***In The New Rules of Retail, industry gurus Robin Lewis and Michael Dart explained how unprecedented consumer power, enabled by technology and globalization, is revolutionizing retail. They warned that survival in these dynamic times called for a business model based on three distinct competencies: preemptive, perpetual distribution; a neurological customer connection; and total control of the value chain. In the years since that book published, many of their predictions have come true. Now, they revisit timeless case studies like Ralph Lauren and Sears, as well as new additions like Trader Joe's, Lululemon, and Warby Parker, to assess how retailers must continue to evolve in the era of e-commerce, data mining, and tiered distribution. They also identify the five current trends that are currently driving consumer demand, including technology integration and channel consolidation, as exemplified by Jeff Bezos at Amazon. This is a fully revised and updated guide from two proven retail prognosticators.***

The retail industry, with which we have all grown up, has been devastated by the twin effects of the internet and the Coronavirus lockdown. Huge numbers of prestigious brands have gone under, or are a shadow of their former selves. The world economy has gone into deep recession, with reduced employment and incomes across broad swathes of society. Many discretionary products have simply become too expensive for ordinary people to buy on a regular basis. High streets and shopping malls lie half empty, causing a vacuum at the core of our societies. There is an urgent need to regenerate our local shopping centres. In order to create new hope in depressed areas. So how can retailers and brands respond to this crisis? Fortunately, new shoots of recovery are emerging from the wreckage of the old order – new brands, new ways of providing value, and new and innovative methods of creating excitement to draw in consumers, and kick-start the retail economy. Technology is re-shaping almost every aspect of the supply chain, and is lowering barriers to entry to new and innovative start-ups, which are re-making sector after sector. In addition, some incumbent brands and retailers are experimenting with novel ways of doing things – from turning mere shopping into an immersive ‘theatre’, to creative ways to measure and retain loyalty. This book offers a comprehensive analysis of these new forces which are changing the way in which we buy products and experience brands. It includes in-depth interviews with some of the most innovative players – from John Lewis in the UK, to Nike and Patagonia in the US - in the hope of drawing out key learning points for the rest of the industry, across the globe. It also provides essential guidelines for governments, as they strive to rebuild society in the wake of recent catastrophes – from the death of Main Street to the impact of coronavirus.

By providing a comprehensive theoretical framework, this book aims to map the most relevant technologies that have the potential to reshape the retail industry. The authors demonstrate how technology is pushing innovation, and examine how smart technologies can be fruitfully applied both in-store and through digital channels. The aim of the book is to synthesise theory and practice, and provide a richer understanding of new digital opportunities offered by the ‘ smart ’ experience. An accessible resource for researchers who want to understand this phenomenon as part of their expertise in digital marketing and e-commerce. Smart Retailing also provides insights for practitioners who are experiencing the dramatic effects of new technologies on their retail strategies.

A new collection filled with winning ideas and strategies for improving your success in the retail business...2authoritative books, now in a convenient e-format, at a great price! Smart Retail, the world’s #1 guide to retail success, complete with crucial, up-to-date insights—including new case studies, ideas, strategies, and tactics from today’s best retailers, like TopShop, IKEA, and Best Buy. Physical retail isn't dead—but boring retail is! Remarkable Retail equips the savvy retailer with eight essential strategies to deliver a powerful customer experience. Despite the clickbait headlines that warn of a “retail apocalypse,” many brick and mortar retail brands are enjoying strong growth and profits. Others, however, are destined to become obsolete because they offer merely convenience, decent prices, or an okay shopping experience. In Remarkable Retail, industry thought leader Steve Dennis argues that retailers can no longer compete on price, or settle for providing indifferent in-store experiences, because customers live online and have a wealth of choice and information at their fingertips. In the book, Dennis unpacks the trends that are squeezing traditional stores and presents eight essential strategies for visionary retail leaders who are prepared to reimagine the customer experience in the age of digital disruption. A remarkable retailer is digitally enabled, human centered, harmonized, mobile, personal, connected, memorable, and radical. In most retail categories, digital channels are now central to the consumer’s journey, but that doesn’t mean people aren’t also shopping in stores. Packed with illuminating case studies from some of modern retail’s biggest success stories, Remarkable Retail shows retailers and those in adjunct industries such as manufacturing, marketing, and tech, what it takes to create big buzz around the in-store experience. In an age where consumers have short attention spans and myriad options, Remarkable Retail is your crucial roadmap to creating a powerful retail experience that keeps your customers coming back for more.

