## Motor Age

### Chilton's Motor Age

First published in 1989 as Tuning New Generation Engines, this best-selling book has been fully updated to include the latest developments in four-stroke engine technology in the era of pollution controls, unleaded and low-lead petrol, and electronic management systems. It explains in non-technical language how modern engines can be modified for road and club competition use, with the emphasis on power and economy, and how electronic management systems and emission controls work.

Advanced Automotive Electricity and Electronics, published as part of the CDX Master Automotive Technician Series, gives students with a basic understanding of automotive electrical the additional knowledge and experience they need to diagnose and fix complex electrical systems and circuits. Focused on a “ strategy-based diagnostics ” approach, this book helps students master technical troubleshooting in order to address the problem correctly on the first attempt.

The Sixth Edition of BASIC AUTOMOTIVE SERVICE & SYSTEMS includes a Classroom Manual and a Shop Manual to provide a comprehensive, accessible overview of automotive systems to prepare readers for all aspects of work in the field. Updated to align with Task Lists for the latest ASE Education Foundation requirements, the Sixth Edition covers emerging technologies such as hybrid vehicles and electronic engine controls, as well as current information on the global automotive industry and the role of the technician within it. The Classroom Manual explores the theories of operation behind each automotive system, while the Shop Manual covers relevant diagnostic, testing, and repair procedures. Assuming no prior knowledge of automotive technology, these clear and engaging resources combine to provide a thorough introduction to both fundamental theory and its real-world applications in specific skills and maintenance procedures. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
