Frank takes his revenge in the most ghastly ways imaginable - but there will be a terrible price to pay once his work is done. Destined to be a cult classic, this tale of corporate horror and demonic retribution will strike a chord with anyone who has ever been disgruntled at work.

On Zothique, the wizard Namirrha is out to take revenge on King Zotulla...

It's the story "They" don't want you to read. Though, to be fair, "They" are probably right about this one. To quote the Bible, "Learning the truth can be like loosening a necktie, only to realize it was the only thing keeping your head attached." No, don't put the book back on the shelf -- it is now your duty to purchase it to prevent others from reading it. Yes, it works with e-books, too, I don't have time to explain how. While investigating a fairly straightforward case of a shape-shifting interdimensional child predator, Dave, John and Amy realized there might actually be something weird going on. Together, they navigate a diabolically convoluted maze of illusions, lies, and their own incompetence in an attempt to uncover a terrible truth they -- like you -- would be better off not knowing. Your first impulse will be to think that a story this gruesome -- and, to be frank, stupid -- cannot possibly be true. That is precisely the reaction "They" are hoping for. John Dies at the Ends' "smart take on fear manages to tap into readers' existential dread on one page, then have them laughing the next" (Publishers Weekly) and This Book is Full of Spiders was "unlike any other book of the genre" (Washington Post). Now, New York Times bestselling author David Wong is back with What the Hell Did I Just Read, the third installment of this black-humored thriller series.

In the worlds of Steve Rascnic Tem a father takes his son “fishing” in the deepest part of downtown, flayed rabbits visit a suburban back yard, a man is haunted by a surrealistic nightmare of crutches, a father is unable to rescue his son from a nightmare of trees, a bereaved man transforms memories of his wife into performance art, great moving cliffs of detritus randomly prowl the world, a seemingly pointless life finds final expression in bits of folded paper, a nuclear holocaust brings about a new mythology, an isolated man discovers he’s part of a terrifying community, a photographer discovers the unexpected in the faces of dead children, and a couple’s aging dismantles reality. Winner of the World Fantasy, British Fantasy and Bram Stoker Awards, Tem has earned a reputation as one of the finest and most original short fiction writers of our time, blending elements of horror, dark fantasy, science fiction and surreal nightmare into a genre uniquely his own. This new volume collects for the first time thirty-five of Tem’s best tales, selected by the author, and includes an introduction by Simon Strantzias.

Fiction Inspired by David Lynch

A Novel

"A fractured mind is often the way into a world not suspected by those of an innocent normality." Enter the universe of renowned horror master Thomas Ligotti—a universe where clowns take part in a sinister winter festival, a scheming girlfriend makes reality itself come unraveled, a crumbling asylum's destruction unleashes a greater horror, and a mysterious Teatro comes and goes, leaving only shattered dreams in its wake. In the tradition of Edgar Allan Poe and H. P. Lovecraft, Ligotti's sophisticated tales of terror take us to places few would suspect exist, where madness is only a thought away. The Nightmare Factory adapts four of Ligotti's most chilling tales into fine graphic literature by famed writers and artists Stuart Moore, Joe Harris, Colleen Doran (The Sandman), Ben Templesmith (30 Days of Night), Ted McKeever (Batman), and Michael Gaydos (Alias). Featuring all-new introductions to each story by Thomas Ligotti.

We are proud to announce the updated version of Death Poems by Thomas Ligotti, with a whole new section of poetry titled "Closing Statements." Cover art and internal illustrations by the amazing Richard A. Kirk. Long out of print, Death Poems was originally produced in a very small edition by Durtro in 2004. This highly prized collection has been virtually unobtainable until now.

A newborn's absent face appears on the back of someone else's head, a filmmaker goes to gruesome lengths to achieve the silence he's after for his final scene, and a therapist begins, impossibly, to appear in a troubled patient's room late at night. In these stories of doubt, delusion, and paranoia, no belief, no claim to objectivity, is immune to the distortions of human perception. Here, self-deception is a means of justifying our most inhuman impulses—whether we know it or not.