Retail Loss Prevention Description Retail loss prevention and profit protection isn't just about theft from retail stores. There are thousands of ways that assets can be lost from your retail business, normally caused by one of three things, theft, waste or negligence. All impact negatively on an organisation's bottom line and can come from internal or external activity. Introduction to Retail Loss Prevention explains key terms used in retail loss prevention and gives an overview of the main causes of loss in retail environments such as, shrinkage, litigation, fraud, supply chain losses, extortion, disaffected staff and reputation. The book then goes on to explain how and where to conduct loss prevention risk assessments in relation to, business premises, various retail security systems, stock, cash, personnel, terrorist activity, legal and regulatory compliance, distribution networks, IT systems, disaster recovery and industrial espionage. Case studies are used throughout the book to illustrate key points and concepts. Cost-effectiveness of the loss prevention effort within your organisation and the use of no benefit to save assets in one area if you are going to waste them on ineffective or non-essential security measures. This and other books in the series are written for readers with little or no knowledge of retail loss prevention but the content makes them suitable for all managers and loss prevention specialists. Written in easy to understand language, this book will help any retail manager or loss prevention specialist who needs to prevent and deal with loss in their retail outlet(s). Retail loss prevention risk assessments will become simple using this book. Carry it with you on your e-reader and easily move to different sections of the book as you conduct your risk assessments. Use the book to make your own checklists and save hours of time having to think about what you should be looking for. Introduction to Retail Loss Prevention has been written by two retail loss prevention specialists who, combined, have over 60 years of experience in loss prevention and profit protection across many industries. Tim Trafford BEM has over 25 years experience working in and managing loss prevention and investigation departments including hospitality, sports retail, supermarket chains and distribution. He currently holds a senior position in the loss prevention department of a well known international distribution chain. Ian Watts MCM, MIPI, M5yl has over 25 years experience investigating losses in various industries and 15 years experience in training managers and loss prevention personnel in several countries. This is the first book in a series of 10 books dealing with retail loss prevention and profit protection activities. The ideas promoted in this book are fully expanded in other books in the series. The full series provides a library of material which covers most areas of retail loss and profit protection and how to prevent, minimise and deal with those losses.

Thoroughly updated, this 6th edition maintains the book’s popular, accessible and supportive style, and now offers: A fully international perspective for today’s global industry New case studies to illustrate changing industry issues and application Completely updated coverage of digital and social marketing and GDPR Topical updates, more case studies and tips on getting work in publishing on a companion website Detailed coverage of individual market segments, bringing relevance to every area of publishing

The consumer power dynamic has changed forever. Are you ready? Armed with computers, tablets, smartphones, and connected globally to each other, today’s consumers have revolted against the marketplace status quo. Demanding a voice, and sometimes a hand, in the products they buy, these digitally empowered consumers—“Me’s”—have changed the traditional market dynamics of retail into Metail. Through what Bines calls “The Quantum Consumer Revolution,” companies are longer in charge, the consumer is. Your customers now create their own stories. Your very survival depends on recognizing this and adapting to the new Metail economy. From Joel Bines, one of today’s top retail brand thought leaders, Metail provides innovative methods for connecting with the Me-centric consumer and shows organizations how to survive this consumer revolution. Bines provides examples of companies that have failed to address the Metail paradigm, along with that are on the right path, clearly illustrating how the traditional power dynamic has inverted and why it matters for business survival. Bines offers six proven models you can use to cultivate and serve highly informed and empowered customers in the Metail marketplace: Curation Customization Category Expertise Cost Convenience Community Metail explains why companies shouldn’t pigeonhole themselves into one model, but rather develop a deep self-awareness about how the viewed and valued by their customers—and focus their investment, resources, and energies accordingly. An Executive Action Plan is included. Whether you are the CEO of a global organization or starting your own clothing boutique in order to succeed from here out, you must become a Metailer—and this groundbreaking book will show you how.

