A sober hedonist's guide to living a decadent, wild, and soulful life--alcohol-free. In a culture where sipping "ros é all day" is seen as the epitome of relaxation, "grabbing a drink" the only way to network; and meeting at a bar the quintessential "first date," many of us are left wondering if drinking alcohol really is the only way to cultivate joy and connection in life. Jardine Libaire and Amanda Eyre Ward wanted to live spontaneous and luxurious lives, to escape the ordinary and enjoy the intoxicating. Their drinking, however, had started to numb them to the present moment instead of unlocking it. Ward was introduced to Libaire when she first got sober. As they became friends, the two women talked about how they yearned to create lives that were Technicolor, beautifully raw, connected, blissed out, and outside the lines . . . but how? In The Sober Lush, Libaire and Ward provide a road map for living a lush and sensual life without booze. This book offers ideas and instruction for such nonalcoholic joys as: • The allure of "the Vanish," in which one disappears early from the party without saying goodbye to a soul, to amble home under the stars • The art of creating zero-proof cocktails for all seasons • Having a fantastic first date while completely sober • A primer on setting up your own backyard beehive, and honey tastings For anyone curious about lowering their alcohol consumption or quitting drinking altogether, or anyone established in sobriety who wants inspiration, this shimmering and sumptuous book will show you how to keep indulging in life even if you stop indulging in alcohol.

The title is an effective, manualized parent education programme' - Educational Book Review This ground-breaking training programme has been developed in response to a real need for evidence-based early interventions for very young autistic children. Authoritative and extensively tried and tested, it will help both parents and carers to understand the disorder and how it affects child development. Ultimately, the programme is designed to reduce the severity of emotional/behavioural difficulties by managing a child's particular problems and encouraging effective collaboration between professionals and parents. Structured as a series of individual and small group sessions, the programme is designed to run for 20 weeks and covers key areas such as understanding and managing difficult behaviour; changing/encouraging new behaviours; communication problems in verbal and non-verbal children; social problems; and how to work and play together. No man nor no woman could eat it like Nolan. The way he twirled his tongue, and slurped, sucked and hummed... there was no people or devices that could do what he'd done. He was the highest paid male escort in the game, with the most talent, highest skill level, and the most seductive mentality. His only problem was... He's in love. The lady he wants is in the same profession, and she doesn't want to settle down anytime soon. Planning tasks involving existing structures are currently among the most common types of contract, and almost every structure makes different demands and raises individual problems. Reflecting this state of affairs, there are a dizzying number of publications on the market, most of which are quite specialized. The Refurbishment Manual cuts through this jungle of publications. It defines terms and concepts, combines the narrowly focused perspectives of the specialists, and offers concrete approaches to this wide-ranging topic. The Refurbishment Manual closes the gap between basic constructional literature and one-sided, highly specialized technical literature. It constitutes a practical planning aid on the subject of refurbishment, providing a basic introduction to the relevant aspects of building physics, fire protection, sustainability and energy, hazardous materials, construction materials for interior and façade, historic preservation, and technical building equipment. It offers concrete tips on planning steps, methods of building analysis, and cost benchmarks, as well as clear constructional solutions with built projects as examples. A unique feature of the volume is the specially developed timeline, which allows the planner to quickly grasp, categorize, and evaluate a concrete building task and thus obtain an efficient planning overview. Planungsaufgaben im Bestand gehören derzeit zu den häufigsten Auftragsarten und nahezu jedes Bauwerk stellt andere Anforderungen und weist individuelle Probleme auf. Analog dazu gibt es auf dem Markt eine fast unüberschaubare Anzahl Publikationen in meist sehr spezialisierter Form. Der Sanierungsatlas möchte Licht in diesen Publikationsdschungel bringen: Er definiert Begrifflichkeiten, vereint die fokussierenden Betrachtungsweisen der Fachleute und vermittelt konkrete Herangehensweisen an diese weit gefächerte Thematik. Der Sanierungsatlas schließt die Lücke zwischen grundlegender Baukonstruktions- und sehr einseitig spezialisierter Fachliteratur. Das Buch stellt eine praktische Planungshilfe zum Thema Sanierung dar – und zwar in Form von relevanter Grundlagenvermittlung zu Bauphysik, Brandschutz, Nachhaltigkeits- und energetischen Aspekten, Schadstoffen, Baustoffen im Innenraum und an der Fassade, zu Aspekten der Denkmalpflege ebenso wie zur technischen Gebäudeausstattung. Er liefert konkrete Hinweise zu Planungsschritten, Methoden der Bauanalyse und Kostenkennwerten sowie anschauliche Konstruktionslösungen am Beispiel gebauter Projekte. Einzigartig ist die speziell entwickelte Zeitschiene, mit deren Hilfe eine konkrete Bauaufgabe schnell erfasst, kategorisiert und bewertet werden kann – und die dem Planer somit einen effizienten Planungsüberblick verschafft.

Speaking all over the United States about apologetics issues, Charlie Campbell has heard just about every question skeptics have to offer. In this concise, reader-friendly handbook, he provides brief responses to the top-40 questions that keep people from the faith, such as... What evidence do you have that God exists? How do you know the Bible is actually true? What about those who have never heard of Jesus? Will they be condemned to hell? If God is so loving, why does He allow evil and suffering? How can you say Jesus is the only way to heaven? Don't all religions basically teach the same thing? Aren't a lot of churchgoers hypocrites? With a gracious introductory note to skeptical readers and a generous sprinkling of inspiring quotes throughout, this handy resource is an enjoyable read as well as a powerful evangelistic tool.