Laird Barron has emerged as one of the strongest voices in modern horror and dark fantasy fiction, building on the eldritch tradition pioneered by writers such as H. P. Lovecraft, Peter Straub, and Thomas Ligotti. His stories have garnered critical acclaim and been reprinted in numerous year's best anthologies and nominated for multiple awards, including the Crawford, International Horror Guild, Shirley Jackson, Theodore Sturgeon, and World Fantasy Awards. His debut collection, The Imago Sequence and Other Stories, was the inaugural winner of the Shirley Jackson Award. He returns with his second collection, Occultation. Pitting ordinary men and women against a carnivorous, chaotic cosmos, Occultation's eight tales of terror (two never before published) include the Theodore Sturgeon and Shirley Jackson Award-nominated story "The Forest" and Shirley Jackson Award nominee "The Lagerstatte." Featuring an introduction by Michael Shea, Occultation brings more of the spine-chillingly sublime cosmic horror Laird Barron's fans have come to expect.

Horror legend Ray Russell's haunting and macabre stories, including "perhaps the finest example of the modern Gothic ever written" (Stephen King), with a foreword by acclaimed filmmaker Guillermo del Toro Haunted Castles

is the definitive, complete collection of Ray Russell's masterful Gothic horror stories, including the famously terrifying novella trio of "Sardonius," "Sanguinarius," and "Sagittarius." The characters that sprawl through Haunted Castles are frightful to the core: the heartless monster holding two lovers in limbo; the beautiful dame journeying down a damned road toward depravity (with the help of an evil gypsy); the man who must wear his fatal crimes on his face in the form of an awful smile. Engrossing, grotesque, and completely entrancing, Russell's Gothic tales are the best kind of dreadful. The title story of this collection — a devilishly ironic riff on H. P. Lovecraft's "Pickman's model" — was nominated for a World Fantasy Award, while "Probuscus" was nominated for an International Horror Guild award and reprinted in The Year's Best Fantasy and Horror 19. In addition to his previously published work, this collection contains an original story.

With themes reminiscent of Shirley Jackson, Thomas Ligotti, and Bruno Schulz, but with a strikingly unique vision, Jon Padgett's The Secret of Ventriloquism heralds the arrival of a significant new literary talent.

Padgett's work explores the mystery of human suffering, the agony of personal existence, and the ghastly means by which someone might achieve salvation from both. A bullied child who seeks vengeance within a bed's hollow box spring; a lucid dreamer haunted by an impossible house; a dummy that reveals its own anatomy in 20 simple steps; a stuttering librarian who holds the key to a mill town's unspeakable secrets; a commuter whose worldview is shattered by two words printed on a cardboard sign; an aspiring ventriloquist who spends a little too much time looking at himself in a mirror. And the presence that speaks through them all.

Ever since the first edition of Ligotti's "Songs of a Dead Dreamer" appeared in 1985, it was clear that here was an author of extraordinary brilliance. Now here is a book about him, a symposium of explorations and examinations of the Ligottian universe by leading critics.

In Thomas Ligotti's first nonfiction outing, an examination of the meaning (or meaninglessness) of life through an insightful, unsparing argument that proves the greatest horrors are not the products of our imagination but instead are found in reality. "There is a signature motif discernible in both works of philosophical pessimism and supernatural horror. It may be stated thus: Behind the scenes of life lurks something pernicious that makes a nightmare of our world." His fiction is known to be some of the most terrifying in the genre of supernatural horror, but Thomas Ligotti's first nonfiction book may be even scarier. Drawing on philosophy, literature, neuroscience, and other fields of study, Ligotti takes the penetrating lens of his imagination and turns it on his audience, causing them to grapple with the brutal reality that they are living a meaningless nightmare, and anyone who feels otherwise is simply acting out an optimistic fallacy. At once a guidebook to pessimistic thought and a relentless critique of humanity's employment of self-deception to cope with the pervasive suffering of their existence, The Conspiracy against the Human Race may just convince readers that there is more than a measure of truth in the despairing yet unexpectedly liberating negativity that is widely considered a hallmark of Ligotti's work.

