In My Job My Self, Gini plumbs a wide range of statistics, interviews with workers, surveys from employers and employees, and his own experiences and memories, to explore why we work, how our work affects us, and what we will become as a nation of workers. My Job, My Self speaks to every employed person who has yet to understand the costs and challenges of a lifetime of labor.

Recommendations -- Background: official sanction for crimes against detainees -- Torture of detainees in US counterterrorism operations -- Individual criminal responsibility -- Appendix: foreign state proceedings regarding US detainee mistreatment -- Acknowledgments and methodology.

The POWs Who Endured Vietnam's Most Infamous Prison, The Women Who Fought for Them, and The One Who Never Returned

Independent Power Projects in Sub-Saharan Africa

When Green Beret Lieutenant James N. Rowe was captured in 1963 in Vietnam, his life became more than a matter of staying alive. In a Vietcong POW camp, Rowe endured beri-beri, dysentery, and tropical fungus diseases. He suffered grueling psychological and physical torment. He experienced the loneliness and frustration of watching his friends die. And he struggled every day to maintain faith in himself as a soldier and in his country as it appeared to be turning against him. His survival is testimony to the disciplined human spirit. His story is gripping.

FM 3-05.70 is the United States Army manual used to train survival techniques (formerly the FM 21-76). It is popular among survivalists and campers. The manual covers a variety of helpful topics such as planning, psychology of survival, emergency medicine, shelter construction, water procurement, firecraft, food procurement (hunting), identification of poisonous plants, and construction of field expedient weapons, tools and equipment.

This is a reproduction of a book published before 1923. This book may have occasional imperfections such as missing or blurred pages, poor pictures, errant marks, etc. that were either part of the original artifact, or were introduced by the scanning process. We believe this work is culturally important, and despite the imperfections, have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide. Twenty-one days. In a world ravaged by fire and descending into madness, Cavalo has been given an ultimatum by the dark man known as Patrick: return Lucas to him and the cannibalistic Dead Rabbits, or the town of Cottonwood and its inhabitants will be destroyed. But Lucas has a secret embedded into his skin that promises to forever alter the shape of things to come—a secret that Cavalo must decide if it's worth dying over, even as he wrestles with his own growing attraction to the muted psychopath. Twenty-one days. Cavalo has twenty-one days to prepare for war. Twenty-one days to hold what is left of his shredded sanity together. Twenty-one days to convince the people of Cottonwood to rise up and fight back. Twenty-one days to unravel the meaning behind the marks that cover Lucas. A meaning that leads to a single word and a place of unimaginable power: Dworshak.

Inadequate electricity services pose a major impediment to reducing extreme poverty and boosting shared prosperity in Sub-Saharan Africa. Simply put, Africa does not have enough power. Despite the abundant low-carbon and low-cost energy resources available to Sub-Saharan Africa, the region's entire installed electricity capacity, at a little over 80 GW, is equivalent to that of the Republic of Korea. Looking ahead, Sub-Saharan Africa will need to ramp-up its power generation capacity substantially. The investment needed to meet this goal largely exceeds African countries already stretched public finances. Increasing private investment is critical to help expand and modernize electricity supply. Historically, most private sector finance has been channelled through privately financed independent power projects (IPPs), supported by some recourse or limited recourse loans, with long-term power purchase agreements with the state utility or another off-taker. Between 1990 and 2014, IPPs have spread across Sub-Saharan Africa and are now present in 17 countries. Currently, there are 125 IPPs, with an overall installed capacity of 10.7 GW and investments of \$24.6 billion. However, private investment could be much greater and less concentrated. South Africa alone accounts for 67 IPPs, 4.3 GW of capacity and \$14.4 billion of investments; the remaining projects are concentrated in a handful of countries. The objective of this study is to evaluate the experience of IPPs and identify lessons that can help African countries attract more and better private investment. At the core of this analysis is a reflection on whether IPPs have in fact benefited Sub-Saharan Africa, and how they might be improved. The analysis is based primarily on in-depth case studies, carried out in five countries, including Kenya, Nigeria, South Africa, Tanzania and Uganda, which not only have the most numerous but also among the most extensive experience with IPPs.