Traditional retail is becoming increasingly volatile and challenged as a business model. Brick-and-mortar has shifted to online, while online is shifting into pop-up storefronts. Virtual stores in subway platforms and airports are offering new levels of convenience for hurried commuters. High Street and Main Street are becoming the stuff of nostalgia. The Big Box is losing ground to new models that attract consumers through their most-trusted assistant—the smartphone. What’s new? What’s the future for you—a retailer—who is witnessing a tsunami of change and not knowing if this means grasping hold of new opportunity or being swept away? The Retail Revival answers these questions by looking into the not-so-distant retail past and by looking forward into a future that will continue to redefine retail and its enormous effect on society and our economies. Massive demographic and economic shifts, as well as historic levels of technological and media disruption, are turning this once predictable industry—where “average” was king—into a sea of turbulent change, leaving consumer behavior permanently altered. Doug Stephens, internationally renowned consumer futurist, examines the key seismic shifts in the market that have even companies like Walmart and Procter & Gamble scrambling to cope, and explores the current and future trends that will completely change the way we shop. The Retail Revival provides no-nonsense clarity on the matter of a completely new retail marketplace—realities that are driving many industry executives to despair. But the future need not be dark. Stephens offers hope and guidance for any businesses eager to capitalize on these historic shifts and thrive. Entertaining and thought-provoking, The Retail Revival makes sense of a brave new era of consumer behavior in which everything we thought we knew about retail is being completely reimaged. Praise for The Retail Revival “It doesn’t matter what type of retail you do—if you sell something, somewhere, you need to read Doug Stephens’ The Retail Revival. Packed with powerful insights on the changing retail environment and what good retailers should be thinking about now, The Retail Revival is easy to read, well-organized and provides essential food for thought.” — Gregg Saretsky, President and CEO, WestJet “This book captures in sharp detail the deep and unprecedented changes driving new consumer behaviors and values. More importantly, it offers clear guidance to brands and retailers seeking to adapt and evolve to meet entirely new market imperatives for success.” —John Gerzema, Author of Spend Shift and The Athena Doctrine “The Retail Revival is a critical read for all marketing professionals who are trying to figure out what’s next in retail... Doug Stephens does a great job of explaining why retail has evolved the way it has, and the book serves as an important, trusted guide to where it’s headed.” —Joe Lampertius SVP, Shopper Marketing, Momentum Worldwide and Owner, La Spezia Flavor Market “Doug Stephens has proven his right to the moniker ‘Retail Prophet.’ With careful analysis and ample examples, the author makes a compelling case for retailers to adapt, change and consequently revive their connection with consumers. Stephens presents actionable recommendations with optimism and enthusiasm—just the spoonful of sugar we need to face the necessary churn ahead.” —Kit Yarrow, Ph.D., Consumer Psychologist; Professor, Golden Gate University; Co-Author, Gen BuY: How Tweens, Teens and Twenty-Somethings are Revolutionizing Retail “Doug Stephens doesn’t just tell you why retail is in the doldrums, he tells you why retail is a major signpost for the larger troubles of our culture and provides a compelling, inspiring vision for a future of retail—and business, and society.” —Eric Garland, author of Sugar Inc.: How Businesses Can Anticipate

When it comes to retail, is there a method to the madness? In this report Donny Perry answers with a definitive, “yes.” In Leading Out Retail, Perry combines hundreds of hours of research, a rich trove of social science, and his counterintuitive insights as he explains a paradigm shift in the industry of bicycle retail. Within this paradigm shift Perry teaches retailers simple strategies on how to increase profit through service, what the most important question to ask every customer is, and how to manage the dreaded Timmy Factor. Perry believes the future belongs to a different kind of retailer with a different mindset. In this book he offers a provocative and urgent new way of thinking about the future of retail; a future that may have already arrived.

Compared to 25 years ago, today’s retail experience is a world apart. Almost anything can be ordered, delivered and picked up rapidly, often customized to personal preferences at no extra cost. The smartphone has created a world of limitless consumer expectation and logistical possibility. So how much further can it go? What will the retail experience look like in ten, twenty, or even fifty years—and how should companies, big and small, be preparing? Amazon will still loom large, say industry experts Robin Lewis and Michael Dart, but now they’ll actually be profitable, as mobile shopping becomes the norm. More importantly, the primacy of access over ownership, and experience over material goods, will force retailers to rethink their offerings. Demographic trends, like the glut of seniors and the declining marriage rate, and societal trends, like income polarization and continued urbanization, will have surprising effects on which brands and products take center stage. And the double-edged sword of technology will be fully apparent: no more cards or cash, but pervasive fear of fraud and surveillance from the dark Web and the rise of A.I.. In their previous book, The New Rules of Retail, Lewis and Dart predicted nearly every defining characteristic of today’s marketplace—and the industry snapped it up in two editions. Now, in Retail’s Seismic Shift, they do the same for the next era, where retailers will have to be ready for anything.

