Cincinnati Magazine taps into the DNA of the city, exploring shopping, dining, living, and culture and giving readers a ringside seat on the issues shaping the region.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from hope as the young of being rescued.

Presents a six-week plan for healthy eating, providing information on nutrition, a variety of recipes, and eighty menus.

The two-volume set LNCS 7649 + 7650 constitutes the refereed proceedings of the 11th International Semantic Web Conference, ISWC 2012, held in Boston, MA, USA, in November 2012. The International Semantic Web Conference is the premier forum for Semantic Web research, where cutting edge scientific results and technological innovations are presented, where problems and solutions are discussed, and where the future of this vision is being developed. It brings together specialists in fields such as artificial intelligence, databases, social networks, distributed computing, Web engineering, information systems, human-computer interaction, natural language processing, and the social sciences. Volume 1 contains a total of 41 papers which were presented in the research track. They were carefully reviewed and selected from 186 submissions. Volume 2 contains 17 papers from the in-use track which were accepted from 77 submissions. In addition, it presents 8 contributions to the evaluations and experiments track and 7 long papers and 8 short papers of the doctoral consortium.

This book presents recent research on interactive collaborative learning. We are currently witnessing a significant transformation in the development of education and especially post-secondary education. To face these challenges, higher education has to find innovative ways to quickly respond to these new needs. On the one hand, there is a pressure by the new situation in regard to the COVID pandemic. On the other hand, the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months. Scientifically based statements as well as excellent experiences (best practice) are absolutely necessary. These were the aims connected with the 24th International Conference on Interactive Collaborative Learning (ICL2021), which was held online by Technische Universität Dresden, Germany, on 22-24 September 2021. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education. Nowadays, the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between 'pure' scientific research and the everyday work of educators. This book contains papers in the fields of Teaching Best Practices Research in Engineering Pedagogy Engineering Pedagogy Education Entrepreneurship in Engineering Education Project-Based Learning Virtual and Augmented Learning Immersive Learning in Healthcare and Medical Education. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, schoolteachers, learning industry, further and continuing education lecturers, etc.

All animals are equal but some animals are more equal than others. It's just an ordinary farm - until the animals revolt. They get rid of the irresponsible farmer. The other animals are sure that life is improving, but as systems are replaced and half-truths are retold, a new hierarchy emerges . . . Orwell's tale of propaganda, power and greed has never felt more pertinent. With an exciting new cover and inside illustrations by superstar Chris Mould.

The Gerontological Nurse Certification Review is an invaluable reference and certification test review guide for nurses preparing for RN Gerontological certification. Students studying gerontology, teachers preparing gerontology classes, and RNs working with older adults will also find this a practical and useful resource. The text presents information about preparing for the certification exam, a comprehensive compilation of content specific to gerontology, and a test bank of questions specifically developed for the RN. Why this is the only test review you need: Developed to address all aspects of ANCC exam Formatted for easy review and understanding of concepts Up-to-date and evidence-based 500 review questions to adequately prepare future gerontological nurses One of a kind--no other gerontological review books are currently available

Imagine lying awake in bed, waiting to hear the front door open so you'll know your teen is home safely. But instead, tonight, the doorbell rings. Your heart stops when you see the police officers in the doorway, and you know instantly that your life will never be the same again. Wouldn't you do ANYTHING to go back and change things? By then it will be too late. The time to prepare your teen to drive and survive is NOW! "3 Keys to Keeping Your Teen Alive" provides a simple step-by-step plan to prepare teens to become safe, responsible drivers. Parents can use it to teach their teens to drive or to make sure they cover all the bases in their practice sessions after the teen has taken a professional driver training course. "3 Keys to Keeping Your Teen Alive" includes: 25 structured driving lessons, great advice from top experts, checklists to follow and other useful tools. There are true stories, quizzes and puzzles to keep your teen interested and reinforce the learning. The companion website (TeensLearntoDrive.com) has additional resources and links to great instructional & informational videos that complement each lesson. The program works with Graduated Driver Licensing (GDL) Programs. "3 Keys to Keeping Your Teen Alive" is straightforward and easy to follow but will take a lot of time, patience and dedication from both of you--parent and teen. Is it worth it?

HVAC Training 101 is a site visited by over 100,000 enthusiasts monthly, who are interested in becoming HVAC technicians. The site initially began as the passion project of a retired HVAC technician. The site quickly gained popularity, building a strong community of aspiring HVAC technicians. Currently, it is managed by a team of ex-HVAC technicians with decades of experience in the industry. Head over to HVACTraining101.Com to learn more. We began by writing about how to become certified as an HVAC technician. With rules and certifications varying for each state, it was a challenging task. We had a few friends in other states help us out, but for some states, we had to dig really deep to find the information needed. Our audience at the time was very happy with the information we provided. At this point, we started getting many questions about EPA 608 certification. Once you get the education and experience needed to become a technician, prospective employers will ask for certification to handle refrigerants. When we started writing about how to become certified, viewers again requested we write a study guide to help them prepare for the 608 exams. The study guides out there were dense and had much more information than was needed to pass the test. This inspired us to embark on a journey to find the simplest study guide for the EPA 608 exam, which would still cover all the necessary information. We hope we have achieved our intended objective. The journey to becoming an HVAC technician can be long and arduous. We congratulate you on taking this path and wish you the best in cracking the EPA 608 exam.