First published in French in 1983, The Cathedral of Mistis is a collection of stories from the last of the great Francophone Belgian fantasists: distilled tales of distant journeys, buried memories and impossible architecture. Described here are the emotionally disturbed architectural plan for a palace of emptiness; the experience of snowfall in a bed in the middle of a Finnish forest; the memory chambers that fuel the marvelous futility of the endeavor to write; the beautiful woodland church, built of warm air currents and fog, scattering in storms and taking renewed shape at dusk, that gives this book its title. The Cathedral of Mistoffers the sort of ethereal narratives that might have come from the pen of a sorrowful, distinctly Belgian Italo Calvino. It is accompanied by two meditative essays on reading and writing that fall in the tradition of Marcel Proust and Julien Gracq. Paul Willems(1912–97) published his first novel, Everything Here Is Real, in 1941. Three more novels and, toward the end of his life, two collections of short stories bracketed his career as a playwright.

An intervention to prevent dragons from being lured to their deaths in the past is implemented since that method of trickery could also have been the means to kill the new dragon prince, Joyyah. He is born on Mother's Day, but not in the location Woolfred and Kira had planned. It became necessary to create a new world for the dragons (thanks Liponie) to prevent their capture by a relentless tracker. A plot to kill Commander Ashtar results in the deportation of Chu who are not residence of Earth. On the lighter side: Pootie gets a new life; Cardmah, a leprechaun, talks about gold and raspberry pie. The Swizzlers are successful at meditating-on chocolate-and are masters at skateboarding. They are happy to wear suspenders after they learn it is not necessary to expose a certain part of their anatomy. For the first time in one volume, a collection of Shirley Jackson's scariest stories, with a foreword by PEN/Hemingway Award winner Ottessa Moshfegh After the publication of her short story “The Lottery” in the New Yorker in 1948 received an unprecedented amount of attention, Shirley Jackson was quickly established as a master horror storyteller. This collection of classic and newly reprinted stories provides readers with more of her unsettling, dark tales, including the “The Possibility of Evil” and “The Summer People.” In these deliciously dark stories, the daily commute turns into a nightmarish game of hide and seek, the loving wife hides homicidal thoughts and the concerned citizen might just be an infamous serial killer. In the haunting world of Shirley Jackson, nothing is as it seems and nowhere is safe, from the city streets to the crumbling country pile, and from the small-town apartment to the dark, dark woods. There's something sinister in suburbia. For more than seventy years, Penguin has been the leading publisher of classic literature in the English-speaking world. A Novel of Cosmic Horror

From the fictional land of Carcosa that inspired the HBO show True Detective to H. P. Lovecraft ' s accursed New England hills, this collection features some of the most legendary landscapes of the cosmic horror genre. The collection includes the following twelve stories: Edgar Allan Poe, "MS. Found in a Bottle" Bram Stoker, "The Squaw" Ambrose Bierce, "Moxon's Master" Ambrose Bierce, "The Damned Thing" Ambrose Bierce, "An Inhabitant of Carcosa" R. W. Chambers, "The Repairer of Reputations" M. P. Shiel, "The House of Sounds" Arthur Machen, "The White People" Algernon Blackwood, "The Willows" Henry James, "The Jolly Corner" Walter de la Mare, "Seaton's Aunt" H. P. Lovecraft, "The Colour Out of Space" " The true weird tale has something more than a secret murder, bloody bones, or a sheeted form clanking chains. An atmosphere of breathless and unexplainable dread of outer, unknown forces must be present; a hint of that most terrible conception of the human brain—a malign and particular suspension or defeat of those fixed laws of Nature which are our only safeguard against the assaults of chaos and the daemons of unplumbed space. " —H. P. Lovecraft