The Red Circle: My Life in the Navy SEAL Sniper Corps and How I Trained America's Deadliest Marksmen Now including an excerpt from The Killing School: Inside the World's Deadliest Sniper Program BEFORE HE COULD FORGE A BAND OF ELITE WARRIORS... HE HAD TO BECOME ONE HIMSELF. Brandon Webb's experiences in the world's most elite sniper corps are the stuff of legend. From his grueling years of training in Naval Special Operations to his combat tours in the Persian Gulf and Afghanistan, The Red Circle provides a rare and riveting look at the inner workings of the U.S. military through the eyes of a covert operations specialist. Yet it is Webb's distinguished second career as a lead instructor for the shadowy "sniper cell" and Course Manager of the Navy SEAL Sniper Program that trained some of America's finest and deadliest warriors—including Marcus Luttrell and Chris Kyle—that makes his story so compelling. Luttrell credits Webb's training with his own survival during the ill-fated 2005 Operation Redwing in Afghanistan. Kyle went on to become the U.S. military's top marksman, with more than 150 confirmed kills. From a candid chronicle of his student days, going through the sniper course himself, to his hair-raising close calls with Taliban and al Qaeda forces in the northern Afghanistan wilderness, to his vivid account of designing new sniper standards and training some of the most accomplished snipers of the twenty-first century, Webb provides a rare look at the making of the Special Operations warriors who are at the forefront of today's military. Explosive, revealing, and intelligent, The Red Circle provides a uniquely personal glimpse into one of the most challenging and secretive military training courses in the world.

After Southeast Asia, analysts and force planners came to the realization that there was a fundamental difference between search and rescue (SAR) in a permissive area and in an area that was not permissive (i.e., under enemy control). This second condition is now called combat search and rescue or CSAR. At the time of Desert Storm, the two forms of rescue were defined thusly: Search and Rescue (SAR): Use of aircraft, surface craft, submarines, personnel, and equipment to locate and recover personnel in distress on land or at sea. Combat Search and Rescue (CSAR): A specialized SAR task performed by rescue-capable forces to effect recovery of distressed personnel from hostile territory during contingency operations or wartime.2 The development of this rescue capability has been well established. Dr. Robert Futrell documented our efforts in Korea in The United States Air Force in Korea, 1950-1953. His work was followed by Dr. Earl Tillford's Search and Rescue in South east Asia, which eloquently chronicled the heroic efforts of the rescue crews in that conflict who brought back literally thousands of airmen. It extensively documented what is now considered the "golden age" of rescue. This work is meant to follow in those traditions and will focus on our CSAR efforts in the Persian Gulf War of 1991, or more specifically, the period of Operation Desert Storm, 17 January to 28 February 1991. Overall, CSAR in Desert Storm appears to have been a mixed bag. Because of advances in precision weaponry, Global Positioning System (GPS) technology, countermeasures, and training, relatively few coalition aircraft were shot down. Forty-three coalition aircraft were lost in combat, most over high-threat areas. Eighty-seven coalition airmen, soldiers, sailors, and marines were isolated in enemy or neutral territory. Of that total, 48 were killed, one is still listed as missing, 24 were immediately captured, and 14 were exposed in enemy territory. Of those who survived, most landed in areas controlled by enemy troops. Of the few actually rescueable, six were not rescued for a variety of reasons, but primarily because of limitations in CENTAF's ability to locate them accurately and in a timely manner.

A USA Today bestseller He'll never be free... Captured and tortured by the French, Christian Severn, Duke of Mercia, survives by vowing to take revenge on his tormentors. Before the duke can pursue his version of justice, Gillian, Countess of Greendale, reminds him that his small daughter has suffered much in his absence, and needs her papa desperately. Until he surrenders his heart... Gilly endured her difficult marriage by avoiding confrontation and keeping peace at any cost. Christian's devotion to his daughter and his kindness toward Gilly give her hope that she could enjoy a future with him, for surely he of all men shares her loathing for violence in any form. Little does Gilly know, the battle for Christian's heart is only beginning. Captive Hearts series: The Captive (Book 1) The Traitor (Book 2) The Laird (Book 3)

The legendary Spartacus is recast as a fierce female warrior in this action-packed tale of a 17-year-old princess and a handsome gladiator who dared take on the Roman Republic.

Air Force Handbook 10-644 Survival Evasion Resistance Escape (SERE) Operations 27 March 2017 This handbook describes the various environmental conditions affecting human survival, and describes isolated personnel (IP) activities necessary to survive during successful evasion or isolating events leading to successful recovery. It is the fundamental reference document providing guidance for any USAF service member who has the potential to become isolated, deviations require sound judgment and careful consideration. This publication provides considerations to be used in planning and execution for effective mission accomplishment of formal USAF Survival, Evasion, Resistance, and Escape (SERE) training, environmentally specific SERE training, and combat survival continuation training programs. The tactics, techniques, and procedures in this publication are recognized best practices presenting a solid foundation to assist USAF service members to maintain life and return with honor from isolating events.

What enables people to bounce back from stressful experiences? How do certain individuals maintain a sense of purpose and direction over the long term, even in the face of adversity? This is the first book to move beyond childhood and adolescence to explore resilience across the lifespan. Coverage ranges from genetic and physiological factors through personal, family, organizational, and community processes. Contributors examine how resilience contributes to health and well-being across the adult life cycle, why—and what happens when—resilience processes fail, ethnic and cultural dimensions of resilience, and ways to enhance adult resilience, including reviews of exemplary programs.

