When you start to explore the many different breeds of cats, you realise just a variety of breeds there is, and how different they are from

each other. Author Alison J Reid has spent months beaverin away in her studio, researching all different kinds of cats, domestic and wild. She has checked out their colourings and markings, and spent so much time trying to perfect their colourful, beautiful eyes. It became an obsession! It was only by researching the various details that make each breed so distinctive, that Alison has been able to capture each of their unique qualities and differences. Pattern, colour and shape are key, so capturing these details in felt was important. Luckily, there are so many different colours of felt available including fur-like mottled effects. Felt's non-fraying, double-sided, robust qualities make it easy to create all the little details that make each cat breed so unique and instantly

recognisable. She has also used small amounts of wool cur and roving to add texture for truly strokable results. Each pattern can be traced straight from the page (or enlarged if you want to sew a larger plush), and simple instructions mean that even beginners can get started. And because all the cats are sewn by hand, you don't need a sewing machine and can sit on the sofa with your cat while you sew. Whether you choose to sew just your own favourites, or make cats for other crazy cat people in your life, this book will provide hours of fun and inspiration.

Located in a haunting, windowless building in the middle of campus, the Devil's Den is so secretive that no one has ever been seen either entering or leaving its premises. But everything dramatically changes for Justin once he becomes ensnared by the Den and its intricate scheme. When he finally discovers the truth, the whole terrible truth, Justin finds himself in a race against the clock to foil the Devil's Den and to prevent the course of American history from being drastically altered.
