Follow Jamey Doan an Iowa farm boy, skilled with the rifle his gunsmith father made for him. He is thrown into the maelstrom of the Civil War in the west along the Mississippi River. His enemy at times is his family, a Mississippi cousin and uncle fighting for the Confederacy. His first battle is the little known northern most battle of the Civil War Athens Missouri. He battles his way down river to Vicksburg, fighting as a sniper and skirmisher in the Western Rifles. Jamey grasps the meaning of war and fights ferociously. He becomes a man of war but is still a boy when he finds love and the mysteries of women. This author leaves his readers anxiously awaiting the sequel which will follow, starting at Vicksburg, where this volume stops, as the Union Army moves south.

"I sailed my life on a ship" it's not just a book; it's a story that demands to be told. Ship may be romantic in movies like titanic but in real life, for a sailor it's a test of his mental and physical strength. The only romance there is the romance between sweaty engine rooms, pipelines, bilges and swearing seniors. Amid all this is a guy who is phobic, afraid and bound. But he does this one daring act. And this one act changes his course of life, it changes his thought process, it even changes his fears. Now he becomes something he always wanted to be. "I sailed my life on a ship" is not just a romantic book or an adventure. It's a story of change, self-discovery and one's fight with him.

I never thought that I would be a non smoker. I smoked over a pack a day and I loved every cigarette. But I did not like the fact that I was getting older and I was starting to have trouble breathing when walking distances or walking up the stairs. I would run and be out of breath in minutes. This book tells how I quit and how easy it actually was. It is much easier then you think. If you have tried various methods in the past this book will tell you why it has been so hard to quit before and guide you and give you some ideas on how to quit for good.

The Spectrum of Addiction discusses the full range of addictive behaviors and habits and focuses on clinical application in a variety of settings. Following the Diagnostic and Statistical Manual's (DSM-V) recent recategorization of addition, authors Laura Veach and Regina Moro teach clinicians-in-training to view addiction on a spectrum that ranges from experimentation to physical addiction and recovery and to take into consideration the degree to which individuals display addictive traits and behaviors. With its focus on evidence-based treatment approaches, presentation of addictive behaviors across the lifespan, and inclusion of clinical case narratives, The Spectrum of Addiction serves as a practical text for counselors, psychologists, and social workers.

The "Free The Mayor Campaign" was a success! But, how long can he remain a free man? Brick City's infamous kingpin known as the Mayor is shockingly released after serving twelve consecutive summers of the lifelong incarceration that he was originally sentenced to. He owes all thanks to his larger than life, ghetto fabulous attorney, Tony Austin. The twelve year layoff has the Mayor feeling as if the streets miss him and his prosperous hustle game. He feels that the game is in dire need of his expertise to pump life back into it. His hood politics are in order as he embarks on a new and improved campaign. He's been studying his blueprint for well over a decade and it's now time to go to work. His mission is simple and smooth, so he thinks, as he puts the wheels and soldiers in place to regain control of the city. The Mayor's plan seems to be hater and snitch proof for the moment, but that moment doesn't last very long. His primary goal is to restore the city and lift the recession his way. Nothing will stop him; not even the gang leaders who are now in control or the Feds who trail him step by step. He will stop at nothing until his operation takeover mission has been completed. Will his mission be completed or will he go down in history as just another used-to-be-kingpin whose time has run out?

The third edition of this popular reader reflects considerable changes. The framework for understanding theory as a set of conversations over time is maintained and deepened, pairing classical with contemporary readings to illustrate the ways in which theory continues to be reinterpreted over time. Volume I has been completely reorganized, with new contextual and biographical materials surrounding the primary readings, and end-of-chapter study guides that include key terms, discussion questions, and innovative classroom exercises. The result is a fresh and expansive take on social theory that foregrounds a plurality of perspectives and reflects contemporary trends in the field, while being an accessible and manageable teaching tool.