Defiant

A Novel

Traces a leading CIA counter-terrorist's unlikely journey from a law student and CIA recruit to a top American spy, addressing questions related to his political views and controversial decision to destroy tapes of CIA interrogations. Reprint.

During the Vietnam War, hundreds of American prisoners-of-war faced years of brutal conditions and horrific torture at the hands of North Vietnamese guards and interrogators who ruthlessly plied them for military intelligence and propaganda. Determined to maintain their Code of Conduct, the POWs developed a powerful underground resistance. To quash it, their captors singled out its eleven leaders, Vietnam's own "dirty dozen," and banished them to an isolated jail that would become known as Alcatraz. None would leave its solitary cells and interrogation rooms unscathed; one would never return. As these eleven men suffered in Hanoi, their wives at home launched an extraordinary campaign that would ultimately spark the nationwide POW/MIA movement. The members of these military families banded together and showed the courage to not only endure years of doubt about the fate of their husbands and fathers, but to bravely fight for their safe return. When the survivors of Alcatraz finally came home, one would go on to receive the Medal of Honor, another would become a U.S. Senator, and a third still serves in the U.S. Congress. A powerful story of survival and triumph, Alvin Townley's Defiant will inspire anyone wondering how courage, faith, and brotherhood can endure even in the darkest of situations.

As the landlord of The Dragon's Lair and leader of The Black Dragons Motorcycle Club, Axel Carmichael has seen it all and done it all. He's a respected and experienced dom. Nothing shocks him any more, and nobody catches him off guard. When Bayden rides up to The Dragon's Lair on a bike worth more than most men earn in a year, and immediately demonstrates that he has far more attitude than sense, it's easy for Axel to write him off as a silly little rich boy who's about to get himself killed. But, there's more to Bayden than meets the eye. He's no silly little boy, rich or otherwise, and werewolves aren't easy to kill.

The True Story of a Vietnam POW

A Middle English Metrical Paraphrase of the Old Testament

Letters in Captivity, 1945-1946

In 1250 B.C. the teenaged son of the Egyptian high priest sets off a series of harrowing events when he accidentally kills the sacred cat of Bubastes and, accompanied by his sister and two foreign slaves, embarks on a dangerous journey to find safe haven beyond the borders of Egypt.

The study edition of book the Los Angeles Times called, "The most extensive review of U.S. intelligence-gathering tactics in generations." This is the complete Executive Summary of the Senate Intelligence Committee's investigation into the CIA's interrogation and detention programs -- a.k.a., The Torture Report. Based on over six million pages of secret CIA documents, the report details a covert program of secret prisons, prisoner deaths, interrogation practices, and cooperation with other foreign and domestic agencies, as well as the CIA's efforts to hide the details of the program from the White House, the Department of Justice, the Congress, and the American people.

Over five years in the making, it is presented here exactly as redacted and released by the United States government on December 9, 2014, with an introduction by Daniel J. Jones, who led the Senate investigation. This special edition includes:

- Large, easy-to-read format.
- Almost 3,000 notes formatted as footnotes, exactly as they appeared in the original report. This allows readers to see obscured or clarifying details as they read the main text.
- An introduction by Senate staffer Daniel J. Jones who led the investigation and wrote the report for the Senate Intelligence Committee, and a forward by the head of that committee, Senator Dianne Feinstein.

More than 160 tales from eighty tribal groups give us a rich and lively panorama of the Native American mythic heritage. From across the continent comes tales of creation and love; heroes and war; animals, tricksters, and the end of the world. In addition to mining the best folkloric sources of the nineteenth century, the editors have also included a broad selection of contemporary Native American voices. With black-and-white illustrations throughout Selected and edited by Richard Erdoes and Alfonso Ortiz Part of the Pantheon Fairy Tale and Folklore Library

American Indian Myths and Legends

Michael Scott Moore, a journalist and the author of Sweetness and Blood, incorporates personal narrative and rigorous investigative journalism in this profound and revelatory memoir of his three-year captivity by Somali pirates—a riveting, thoughtful, and emotionally resonant exploration of foreign policy, religious extremism, and the costs of survival. In January 2012, having covered a Somali pirate trial in Hamburg for Spiegel Online International—and funded by a grant from the Pulitzer Center on Crisis Reporting—Michael Scott Moore traveled to the Horn of Africa to write about piracy and ways to end it. In a terrible twist of fate, Moore himself was kidnapped and subsequently held captive by Somali pirates. Subjected to conditions that break even the strongest spirits—physical injury, starvation, isolation, terror—Moore's survival is a testament to his indomitable strength of mind. In September 2014, after 977 days, he walked free when his ransom was put together by the help of several US and German institutions, friends, colleagues, and his strong-willed mother. Yet Moore's own struggle is only part of the story: The Desert and the Sea falls at the intersection of reportage, memoir, and history. Caught between Muslim pirates, the looming threat of Al-Shabaab, and the rise of ISIS, Moore observes the worlds that surrounded him—the economics and history of piracy; the effects of post-colonialism; the politics of hostage negotiation and ransom; while also conjuring the various faces of Islam—and places his ordeal in the context of the larger political and historical issues. A sort of Catch-22 meets Black Hawk Down, The Desert and the Sea is written with dark humor, candor, and a journalist's clinical distance and eye for detail. Moore offers an intimate and otherwise inaccessible view of life as we cannot fathom it, brilliantly weaving his own experience as a hostage with the social, economic, religious, and political factors creating it. The Desert and the Sea is wildly compelling and a book that will take its place next to titles like Den of Lions and Even Silence Has an End.