Twelve stories by science fiction master Stanisław Lem, nine of them never before published in English. Of these twelve short stories by science fiction master Stanisław Lem, only three have previously appeared in English, making this the first "new" book of fiction by Lem since the late 1980s. The stories display the full range of Lem's intense curiosity about scientific ideas as well as his sardonic approach to human nature, presenting as multifarious a collection of mad scientists as any reader could wish for. Many of these stories feature artificial intelligences or artificial life forms, long a Lem preoccupation; some feature quite insane theories of cosmology or evolution. All are thought provoking and scathingly funny. Written from 1956 to 1993, the stories are arranged in chronological order. In the title story, "The Truth," a scientist in an insane asylum theorizes that the sun is alive; "The Journal" appears to be an account by an omnipotent being describing the creation of infinite universes—until, in a classic Lem twist, it turns out to be no such thing; in "An Enigma," beings debate whether offspring can be created without advanced degrees and design templates. Other stories feature a computer that can predict the future by 137 seconds, matter-destroying spores, a hunt in which the prey is a robot, and an electronic brain eager to go on the lam. These stories are peak Lem, exploring ideas and themes that resonate throughout his writing. A guidebook for communicating with the departed and gaining first-hand knowledge of life beyond death • Reveals that the easiest way to communicate with the departed is through dreams • Offers methods for helpful and timely communication with deceased loved ones • Provides powerful Active Dreaming practices from ancient and indigenous cultures for journeying beyond the gates of death for wisdom and healing We yearn for contact with departed loved ones. We miss them, ache for forgiveness or closure, and long for confirmation that there is life beyond physical death. In The Dreamer ' s Book of the Dead, Robert Moss explains that we have entirely natural contact with the departed in our dreams, when they come visiting and we may travel into their realms. As we become active dreamers, we can heal our relationship with the departed and move beyond the fear of death. We also can develop the skills to function as soul guides for others, helping the dying to approach the last stage of life with courage and grace, opening gates for their journeys beyond death, and even escorting them to the Other Side. Drawing on a wealth of personal experience as well as many ancient and indigenous traditions, Moss offers stories to inspire us and guide us. He shares his extraordinary visionary relationship with the poet W. B. Yeats, whose greatest ambition was to create a Western Book of the Dead, to feed the soul hunger of our times. Moss teaches us the truth of Chief Seattle ' s statement that "there is no death; we just change worlds."

A collection of favorite horror works includes the title story, in which the author introduces a small town under the siege of an existential darkness; and a variety of additional short works that follow a theme of confronting nightmares. Original.

The Witches' Book of the Dead

Before The Exorcist and Rosemary's Baby, there was The Case Against Satan By the twentieth century, the exorcism had all but vanished, wiped out by modern science and psychology. But Ray Russell—praised by Stephen King and Guillermo del Toro as a sophisticated practitioner of Gothic fiction—resurrected the ritual with his classic 1962 horror novel, The Case Against Satan, giving new rise to the exorcism on page, screen, and even in real life. Teenager Susan Garth was "a clean-talking sweet little girl" of high school age before she started having "fits"—a sudden aversion to churches and a newfound fondness for vulgarity. Then one night, she strips in front of the parish priest and sinks her nails into his throat. If not madness, then the answer must be demonic possession. To vanquish the Devil, Bishop Crimmings recruits Father Gregory Sargent, a younger priest with a taste for modern ideas and brandy. As the two men fight not just the darkness tormenting Susan but also one another, a soul-chilling revelation lurks in the shadows—one that knows that the darkest evil goes by many names. The distinguished Hungarian author Frigyes Karinthy was sitting in a Budapest café, wondering whether to write a long-planned monograph on modern man or a new play, when he was disturbed by the roaring—so loud as to drown out all other noises—of a passing train. Soon it was gone, only to be succeeded by another. And another. Strange, Karinthy thought, it had been years since Budapest had streetcars. Only then did he realize he was suffering from an auditory hallucination of extraordinary intensity. What in fact Karinthy was suffering from was a brain tumor, not cancerous but hardly benign, though it was only much later—after spells of giddiness, fainting fits, friends remarking that his handwriting had altered, and books going blank before his eyes—that he consulted a doctor and embarked on a series of examinations that would lead to brain surgery. Karinthy's description of his descent into illness and his observations of his symptoms, thoughts, and feelings, as well as of his friends' and doctors' varied responses to his predicament, are exact and engrossing and entirely free of self-pity. A Journey Round My Skull is not only an extraordinary piece of medical testimony, but a powerful work of literature—one that dances brilliantly on the edge of extinction.