Whether you’re a novice or a seasoned retail entrepreneur, Retail Business Kit For Dummies shows you how to start and run your business in today’s retail marketplace—from your original dream and the day-to-day operation to establishing a connection with customers and increasing your sales, both on the Web and at a brick-and-mortar shop. Be Your Customer's First Choice

Why Customers Would Rather Have a Smartphone than a Car explores some of the fundamental changes in consumer behaviour: Why do we buy less in shops and more on the internet? Why do we spend more on gadgets, smartphones and apps and not more on food, holidays or clothing? Why do most business people only look at symptoms and not the causes of changing customer behaviour? The new generation buys differently from the baby boomers; they have different priorities and preferences. The internet has changed us in the way we think, act and communicate. Whilst many retailers are now understanding the need for a new model, few of them have established the drivers behind the changes. By understanding the drivers behind the changes, retailers can identify the opportunities this represents and adapt their offering accordingly. The kind of relationship retailing he advocates involves the way the retailer interacts with their customer; the new environment that they need to sustain along with their ability to relate customer data, technology and new services. The author interweaves examples from traditional and virtual retailing with his research on consumer psychology and buying behaviour to offer a sophisticated and at times challenging guide for all those involved in retailing, as well as those responsible for planning and designing social and retail space.

The inspirational bestseller that ignited a movement and asked us to find our WHY Discover the book that is captivating millions on TikTok and that served as the basis for one of the most popular TED Talks of all time—with more than 56 million views and counting. Over a decade ago, Simon Sinek started a movement that inspired millions to demand purpose at work, to ask what was the WHY of their organization. Since then, millions have been touched by the power of his ideas, and these ideas remain as relevant and timely as ever. START WITH WHY asks (and answers) the questions: why are some people and organizations more innovative, more influential, and more profitable than others? Why do some command greater loyalty from customers and employees alike? Even among the successful, why are so few able to repeat their success over and over? People like Martin Luther King Jr., Steve Jobs, and the Wright Brothers had little in common, but they all started with WHY. They realized that people won’t truly buy into a product, service, movement, or idea until they understand the WHY behind it. START WITH WHY shows that the leaders who have had the greatest influence in the world all think, act and communicate the same way—and it’s the opposite of what everyone else does. Sinek calls this powerful idea The Golden Circle, and it provides a framework upon which organizations can be built, movements can be led, and people can be inspired. And it all starts with WHY.

***In Inside the Mind of the Shopper , world-renowned retail consultant Dr. Herb Sorensen, Ph.D. uncovers the truth about the retail shopper and rips away the myths and mistakes that lead retailers to miss their greatest opportunities. Every year, says Sorensen, shoppers will spend a quadrillion seconds in supermarkets and they’l waste 80% of that time. Drawing on Sorensen’s breakthrough second-by-second analysis of millions of shopping trips, this book reveals how consumers actually behave, move, and make buying decisions as they move through supermarkets and other retail stores. Sorensen presents powerful, tested strategies for designing more effective stores, improving merchandising, and driving double-digit sales increases. He identifies simple interventions that can have dramatic sales effects, and shows why many common strategies simply don’t work. You’ll learn how to appeal to the “quick trip” shopper, make the most of all three “moments of truth,” understand consumers’ powerful in-store migration patterns, improve collaboration between manufacturers and retailers, learn the lessons of Stew Leonard’s and other innovators, and much more. Then, in Part II, Sorensen presents revealing interviews with several leading in-store retail experts, including crucial insights on using technology and relating to multicultural communities. 2 The world’s #1 guide to retail success, complete with crucial, up-to-date insights—including new case studies, ideas, strategies, and tactics from today’s best retailers, like TopShop, IKEA, and Best Buy. *For most of us, one of the most rewarding, yet difficult tasks, is preparing messages to preach and teach. We are honored by God to stand before our congregation each week, and we want to give them the very best, but with the press of the many demands of ministry, sometimes that is difficult to do. And if you’re like me, you prefer writing your own sermons because you have a special connection with your congregation that is hard to reach through a message someone else has written. In other words, no one knows your people like you do! Our new Pulpit Outline Series gives you a starting point - a sermon title, a deductive sermon outline, and a relevant illustration you can use however you like. In this edition, rather than an outline, we have given you full manuscript messages that can be edited to suit your purposes. We invite you to make these messages your own, because only you know the people God has called you to preach to. And we are so honored that you’ve invested in this unique third volume in the Pulpit Outline series - 52 Funeral Sermons. We have put together the most tasteful, relevant, and Biblical messages possible. May God Bless You as You Share His Word!*