This is the third edition of this influential and comprehensive handbook. Substantive changes in international humanitarian law have taken place recently, including a progressive development of customary law; and the jurisprudence of national courts, international ad hoc tribunals and theInternational Criminal Court, which have made a reassessment of this vitally important part of international law both timely and topical.New material is extensively incorporated, including new developments in treaty law, such as the 2010 amendments to the ICC Statute, as well as new topics that have been extensively debated in recent years: direct participation in hostilities; air and missile warfare; belligerent occupation;operational detention; and the protection of the environment in armed conflict. The growing need to consider borderline issues of the law of armed conflict and the interplay of international humanitarian law, human rights, and other branches of international law have led to have led to some materialbeing considered in a new light.The commentary both deepens reflection on such innovations, and critically reconsiders views expressed in earlier editions to provide a contemporary analysis of this changing field. Renowned international lawyers offer a broad spectrum of legal opinions, restating the law in this area, which isapplicable worldwide. Issues of human rights in armed conflicts and in post-conflict situations are extensively addressed. Controversial opinions and national and international judgments are documented and discussed. Problems of application of the law in recent military campaigns are assessed andinterpreted in a practice-oriented manner. Based on best-practice rules of global importance, this book also sets out an international 'manual' for international humanitarian law in armed conflicts.

The Deutsche Bank, Germany's largest financial institution, played an important role in the expropriation of Jewish-owned enterprises during the Nazi dictatorship, both in the existing territories of Germany, and in the area seized by the German army during World War II. In this 2001 book Harold James uses new and previously unavailable materials, many from the bank's own archives, to examine policies which led to the eventual genocide of European Jews. How far did the realization of the vicious and destructive Nazi ideology depend on the acquiescence, the complicity, and the cupidity of existing economic institutions, and individuals? In response to the traditional view that business co-operation with the Nazi regime was motivated by profit, this book closely examines the behaviour of the bank and its individuals to suggest other motivations. No comparable study exists of a single company's involvement in the economic persecution of the Jews in Nazi Germany.

Intuitively business leaders know that meetings can be very good - potentially. Executives and team leaders are constantly hosting business meetings, and attending many as well, and and most realize that expertly run meetings can function as forums for setting corporate goals and plans of action, can effect team unity and company loyalty, can identify successes and failures, and create better future outcomes. But while business meetings have all these potential benefits, too often they're not effective, and can even be counterproductive, simply because business leaders fail to keep in mind practical considerations and best practices. This book is about those best practices, how to master them, and use them as jumping off points for bettering your organization's tactical goals and strategic plans.In this book Christopher Hosford brings years of experience of great and ghastly business meetings - and focuses precisely on what is necessary to turn them into those successful, dynamic drivers of business. His insights, tips and advice are all proven to make your meetings far more productive. Christopher has had a varied career in education, and in consumer and trade journalism. Born in Atlanta and raised in Miami, Chris is a graduate of Christopher Columbus Catholic High School for Boys (Miami, FL), and the University of Florida (Gainesville, FL), where he majored in English and won varsity letters in track & field. After graduation, Chris taught high school English and drama in Jacksonville, FL, and coached track and cross-country teams, before turning his attention to journalism. Currently, Chris is editor-in-chief of HosfordGroup LLC, a New York content marketing agency specializing in strategic marketing consulting and the development and application of sales and marketing content in support of programs and campaigns. He continues to contribute regularly to Crain's New York Business and Advertising Age magazine. With the wide experience in different spheres, he brings a balanced and rigorous analysis and prescription to creating and running the best business meetings possible.

New York Times bestselling author, Food Network star, and The Pioneer Woman herself, Ree Drummond brings us the first book in a brand-new picture book series! In Ree's own words: "I was all grown up when I moved out to the country. When I first arrived, I felt so out of place! But eventually, I looked around and discovered all the wonderful things about country life. So I decided to write a story about my experiences, as seen through the eyes of a little girl named Ree. Little Ree moves to the country and feels as scared and unsure as I was. But then she finds that if she sets her mind to it, being a country girl is a pretty cool thing. Come along on her adventures!" Little Ree trades in her city days for a country way of life when she moves with her family to her grandparents' ranch. She's excited to ride horses, swim in the pond, and help Grandma cook for everyone. But on her first day, she finds that living on a ranch can be tough. She has to get up at the crack of dawn, learn to herd cows, and make sure her horse, Pepper, doesn't eat everything in sight. And that's all before breakfast! Will she ever get used to this new place? Luckily, the end of the day brings a big family barbecue...and the happy discovery that being a country girl isn't about the right pair of boots, it's all about the right attitude. With warmth, humor, and stories inspired by life on the ranch, Ree Drummond's new picture book introduces us to a spunky new picture book star and treats us to a special pancake recipe at the end!

While Universal's Dracula and Frankenstein (both 1931) have received the most coverage of any of the studio's genre releases, it is the lesser known films that have long fascinated fans and historians alike. Starting with The Last Warning, a 1929 movie released as both a silent and a talkie, Universal provided a decade of films that entertained audiences and sometimes frustrated critics. Each of Universal's horror, science fiction and "twisted mystery" films receives an in-depth essay for each film. The focus is first on the background to the making of the movie and its place in the Universal catalog. A detailed plot synopsis with critical commentary follows. Filmographic data for the film conclude the entry. Universal's The Shadow short film series is covered in an appendix. Many rare illustrations and movie posters are also included.