Over the last 30 years the African wild dog population has declined dramatically. Dogs have disappeared from 25 of the 39 countries where they were previously found, and only 6 populations are believed to number more than 100. Today it is believed that only between 3,000-5,500 dogs remain in 600-1,000 packs with most to be found in eastern and southern Africa. The dramatic reduction in their population is attributed to a number of factors including human population growth and activities, deterioration of habitat, and contact with domestic dogs and their diseases. This Action Plan explores some of the reasons behind their disappearance and provides a number of proposed solutions split into 3 priority areas, ranging from habitat management and conservation to monitoring domestic dogs.

The ultimate survival guide from the New York Times-bestselling authors of the acclaimed SEAL Team Six thriller series. As the elite of the military elite, U.S. Navy SEALs know that they can be deployed anywhere in the world at a moment's notice. Whether in a temperate, tropical, arctic, or subarctic region, they might find themselves alone in a remote area with little or no personal gear. In The U.S. Navy SEAL Survival Handbook, decorated Navy SEAL Team Six member Don Mann provides a definitive survival resource. From basic camp craft and navigation to fear management and strategies for coping with any type of disaster, it is an essential resource for all outdoorspeople. Complete with 150 color photographs, this comprehensive guide includes life-saving information on making weapons and tools, finding water, foraging for food, making shelters, signaling, sea survival, and much more. "The U.S. Navy SEAL Survival Handbook is all about developing the SEAL survival mindset, and arming yourself with the appropriate survival techniques for numerous potentially fatal scenarios." —The Huffington Post

Neoliberalism and U.S. Foreign Policy

The Aeroplane

A Tale of Ancient Egypt

Air Force Handbook 10-644 Survival Evasion Resistance Escape Operations, 27 March 2017Createspace Independent Publishing Platform

While there has been a flood of scholarly efforts to extend, adapt, and revise Foucault's exploration of the emergence and operations of neoliberalism, the study of foreign policy has remained steeped in the analysis of partisanship, institutions, policies, and personality and their influence on various issue areas, toward particular countries, or specific presidential doctrines. This book brings the political rationality of neoliberalism to bear on U.S. foreign policy in two distinct ways. First, it challenges, complicates, and revises the numerous interpretations of U.S. nationalism that posit a homologous relationship between "1989" and contemporary nationalism, instead arguing that alterations in the operations of capitalism and its correlative forms of governance have produced a differently formatted nationalism, which in turn has produced different operations of U.S. hegemony in the twenty-first century that markedly depart from earlier eras. Second, this book argues for a new timeline—one that starts with the Carter-Reagan era and the crisis of capitalism—ultimately encouraging us to think beyond particular presidencies, wars, bureaucratic politics, and policies in order to train our sights on how long-term and sustained shifts in the economy and attendant government practices have emerged to produce new myths of exceptionalism that more fully cohere with the neoliberal foundations of the U.S. nation-state.

Face to face, and rifle to rifle. The time and location change, but never the circumstance. Merq Grayson and Armise Darcan are enemies-and neither will be considered successful until the other is dead. The world is embroiled in a three hundred year war which has seen half of the world's population wiped out and the rise of five superpowers. Despite the hundreds of millions who have died, the Borders War has been nearly bloodless because of the sonicrifle-weaponized sound waves, tuned to their highest frequency, and harnessed to kill. Merq Grayson has known only war. He is a skilled Peacemaker, soldier, and sniper. And it is his destiny to right the wrong created by his grandfather six generations removed—the man who invented the sonicbullet. Armise Darcan is his enemy. A sniper and Dark Ops officer who fought for the People's Republic of Singapore in the Borders War, Armise may be the only person on the planet strong enough to keep Merq from completing his mission. Their loyalties are to conflicting countries and diverging agendas, and despite the very real threat to their lives if they're discovered, Merq and Armise keep finding their way into each other's beds. It is a drive which Merq is sure will kill him one day. But how much time either of them has is questionable. As Opposition is pitted against Revolution, the Borders War reignites, and Merq and Armise have to decide where, and with whom, their real loyalties lie.