*Almost weekly, the news is full of stories about disappearing retail chains. From House of Fraser and BHS to Toys'R'Us and Sears, recognised names are vanishing overnight – as such large organizations disappear, so the malls, shopping centres, high streets and main streets become emptier and less appealing to visit. The retail sector is hugely important in terms of job numbers: in the US, it employs around 30 million people (directly and indirectly); in the UK, around 10 million. As such, anything that jeopardises the retail sector will have a deep and lasting impact on millions of lives, as well as on public policy. While many blame the 'Amazon effect', this is an oversimplification. Deeper forces are at work that are changing people's relationships with brands, the balance of power between producers and consumers, and the whole nature of the supply chain that has existed since the industrial revolution. Retail Therapy offers a comprehensive analysis of these forces and their impact on the world of retailing. More importantly, it presents a cogent analysis of the longer term trends that are shaping retailing, and outlines a clear road map for sustainable success in the future.*

*Who are the world’s best retail brands? Is there a formula for success you can learn from? How to Succeed at Retail helps you find the key factors that will make you successful. Building on the process introduced in the international bestseller Retailization, it begins by encouraging you to become 'retail obsessed' and to think strategically, creatively and operationally in a retail context. It then illustrates success in action with 25 winning international case studies that show you some inspirational ways forward. Fast-paced and accessible, it concludes with an operational methodology which can be applied to any and every business. By introducing you to new ideas, winning cases and real tools, How to Succeed at Retail will help you to develop and implement an actionable brand vision. An accompanying website provides access to further case studies, strategies, tools and downloads. Featured case studies: Apple; Assa Abloy; Bose; Courvoisier; Dyson; Easyjet; Gillette; Gooh!; Guinness; Hennes & Mauritz; Holland & Holland; Innocent; Karmaloop; Oliviers & Co; P&G; Peroni; Red Bull; REI; Senseo; Starbucks; Superquinn; Tchibo; Whole Foods Market; Yoyamart; Zara.*

Explores the coming retail revolution, which will affect retailers of all sizes. The author paints a bold vision of the future, where the very concept of what a store is, how consumers shop and even what retail's core revenue model is, will all be profoundly reinvented, and he illustrates the vast opportunities available for courageous brands and business leaders. With real world examples and insights from industry disruptors

One of the most interesting and useful books ever written on networking !Adam Grant Social Chemistry will utterly transform the way you think about (networking)! Understanding the contours of your social network can dramatically enhance personal relationships, work life, and even your global impact. Are you an Expansionist, a Broker, or a Convener? The answer matters more than you think. . . . Yale professor Marissa King shows how anyone can build more meaningful and productive relationships based on insights from neuroscience, psychology, and network analytics. Conventional wisdom says it's the size of your network that matters, but social science research has proven there is more to it. King explains that the quality and structure of our relationships has the greatest impact on our personal and professional lives. As she illustrates, there are three basic types of networks, so readers can see the role they are already playing: Expansionist, Broker, or Convener. This network decoder enables readers to own their network style and modify it for better alignment with their life plans and values. High-quality connections in your social network strongly predict cognitive functioning, emotional resilience, and satisfaction at work. A well-structured network is likely to boost the quality of your ideas, as well as your pay. Beyond the office, social connections are the lifeblood of our health and happiness. The compiled results from dozens of previous studies found that our social relationships have an effect on our likelihood of dying prematurely/equivalent to obesity or smoking. Rich stories of Expansionists like Vernon Jordan, Brokers like Yo-Yo Ma, and Conveners like Anna Wintour, as well as personal experiences from King's own world of connections, inform this warm, engaging, revelatory investigation into some of the most consequential decisions we can make about the trajectory of our lives.

China's new retail revolution will completely transform how the world thinks about retail and digital innovation. But is the world ready yet? In this book, the authors share an insider's perspective on what is happening in China to reveal the future for global retail, and a clear framework to help you prepare. The book presents a number of real-world cases, based on interviews and first-hand consumer experience, to decode China's retail revolution so that you can understand what is happening and why, and what it means for the rest of the world. Crucially, the book identifies five critical stages in the development of new retail that global retail executives need to grasp now: lifestyle commerce, Online-Merge-Offline retail, social retail, livestream retail and invisible retail. To help the industry get ready for this new, China-inspired paradigm in retail, the authors present a practical and simple framework i a ten-year strategic roadmap for global retail executives, which we call the iBeyond: the Value Chain Model. China's new retail is not just about fashion, cosmetics, snacks, data-driven convenient stores and commercial live streaming. At a time when the world of retail is being upended, it offers inspirational lessons in innovation, purpose and agility for global executives across the entire retail spectrum.
