy. It is important to note that the proper market values that we discuss may differ greatly from your region. While you may need to add or subtract another zero (or two) for your specific market, you more than likely can apply the same rules and formulas that we discuss. Do not be shocked by the low purchase prices mentioned. They are a product of both buying far below market value and relatively low median home prices in my region during the previous decade. While the values differ in every region, the formulas for success remain the same.

"The Secret of Joy in work is one word - excellence. To know how to do something well is to enjoy it." Pearl S. Buck "The more fun you have selling real estate, the more real estate you will sell. "
Jennifer Allan, GRI What is "fun" exactly? And how do you have some more of it? Having more fun at work isn't about long lunches, casual Fridays or bring-your-dog-to-work day. It's about being really, really good at what you do. And knowing it. It's about being proud of how you promote yourself and your business. It's about making a comfortable (or even exceptional) income without changing who you are or becoming someone you don't recognize. It's about getting up every morning, eager to get to work, because you know you're the best thing that could ever happen to your clients. Now that's fun. In this sequel to Sell with Soul, Jennifer Allan shows you how to: Generate business and referrals from friends without making a nuisance of yourself; Win at the Numbers Game without spending a fortune or filling up land-fills; Become the agent who SELLS houses, not just lists them; Fill your pipeline by productively wasting your time; Painlessly and confidently negotiate commissions; List more houses by tossing out the listing presentation; Trust your gut when choosing a prospecting strategy; ...and of course... have more fun, make more money and enjoy the heck out of your real estate career!

In Sell with Soul the author shares her rise from a nervous rookie agent to a successful real estate broker in Denver, Colorado. The book contains detailed instructions and checklists for many of the activities a new agent must master, such as building a contact database, learning the market, working with buyers, crafting marketing listings, and negotiating inspections. Allan also shares many stories from her own career that will help the new agent better understand her recommendations. Sell with Soul also speaks out against the status quo and asks agents to consider the needs of their clients before considering their own personal need for a paycheck, and counsels agents to welcome every learning experience, even when it does not result in a closed sale. Many new agents have told Allan how her book gave them hope that they could succeed without sacrificing their principles or changing their personalities.

Its no secret that the majority of wealth is tied to real estate. After experiencing success, my wife and I have become somewhat evangelical about real estate. Furthermore, this is a great way to build self-esteem, equity, and retirement for yourself and your family. If youre interested in a get-rich-quick scheme, put this book back on the shelf and pick up one of the many other books on the topic. I do not have seminars and progressive steps to my approach, at least not yet. What I have done, and my philosophy, is to provide a somewhat simple and realistic approach to property investing. Hopefully, you will see the benefit of property investing and try this on your own. Perhaps the greatest barrier to investing in property is overcoming fear. I am reminded of the Nike slogan from the eighties Just do it. Whenever anyone incredulously asks me how I got into real estate, the simple answer is that I simply did.

This book will prepare you for all the expected and unexpected twists and turns of rental property investments. You will be equipped enough to get down to business and create a healthy and stable cash flow. More and more people are turning toward rental property investments as a monetary safety net for their future and retirement. Having a stable passive income gives you the freedom to do the things you love, and that's the kind of freedom we have helped you find. Many times, you want to just quit your job and start afresh with something new, but passion does not pay bills, but a healthy source of passive income, on the other hand, does. If you implement everything you will learn that you should have enough knowledge to get started on buying real estate properties that generate rental income. We have outlined all the information you could need to confidently speak to lenders, find properties that will offer the best value and how to stay in the driving seat at all times. From this point onward, you just need to stay on track and follow the footsteps of those who have successfully created thousands of dollars in positive cash flow through rental

property investments. You have the information; you just need a plan now. Keep this book handy at all times and give each relevant chapter a read before you jump into the decision making process. The more you read through the information, the more sense it'll make. Know that each journey is different, and while this book has empowered you, it can only take you so far. You hold the reins to your success now... you just need to ride through it! Do you owe too much money? Are your debts crushing your spirit, embarrassing you, and stressing you out? You're not alone. The good news is that you can fix that. And this book will show you how. The debt trap is a serious problem. Who is in her, has a real problem. But most people react like rabbits to snakes: they just stand there paralyzed and do nothing until they are eaten. Keep a clear head and always tell yourself: There is nothing that can not be solved. You have to get out of your own rigidity and tackle the problem before it eats you. As usual in life, every problem also offers a chance to do better. You just have to analyze it clearly. When I have a mountain of debt, I have to part with things and habits that have become dear. Of course, it is difficult for those who have always sat only at the fleshpots, now only to be allowed to spoon the soup. But this is the way out of the debt trap, and you want to get out of it. You're about to learn time-tested strategies for winning your battles with debt. And I'm also going to share with you some strategies for increasing your income, as well as some important precautions you can take to minimize the risk of unforeseen events ruining your plans.

