The autobiography of Hans-Gert Pöttering, published for the first time in English Hans-Gert Pöttering, now the chair of the Konrad Adenauer Foundation (KAS), was a German Christian Democrat member of the European Parliament from 1979-1999, leading the centre-right EPP-ED group from 1999-2007 and serving as Parliament's president in 2007-2009. His autobiography is both a personal story and a narrative of Europe's journey out of the chaos and hatred of World War II and the post-war period between East and West. The author never knew his father, who was killed in the last stages of the war and, as he writes, 'the death of my father that motivated my European life'. The greatest political influence in his formative years was Konrad Adenauer, the first chancellor of the new Federal Republic of Germany and one of the 'founding fathers' of what is now the European Union: 'this new concept for the future of Europe captivated me from early in my life'. A widely popular and determined leader in the European Parliament, the author is a staunch defender of the institutions created to give the 'Community method' expression 'for, as he writes, quoting Jean Monnet, 'nothing is possible without men, but nothing lasts without institutions'. At this point of danger of European fragmentation, United for the Better is a timely reminder of what has been achieved and the perils of forgetting our common history.

The Unique Characteristics, Traits and Gifts of Females on the Autism Spectrum

Can you really lose twenty pounds in a month? Will you really keep it off this time? With The Rice Diet Solution, you will! The Rice Diet Program has been helping dieters successfully lose weight since 1939. Now in book form, this world-renowned weight-loss method can help you change the way you eat forever. The Rice Diet Program in Durham, North Carolina, was one of the first medical facilities in America to use diet as the primary way to treat disease. On this high-complex-carb, low-fat, and low-sodium whole-foods diet, "Ricers" lose weight faster, more safely, and more effectively than people on any other diet. Men lose on average twenty-eight to thirty pounds and women on average nineteen to twenty pounds per month! The Rice Diet also detoxes your body, ridding it of excess water weight and toxins from processed foods and the environment. The program's results have been documented by extensive studies and confirmed by thousands of people who report amazing weight loss, as well as immediate improvement in such

conditions as heart disease, diabetes, and hypertension. Here's how it works: The Rice Diet strictly limits salt and sodium-rich ingredients. Salt, like refined sugar, is an appetite stimulant, so when you reduce salt intake, you lose water weight and are less inclined to overeat. The Rice Diet also limits saturated fats and instead relies on carbohydrates (fruits, vegetables, grains, and beans) as the main source of nutrition. The fiber cleanses your system and satisfies you so you feel full quickly. The Rice Diet makes it easy to limit calories; when you're eating foods that truly satisfy your hunger, it's a challenge to eat 1,500 calories per day! To make it easy to follow the program, The Rice Diet Solution includes hundreds of tasty, filling, easy-to-prepare recipes—some from the Rice House kitchen, others inspired by major chefs and adapted to Rice Diet standards.

Have you ever wondered why she says she feels different to her peers? Wondered why life seems challenging for her? Her peers seem to gracefully and naturally meet their milestones, yet she has reached some developmental milestones early and some late. She may have spoken and read early, asking an endless array of questions. Maybe at age four she was teaching herself to read as you drove down the road by reading street signs. She may have been an overly active child, had sensory issues, or had a speech delay. You knew she was bright from early on, with a sprinkle of some anxiety, social

and eating issues, yet the professionals just cannot find an explanation that completely fits her. She may be very artistic, whether she sings, draws, paints, or writes, at times, too mature for her age. Yet, she struggles socially and emotionally, acting and appearing younger than her peers. She may be ten years old now, yet none of your research completely fits her or maybe you have just now come across some information on females that completely makes sense to you. Maybe she is "Aspien," a young female with Asperger Syndrome or High-Functioning Autism. She has a unique constellation of super-abilities, strengths and challenges. She may feel or say that she is from another Planet, Planet Aspien(r). If you are looking for a book on the often perplexing and unique female Autism Spectrum traits, then this is the book for you. Watch for "I am AspienWoman," coming soon.

The Dance of Death

The New York Times bestseller *Daemon* unleashed a terrifying technological vision of an all-powerful, malicious computer program. Now, our world is the *Daemon's* world—unless someone stops it once and for all... The *Daemon* is in absolute control, using an expanded network of shadowy operatives to tear apart civilization and build it anew. Even as civil war breaks out in the American Midwest in a wave of nightmarish violence, former detective Pete Sebeck—the *Daemon's* most powerful, though reluctant, operative—must lead a small band of enlightened humans in a movement designed to protect the new world order. But the private armies of global business are preparing to crush the *Daemon* once and for all. In a world of shattered loyalties, collapsing societies, and seemingly endless betrayal, the only thing worth fighting for may be nothing less than the freedom of all humankind.

The first book in a ten-volume science fiction satire.

The workshop approach to learning to paint is based on active hands-on participation by the student. With this in mind, this book - the second in Collins' Workshop series for the leisure painter - combines instructional teaching by a professional artist with practical exercises and projects which are specifically designed to encourage students to develop their own style and ideas, rather than just copying those of other artists.