*"Not only one of the best books of the year, it's one of the most beautiful rock memoirs ever written . . . Her portrayal of Chesnutt is perfectly done." —NPR "Friend, asshole, angel, mutant," singer-songwriter Vic Chesnutt "came along and made us gross and broken people seem . . . I dunno, cooler, I guess." A quadriplegic who could play only simple chords on his guitar, Chesnutt recorded seventeen critically acclaimed albums before his death in 2009, including *About to Choke*, *North Star Deserter*, and *At the Cut*. In 2006, NPR placed him in the top five of the ten best living songwriters, along with Bob Dylan, Tom Waits, Paul McCartney, and Bruce Springsteen.*

Chesnutt's songs have also been covered by many prominent artists, including Madonna, the Smashing Pumpkins, R.E.M., Sparklehorse, Fugazi, and Neutral Milk Hotel. Kristin Hersh toured with Chesnutt for nearly a decade and they became close friends, bonding over a love of songwriting and mutual struggles with mental health. In Don't Suck, Don't Die, she describes many seemingly small moments they shared, their free-ranging conversations, and his tragic death. More memoir than biography, Hersh's book plumbs the sources of Chesnutt's pain and creativity more deeply than any conventional account of his life and recordings ever could. Chesnutt was difficult to understand and frequently difficult to be with, but, as Hersh reveals him, he was also wickedly funny and painfully perceptive. This intimate memoir is essential reading for anyone interested in the music or the artist. "The music made by the late Vic Chesnutt was evocative, haunting and often heartbreaking. Kristin Hersh's book about the singer-songwriter shares all of these qualities." —Rolling Stone

Don't Suck, Don't Die

Block Party 4 (Back 2 Bizness)

From the author of the bestselling Why We Suck comes a searing comic look at these divisive times, skewering liberals and conservatives alike with a signature dose of sarcasm and common sense. In an America so gluten-free that a box of jelly donuts is now a bigger threat than Vladimir Putin, where college kids are more afraid of Ann Coulter than HIV, it's time for someone to stand up and make us all smell the covfefe. Dr. Denis Leary is that guy. With Why We DON'T Suck: And How All of Us Need to Stop Being Such Partisan Little Bitches, Denis is on a devoted mission to #MakeAmericaLaughAgain. Using the clamorous political atmosphere as a starting point, he takes a bipartisan look at the topics we all hold so dear to our patriotic hearts—including family, freedom, and the seemingly endless search for fame and diet vodka. Denis will answer important questions like: When will Hillary blame herself? Why does Beyoncé think he's Bryan Adams? And why doesn't he follow the millennial lead and post pictures of his food on social media? (Spoiler alert: He's too busy actually eating it.) Not that Denis has anything against millennials: "When it comes to science, math, and technological advances, this generation has done more in three and a half decades than any other age group in history. What did my generation do? Cocaine and quaaludes mostly. With a side order of really stupid haircuts." Dr. Leary is here to remind us of what truly makes America great, even though we're #7 on the most recent list of Best Countries to Live In. Which may sound bad but means we still make the playoffs.

Margaret, Charlie, Virginia, Tracy, and Laquita are all drug users involved in regular criminal activity: prostitution, burglary, shoplifting, robbery, drug selling, petty theft, and various kinds of fraud. Four of the women are black; one is white and Puerto Rican. While all five have been involved in same-sex relationships, three are primarily straight and two are primarily lesbian. They come from working-class or welfare families; some women characterize their mothers as strict, abusive, intolerant, and distant while other mothers are characterized as concerned, religious, and loving. The women talk frankly about their drug use, their sexual and criminal activities, their childhoods, their school and work experiences, their neighborhoods, their personal relationships with their families of origin, children, and partners, their fears and future goals, and the ordinary trappings of their lives. While these accounts describe lives at the margins of society, they also reveal women who assert a control over their activities and talk of independent judgment in terms that we imagine are reserved for men. There is a tendency in criminology to treat the data generated by research on men as fundamentally true for women as well. By allowing female law-breakers to describe their lives in their own way, Pettway underlines not only their differences from men but also their differences from each other.