One of America's leading consumer advocates and popular talk show hosts offers his tips and tricks to successfully buying and selling real estate -- in any market Real estate -- whether in a boom or a bust economy -- is still a good investment, but only if you make smart and patient choices. There is a lot of confusing information out there, and many people find it increasingly difficult to navigate the ever-changing world of real estate without losing their shirts, or their minds. In Clark Smart Real Estate, talk show host and bestselling author Clark Howard presents the best of his experience as a consumer advocate. In his simple and clear style, he shows readers how they can build wealth slowly over time through real estate, and how they can capitalize on -- and protect themselves from -- the real estate market's many fluctuations over the long term. Following his own "save more, spend less, and avoid ripoffs," philosophy, Howard encourages people to get "Clark Smart" and lays out practical and information-packed answers to common questions

anyone interested in real estate might have about buying, selling, or financing. When should you buy your first home? Is it better to purchase a preexisting house or one newly built? What are some hidden closing costs, and how can you avoid them? Should you sell your home yourself? How does one shop for a mortgage? What are the costs of refinancing? Sound advice in a handy format -- this is what Clark Howard's readers have been waiting for, and it's just in time to help the multitudes flummoxed by today's conflicting real estate market.

Whether your plan is to start selling real estate as a full-time agent, or to be a part-timer with an eye on transitioning to full time after you quit your day job, or you just want to boost your current income by staying part-time, you will be confronted with an array of choices. How can new agents figure out which agency is the right fit for their financial goals and lifestyle? Sadly, the dropout rate for new agents is well over 80 percent. The primary reason is the choices new agents make from the start. They do not understand the significant differences between the franchise chains, the boutiques (luxury and otherwise), and the small, home-based brokerages. There are pros and cons for each type of office. Realtors who do not understand these differences hop from company to company. There are also hidden fees and agendas that are not disclosed to the new agent; there are hierarchies and unspoken policies in place at every office. Not knowing about the important details that are seldom disclosed up front causes agents to change companies multiple times, especially in their first year. In doing so, they lose confidence and momentum along with their customers and their listings. The new agent who can avoid the common pitfalls will not be one of the 80 percent who fail. What the new agent needs is empowering, street-smart information and Valerie Thorne's *Start Selling Real Estate* offers just that. The author's goal is to provide new agents with the kind of real world information that will enable them to make the right choices from the beginning of their careers. It will help new agents avoid time and money wasting activities. This book walks you through the types of agencies and provides you with the information that will help you decide which office is the best fit for you, based on your needs and goals. It explains the financial impact of different combinations of fees and agent/broker splits: the

portion of money that goes to you and the portion that goes to your office once a deal has closed. It will explain why your broker's agenda is to get you to buy lead-generating and marketing services you don't need, and offers tips on how to sidestep their demands. Let Valerie give you the straight-up talk so you can be street-smart in this lucrative but rough-and-tumble game called real estate. Let her empower you to get started the right way. Who should read this book? •Anybody who is on the fence about a career in real estate or wonders about the initial costs and how long the process takes •Anybody who is afraid to get started because he or she does not understand how the real estate game is played •Anybody who is in real estate school now or just signed up for classes •Anybody with a lot of questions about what to expect •Anybody who is a new agent or is about to become an agent and wants straight-up advice on how not to become one of the 80 percent that fails •Anybody who needs guidance in choosing the right office •Anybody who passed the state exam but never moved forward in real estate because of the minefield of choices and expenses •Anybody who is jumping from agency to agency, from one bad situation to the next, and needs to know how to stop the cycle •Any agent who is struggling as he or she comes to that make-or-break first-year mark when most give up and quit Use Valerie's hard-won knowledge to guide you through the process of getting a license, choosing the right agency for your goals and needs, and to help start your real estate career.

*Facing a volatile stock market, many people have turned to real estate as a way to invest their hard-earned money. While many investors opt to buy property and then sell it quickly, other investors choose to hold onto their property for a longer period of time to realize a greater return on their investment. Real estate experts Scott Frank and Andy Heller have developed a proven and diversified program for real estate investing that incorporates both approaches and enables investors to take control of their financial futures and build wealth over time. Their new book, Buy Low, Rent Smart, Sell High: Real Estate Investing for the Long Run outlines a win-win-win program, one where average people can reap significant financial rewards by investing in real estate. * Win One: Buying Low - The investors first win occurs by purchasing real estate at a 10-20 percent discount by seeking out motivated buyers and avoiding paying agent commissions. The book reveals the secret to buying foreclosed homes with clean titles from banks and mortgage companies. * Win Two: Renting Smart - The property is rented through a lease/purchase agreement. Not only does the investor get a down payment from the lease/purchasee, but he or she also receives monthly rent that usually exceeds the monthly mortgage payment. Also, the lease/purchasee takes on the maintenance and repair responsibilities and tends to be a better tenant in return for their special lease/purchase terms. In addition, as the owner of the property, the investor is able to receive tax write-offs. * Win Three: Selling High - The final win results when the lease/purchasee exercises his or her right to purchase the property. The owner has realized the benefits of owning the property and has sold it to the lease/purchasee*

without agent commissions. If the lease/purchasee decides not to exercise his or right, the investor still wins because he or she can either extend the lease purchase agreement and increase the purchase price (based on property appreciation) or enter into another lease/purchase agreement with a new tenant and begin the cycle of wins all over.
