Volume 5 covers the dialects of England since 1776, the historical development of English in the former Celtic-speaking countries, and English other countries.

This is the first comprehensive description of Indian English and its emerging regional standard in a corpus-linguistic framework. Drawing on a wealth of authentic spoken and written data from India (including the Kolhapur Corpus and the International Corpus of English), this book explores the dynamics of variation and change in the vocabulary and grammar of contemporary Indian English.

Carbon Dots in Analytical Chemistry: Detection and Imaging explores recent progress in the field of carbon dots synthesis and properties and their integration with various miniaturized analytical devices for the detection of chemical species and imaging of cells. This book is dedicated to exploring the potential applications of carbon dots in analytical chemistry for clinical microbiology, pharmaceutical analysis and environmental analysis. Sections cover synthetic approaches and properties, sample preparation, analytical techniques for the detection of chemical species, imaging of molecules and cells, and analytical tools for biomedical and food analysis. The will be a valuable book for analytical and materials scientists, physical and chemical scientists, and engineers investigating the use of carbon nanomaterials in their analytical procedures. Provides basic knowledge on the preparation and properties of carbon dots and their uses to remove toxic chemical species Integrates knowledge from the fabrication, mechanics, materials science and reliability points-of-view Covers carbon-dot-based optical methods for assaying trace-level target analytes

Official Report

"A powerful book on caste, a subject that has dramatic importance not only for the history of democracy in modern India, but for the general discussion on the interferences of social inequalities and cultural exclusions. The Caste Question goes beyond the usual antitheses of localism and globalism, and illustrates a decisive notion of intensive universality."—Étienne Balibar "A sustained and probing analysis of the modern history of caste in Western India, connecting issues of gender, personhood, property, and politics to facts of oppression and inequality. This is the most politically and theoretically engaged book on caste to have come out in a long time."—Dipesh Chakrabarty, author of Habitations of Modernity "A profound reflection, at once historically rich and theoretically nuanced, on the nature of political modernity itself."—John Comaroff, co-author (with Jean Comaroff) of *Of Revelation and Revolution* "Rao is entirely convincing in this brilliant and audacious re-evaluation of political modernity in India through the perspective of anti-caste struggles."—Minalini Sinha, author of *Specters of Mother India: The Global Re-Structuring of an Empire*

Each chapter is supported with examples, illustrative figures, multiple-choice questions and review questions. Aimed at senior undergraduate and graduate students in automotive/automobile engineering, mechanical engineering, electronics engineering, this book covers the following: Construction and working details of all modern as well as fundamental automotive systems Complexities of operation and assembly of various parts of automotive systems in a simplified manner Handling of automotive systems and integration of various components for smooth functioning of the vehicle Modern topics such as battery-electric, hybrid electric and fuel cell vehicles Illustrative examples, figures, multiple-choice questions and review questions at the end of each chapter

This book details an intensive case study of an Indian state that is more or less representative of the Muslim minorities in the country as a whole. The northern Indian province under study has a fair amount of Muslim population with a good number of educational institutions at different levels and grades. These institutions provide both traditional and modern education, which highlights the delicacies of the problems faced when promoting higher education in a comprehensive and inclusive way. This book is a detailed investigation based on a case study and surveys and interaction with many stakeholders including students, teachers and principals. The findings presented here will be useful in reshaping and revamping minority higher education plans in India, as well as policies related to these institutions.

Adult learners have more options for enrolling in postsecondary education than ever before, and they are able to use their learning style preference in deciding which program best meets their needs. For some of these students, those programs are fully online, and for others, there is minimal use of technology. As technology grows and become more integrated into individual lives, the unique learning styles and preferences of adults need to learn to be incorporated into instructional design. Drawing on a regional sample of US colleges, 545 adult learners in a graduate programs were surveyed about how to effectively build community in their online classes. Results indicated some agreement with these instructional tools. Mature adult learners, however, were found to have stronger agreement with strategies that included work outside of the formal online class. These results suggest perhaps a greater comfort for adults in working in spaces where there is less likelihood of being judged or graded, and that they might value relational work with other students in different ways than younger adults.

World Englishes is a vibrant research field that has attracted scholars from many different linguistic subdisciplines. Emphasizing the common ground of all research on World Englishes, the 22 articles in this collected volume, selected from more than a hundred papers presented at the 2007 conference of the International Association for World Englishes in Regensburg, cover a broad range of topics which together reflect the state of the art of research in this field. The volume focuses on regions as diverse as Africa, the Caribbean, the Antipodes and Asia, but also promotes a globally comparative perspective by analyzing selected characteristics of the English language across a wide range of varieties. Methodologically, a number of different approaches are applied, including corpus linguistic studies, socio-phonetics as well as historical discourse analysis. Due to its wide scope, the book is of interest not only to World Englishes scholars but also to sociolinguists as well as applied, contact or corpus linguists. Right from its formal introduction in India in 1835, through Thomas B. Macaulay's Minute, English has been intrinsically linked with the employment prospects of Indians. During their regime, the British promoted English education to fulfil the requirement of English-knowing Indians for administrative purposes. Owing to globalization, the last few years have witnessed the opening up of thousands of lucrative job opportunities for graduates proficient in English. English has gained importance in India as the language of opportunities. In colonial India, English education was a passport to government jobs, while in the twenty-first century, proficiency in English is essential for private sector jobs. This book examines the development of curricula in English in Indian universities vis-a-vis the needs of second language learners studying in Special English programmes of Bachelor of Arts (BA). It also reflects on how globalization has strengthened the connection between English and employment.

This book is meant for M. Phil and Ph. D. research students, research guides, writers of research papers or research articles, teachers, scholars of literature and literary criticism, students of linguistics and all those who wish to know more about research in literature and languages. Being Indo-Centric, rather than Euro-Centric, it discusses the basic questions of research, such as: How to select a topic? How to prepare the initial synopsis? How to prepare the detailed outline of the thesis or the paper? How to develop the argument or the point of view? How to cite references? How to prepare a bibliography and the final synopsis? And how to face the Viva? It discusses fundamental questions like what is to be searched in literature and languages and why. It is clear in views, highly informative in its content, lucid and enjoyable in its style and a recent statement on the subject concerning globalisation and national development. For foreign readers, this book provides an Indian perspective of literature and research in literature and languages with reference to the concept of 'world literature' in the process of globalisation of human life.

A solid understanding of how banks operate is crucial to grasp the functioning of modern society. Banks are an intrinsic part of business, finance, and everyday life. Modern banking is regulated by a sophisticated set of laws and regulations that are constantly evolving. Banking Law and Practice from the Hong Kong Institute of Bankers outlines and explains these laws and regulations clearly and in detail. This regulatory framework has a deep impact on banks, bankers, and anyone that deals with them, which is the overwhelming majority of society. This high level of impact makes Banking Law and Practice an important book as well as a necessary and authoritative reference for industry professionals, students, and the public at large. Banking Law and Practice discusses a range of topics that have a direct bearing on the day-to-day operations of banks, from contracts to how to ensure safe and secure lending. It examines the development and current state of banking legislation and regulation and facilitates bankers and their institutions to shape their practice to meet all the necessary legal and regulatory requirements. Students, industry professionals, and the public at large will welcome the thorough and clear explanations of the legal and regulatory framework in which banks operate. This book is essential reading for candidates studying for the HKIB Associateship Examination and anyone else seeking expert knowledge of the legal and regulatory structure affecting banks in Hong Kong. Topics covered in this book include: Contractual Relationships Code of Banking Practice Money Laundering Negotiable Instruments Law Related to Securities Bankruptcy and Insolvency