In a world plagued by enormous, complex problems requiring long-range vision and interdisciplinary insights, the need to attend to the influence of dogmatic thinking on the development of high ability and creative intelligence is pressing. This volume introduces the problem of dogmatism broadly, explores the nature and nuances of dogmatic thinking from various disciplinary perspectives, and applies the gleaned insights to what is known about creativity. Bringing together leading thinkers in the fields of creative studies and education, and in other relevant fields (history, sociology, psychology) whose work pertains to the various dimensions of dogmatism and the ethical problems it generates, this panoramic view represents interdisciplinary bridge building with the potential to generate new insights about the education of creative young minds.

This is the Book of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. In just one hour a day, you'll have all the skills you need to begin programming in C++. With this complete tutorial, you'll quickly master the basics, and then move on to more advanced features and concepts. Completely updated for the C++14 standard, with a preview of C++17, this book presents the language from a practical point of view, helping you learn how to use C++ to create faster, simpler, and more efficient C++ applications. Master the fundamentals of C++ and object-oriented programming Understand how C++ features help you write compact and efficient code using concepts such as lambda expressions, move constructors, and assignment operators Learn best practices and avoid pitfalls via useful Do's and Don'ts Learn the Standard Template Library, including containers and algorithms used in most real-world C++ applications Test your knowledge and expertise with exercises at the end of every lesson Learn on your own time, at your own pace: No previous programming experience required Write fast and powerful C++ programs, compile the source code, and create executable files Learn object-oriented programming concepts such as encapsulation, abstraction, inheritance, and polymorphism Use the Standard Template Library's algorithms and containers to write feature-rich yet stable C++ applications Learn how automatic type deduction helps simplify C++ code Develop sophisticated programming techniques using lambda expressions, smart pointers, and move constructors Master the features of C++ by learning from programming experts Learn C++ features that allow you to program compact and high-performance C++ applications Preview what's new in C++17

This manual will give you every necessary help you will ever need to pass the DMV written exam irrespective of the part of the States you live in! Nonetheless, without any exaggerations, I'm supper certain that if you can give a little time to studying this manual, it would no doubt serve as a springboard towards ensuring your success: that you pass your DMV without tears. Taking these practice permit tests will help you to get acquainted with the real test and ensure the translation of your anticipated success in the exams to reality. In recent times, DMV tests have become somewhat quite complicated but with this manual, there is really no need to be afraid as the questions contained in it are close enough to what you will see and be tested on in the real test and in some cases, the questions herein are the same with the ones in the real test. The questions in this test manual covers different sections of what you need to know as a good driver and also be tested on, based on experience. And there are many questions and answers in it, which will give you an in-depth knowledge as well as sufficient preparation for the real test. The questions cut across; defensive driving, road signs/markings and turnings. It also include questions on braking, skid controls, steering techniques, and much more. As a matter of necessity, you are strongly encouraged to do well to repeat each test contained herein until you can achieve a consistent score of about 90% or more. In this manual you will learn the exact things that those who pass the test on their first attempt always do; that is, getting acquainted with the following: General Driving Knowledge testDefensive driving testSkid controlTeen drivers testTest on road signs and traffic control seen on the highway, streets and walkway, Please, kindly check the back pages for the correct answers to the test questions contained in this the manua

The Semantic Web -- ISWC 2012

Thomas Jefferson

In v.1-8 the final number consists of the Commencement annual.

Nobody sang happy birthday to me when I turned eighteen. Instead, I was gifted a bargain-outlet suitcase to pack my belongings. They said that they needed the bed for another boy in need. I guess once you turn eighteen you're suddenly not considered a boy anymore. If only my shaking hands and panicked heart would get the message. But I would survive, as I had always done, despite my best efforts to the contrary. Having a home was overrated anyway. That's why couches are considered, summer wasn't such a bad time to be homeless in Boston. And, hey, without parental oversight, I could go anywhere I wanted. I could even go looking for that something that had always niggled in the back of my brain ... that fine line between pleasure and pain. Nobody would yell at me for being out beyond curfew, and nobody would call me a freak if I found someone to show me the ropes, literally. And if that creepy old codger, Vern, continued to follow me in the shadows, it was my problem.

Boost Your Confidence and Your Score! Score big with Moon Point Test Prep, a powerful new education and test preparation series created by licensed educators, experienced tutors, and industry pros. You'll gain exclusive access to advice and insider tips provided by our specialized team. We focus on the information you'll need to boost your confidence and your score on exam day.
