**The Instant New York Times Bestseller! A Good Morning America Book Club Pick! "Historical fiction at its best!" A remarkable novel about J. P. Morgan's personal librarian, Belle da Costa Greene, the Black American woman who was forced to hide her true identity and pass as white in order to leave a lasting legacy that enriched our nation, from New York Times bestselling authors Marie Benedict and Victoria Christopher Murray. In her twenties, Belle da Costa Greene is hired by J. P. Morgan to curate a collection of rare manuscripts, books, and artwork for his newly built Pierpont Morgan Library. Belle becomes a fixture in New York City society and one of the most powerful people in the art and book world, known for her impeccable taste and shrewd negotiating for critical works as she helps create a world-class collection. But Belle has a secret, one she must protect at all costs. She was born not Belle da Costa Greene but Belle Marion Greener. She is the daughter of Richard Greener, the first Black graduate of Harvard and a well-known advocate for equality. Belle's complexion isn't dark because of her alleged Portuguese heritage that lets her pass as white--her complexion is dark because she is African American. The Personal Librarian tells the story of an extraordinary woman, famous for her intellect, style, and wit, and shares the lengths she must go to--for the protection of her family and her legacy--to preserve her carefully crafted white identity in the racist world in which she lives.**

What fueled the Victorian passion for hair-jewelry and memorial rings? When would an everyday object metamorphose from commodity to precious relic? In Portable Property, John Plotz examines the new role played by portable objects in persuading Victorian Britons that they could travel abroad with religious sentiments, family ties, and national identity intact. In an empire defined as much by the circulation of capital as by force of arms, the challenge of preserving Englishness while living overseas became a central Victorian preoccupation, creating a pressing need for objects that could readily travel abroad as personifications of Britishness. At the same time a radically new relationship between cash value and sentimental associations arose in certain resonant mementoes--in teacups, rings, sprigs of heather, and handkerchiefs, but most of all in books. Portable Property examines how culture-bearing objects came to stand for distant people and places, creating or preserving a sense of self and community despite geographic dislocation. Victorian novels--because they themselves came to be understood as the quintessential portable property--tell the story of this change most clearly. Plotz analyzes a wide range of works, paying particular attention to George Eliot's Daniel Deronda, Anthony Trollope's Eustace Diamonds, and R. D. Blackmore's Lorna Doone. He also discusses Thomas Hardy and William Morris's vehement attack on the very notion of cultural portability. The result is a richer understanding of the role of objects in British culture at home and abroad during the Age of Empire.

The #1 New York Times Bestseller--Now a Major Motion Picture from Paramount Pictures From the author of The Blind Side and Moneyball, The Big Short tells the story of four outsiders in the world of high-finance who predict the credit and housing bubble collapse before anyone else. The film adaptation by Adam McKay (Anchorman I and II, The Other Guys) features Academy Award® winners Christian Bale, Brad Pitt, Melissa Leo and Marisa Tomei; Academy Award® nominees Steve Carell and Ryan Gosling. When the crash of the U.S. stock market became public knowledge in the fall of 2008, it was already old news. The real crash, the silent crash, had taken place over the previous year, in bizarre feeder markets where the sun doesn't shine and the SEC doesn't dare, or bother, to tread. Who understood the risk inherent in the assumption of ever-rising real estate prices, a risk compounded daily by the creation of those arcane, artificial securities loosely based on piles of doubtful mortgages? In this fitting sequel to Liar's Poker, Michael Lewis answers that question in a narrative brimming with indignation and dark humor.

**A collection of writings and speeches by Pope Benedict XVI introduces his perspectives on key issues marking his papacy, addressing topics ranging from abortion and priesthood sexual misconduct to anti-Semitism and Christian relations with Islam.**

**What makes a good story or a screenplay great? The vast majority of writers begin the storytelling process with only a partial understanding where to begin. Some labor their entire lives without ever learning that successful stories are as dependent upon good engineering as they are artistry. But the truth is, unless you are master of the form, function and criteria of successful storytelling, sitting down and pounding out a first draft without planning is an ineffective way to begin. Story Engineering starts with the criteria and the architecture of storytelling, the engineering and design of a story--and uses it as the basis for narrative. The greatest potential of any story is found in the way six specific aspects of storytelling combine and empower each other on the page. When rendered artfully, they become a sum in excess of their parts. You'll learn to wrap your head around the big pictures of storytelling at a professional level through a new approach that shows how to combine these six core competencies which include: • Four elemental competencies of concept, character, theme, and story structure (plot) • Two executional competencies of scene construction and writing voice The true magic of storytelling happens when these six core competencies work together in perfect harmony. And the best part? Anyone can do it!**

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the

national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most

Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead

that by a broad range of indices, marriage is actually better for you than being single or divorced-- physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy

more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage,

and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J.

Collecting Music in the Aran Islands, a critical historiographical study of the practice of documenting traditional music, is the first to focus on the archipelago off the west coast of Ireland. Deirdre Ní Chonghaile argues for a framework to fully contextualize and understand this process of music curation.

Adapted in part from the "Opportunity in America" series of policy briefs, this volume focuses on social and economic mobility in the United States. Class or family background has a strong effect on individual success, the authors find. They examine the possible reasons for this relationship; how it has changed over the past century; and the role of the economy, the welfare system, and education in opening up opportunities for the less fortunate.

The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

"Tobacco has been pervasive in China almost since its introduction from the Americas in the mid-sixteenth century. One-third of the world's smokers--over 350 million--now live in China, and they account for 25 percent of worldwide smoking-related deaths. This book examines the deep roots of China's contemporary "cigarette culture" and smoking epidemic and provides one of the first comprehensive histories of Chinese consumption in global and comparative perspective"--
