In order to effectively solve business problems, managers need to understand how managerial accounting can improve decision-making. This book lays the groundwork by presenting managerial accounting in a strategic framework. Each module examines cost estimation and planning decisions in both the short- and long-term context. Budgets are then discussed as devices

that connect planning and control decisions. Within each chapter, a specific decision problem is framed in a four-step manner. Throughout the pages, Chapter Connections ties the decision problems to concepts in earlier chapters. End-of-chapter material also provides a good balance of quantitative and qualitative problems. This approach enables managers to learn the linkages among seemingly unrelated decisions. This in-depth presentation of consolidation explains each topic with a discussion of contemporary accounting theory and practice. An

to show the development of financial reporting as a product of intense and considered debate that continues today and into the future. The writing style of the eleven previous editions has been highly praised. Students easily comprehend chapter concepts because of the conversational tone used throughout the book. The authors have made every effort to ensure that the writing style remains engaging, lively, and consistent which has made this text the market leading text in the Advanced Accounting market. The 12th edition includes an increased integration of IFRS as well as updated accounting standards.

If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of*
