Mars was once similar to Earth, but today there are no rivers, no lakes, no oceans. Yet multiple spacecraft are circling Mars, sweeping over Terra Sabaea, Syrtis Major, the dunes of Elysium, and Mare Sirenum-- on the brink, perhaps, of a staggering find. Johnson tells the story of how she and other researchers have scoured Mars for signs of life. She interlaces her journey as a female scientist with tales of other seekers, to offer an unlikely natural history of a place where no human has ever set foot, while providing a vivid portrait of our quest to defy our isolation in the cosmos. -- adapted from jacket

George Edward "Rube" Waddell was one of the zaniest catchers ever to play baseball. The legendary Connie Mack, who saw quite a few cards during his nearly seven decade stint in the majors, once observed that "no other screwball he ever saw could hold a candle to Rube. Mack also said that Rube's curveball was the best he'd ever seen. Indeed, Waddell was one of the greatest pitchers in the history of the game. Rube won 191 games in 13 seasons, had four straight 20-win seasons for Mack and the Philadelphia A's, and claimed six consecutive strikeout titles. In 1904 he struck out 349 batters, a record that held for six decades. This biography traces his early life in western Pennsylvania, the fits and starts of his first years in professional baseball, his big years with the A's, and his subsequent fall into obscurity and his early death in a sanatorium on April Fool's Day, 1914.

Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist group/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

"Powerful and important... an instant classic." —The Washington Post Book World The award-winning look at an ugly aspect of American racism by the bestselling author of Lies My Teacher Told Me, reissued with a new preface by the author. In this groundbreaking work, sociologist James W. Loewen, author of the classic bestseller Lies My Teacher Told Me, brings to light decades of hidden racial exclusion in America. In a provocative, sweeping analysis of American residential patterns, Loewen uncovers the thousands of "sundown towns"—almost exclusively white towns where it was an unspoken rule that blacks weren't welcome—that cropped up throughout the twentieth century, most of them located outside of the South. Written with Loewen's trademark honesty and thoroughness, Sundown Towns won the Gustavus Myers Outstanding Book Award, received starred reviews in Publishers Weekly and Booklist, and launched a nationwide online effort to track down and catalog sundown towns across America. In a new preface, Loewen puts this history in the context of current controversies around white supremacy and the Black Lives Matter movement. He revisits sundown towns and finds the number way down, but with notable exceptions in exclusive all-white suburbs such as Kenilworth, Illinois, which as of 2010 had not a single black household. And, although many former sundown towns are now integrated, they often face "second-generation sundown town issues," such as in Ferguson, Missouri, a former sundown town that is now majority black, but with a majority-white police force.

The sexiest cop in Waterbury and totally out of my league. But then he kisses me. And we totally forget the room, the crowd, everything. Then he tells everyone we've been dating for months. Soon everything starts to feel too real, from adorable fights over "necessary" tools to fix my broken porch to surviving a free-for-all dinner with his six siblings to picking up where our last kiss left off. But there's something he's not telling me about why he's really hanging around, and I'm pretty sure it has to do with my mob-connected brothers. Because this is not a make-over story, and Cinderella is only a fairy tale... Each book in the Hartigans series is STANDALONE. * Butterface * Muffin Top * Tomboy

Re-released in a second edition with new content. Logan Green is back in Bliss, but only for a few weeks to help out at the sheriff's office. He always dreamed of a big house on the river and a wife he could share with his best friend, Logan. After building a software empire, his only goal has been to make that dream come true. He just needed the perfect woman. Georgia is still haunted by the dark, troubled man who saved her life. She can't get Logan out of her head. Her boss brought her to Bliss to help him decorate his new summer home, but when Logan Green walks through the door she discovers Seth has something different in mind. Seth has a plan for their mutual happily ever after, but he never dreamed that coming home would put all their lives in danger.

Xandra believes Sirens are creatures of myth. At least, she sees until they escape from the prison that has held them for centuries and they come seeking revenge. Now, their magic is unstoppable. Even a Witch Fairy's magic isn't strong enough to stop the Sirens from singing their death call. With only six nights to find a solution before all the males she loves are taken from her, Xandra must find a way to stop them.

A brilliant satire of mass culture and the numbing effects of technology, White Noise tells the story of Jack Gladney, a teacher of Hitler studies at a liberal arts college in Middle America. Jack and his fourth wife, Babbette, bound by their love, fear of death, and four ultramodern offspring, navigate the rocky passages of family life to the background babble of brand-name consumerism. Then a lethal black chemical cloud, unleashed by an industrial accident, floats over their lives, an "airborne toxic event" that is a more urgent and visible version of the white noise engulfing the Gladneys—the radio transmissions, sirens, microwaves, and TV murmurings that constitute the music of American magic and dread.
