This collection showcases a multivalent approach to the study of literary multilingualism, embodied in contemporary Nordic literature. While previous approaches

to literary  
multilingualism have  
tended to take a  
textual or authorship  
focus, this book  
advocates for a  
theoretical perspective  
which reflects the  
multiplicity of  
languages in use in  
contemporary  
literature emerging

Introducing an innovative approach to the study of multilingualism in literature, this collection will be of particular interest to students and

literature—unknown not only because so few people in the world can read Finnish, but also because the novel is so incredibly difficult to translate, the Mount Everest of translating from Finnish. It is difficult to translate not only because it

blends a saturation in Homer, Shakespeare, Dante, Cervantes, and the Bible with a brilliantly stylized form of local dialect, but because it is wild, grotesque, carnivalistic, and laugh-out-loud funny on every page. It has been translated 58 times into 34