Only book ever published on the artwork of Harry O. Morris, legendary artist whose work has defined horror fiction illustration.

A definitive edition of stories by the master of supernatural fiction Howard Phillips Lovecraft's unique contribution to American literature was a melding of traditional supernaturalism (derived chiefly from Edgar Allan Poe) with the genre of science fiction that emerged in the early 1920s. This Penguin Classics edition brings together a dozen of the master's tales—from his early short stories "Under the Pyramids" (originally ghostwritten for Harry Houdini) and "The Music of Erich Zann" (which Lovecraft ranked second among his own favorites) through his more fully developed works, "The Dunwich Horror," The Case of Charles Dexter Ward, and At the Mountains of Madness. The second volume in a series of revised editions of the horror story collections of Thomas Ligotti.

Since the early years of the twenty-first century, Matt Cardin has distinguished himself by writing weird fiction with a distinctively cosmic and spiritual focus, publishing two short story collections that have now become rare collector's items.

In this substantial volume, Cardin gathers the totality of his short fiction, including the complete fiction contents of *Divinations of the Deep* (2002) and *Dark Awakenings* (2010). Several of the tales have been substantially revised from their original appearances. Inspired by H. P. Lovecraft, Thomas Ligotti, and other masters of cosmic horror, Cardin's fiction explores the convergence of religion, horror, and art in a cosmos that may be actively hostile to our species. In tales long and short (including a new novella co-written with Mark McLaughlin), Cardin rings a succession of changes on those fateful words from the *Book of Job*: "Let those sorcerers who place a curse on days curse that day, those who are skilled to rouse Leviathan." Aside from his short story collections, Matt Cardin is the editor of *Born to Fear: Interviews with Thomas Ligotti* (2014) and *Horror Literature through History* (2017). He is also co-editor of the journal *Vastarien*.

The spirits of the dead can confer magical talents, fame, love, and wealth on those brave enough to beseech them. In *The Witches' Book of the Dead*, modern-day Warlock Christian Day shows you how to build relationships with the spirits of your beloved dead that they may help you discover hidden opportunities and bring blessings and aid to your life. By turns bizarre, unsettling, spooky, and sublime, Ancient Sorceries and Other Weird Stories showcases nine incomparable stories from master conjuror Algernon Blackwood. Evoking the uncanny spiritual forces of Nature, Blackwood's writings all tread the nebulous borderland between fantasy, awe, wonder, and horror. Here Blackwood displays his best and most disturbing work—including "The Willows," which Lovecraft singled out as "the single finest weird tale in literature"; "The Wendigo"; "The Insanity of Jones"; and "Sand." Thomas Ligotti is often cited as the most curious and remarkable figure in horror literature since H. P. Lovecraft. His work is noted by critics for its display of an exceptionally grotesque imagination and accomplished prose style. In his stories, Ligotti has followed a literary tradition that began with Edgar Allan Poe, portraying characters that are outside of anything that might be called normal life, depicting strange locales far off the beaten track, and rendering a grim vision of human existence as a perpetual nightmare.

The horror stories collected in Teatro Grottesco feature tormented individuals who play out their doom in various odd little towns, as well as in dark sectors frequented by sinister and often blackly comical eccentrics. The cycle of narratives introduce readers to a freakish community of artists who encounter demonic perils that ultimately engulf their lives.

"We're doomed." So begins the work of the philosopher whose unabashed and aphoristic indictments of the human condition have been cropping up recently in popular culture. Today we find ourselves in an increasingly inhospitable world that is, at the same time, starkly indifferent to our species-specific hopes, desires, and disappointments. In the Anthropocene, pessimism is felt everywhere but rarely given its proper place. Though pessimism may be, as Eugene Thacker says, the lowest form of philosophy, it may also contain an enigma central to understanding the horizon of the human. Written in a series of fragments, aphorisms, and prose poems, Thacker's Cosmic Pessimism explores the varieties of pessimism and its often-conflicted relation to philosophy. "Crying, laughing, sleeping—what other responses are adequate to a life that is so indifferent?"

For over thirty-five years, David Lynch has remained one of the weirdest, most challenging, and provocative filmmakers. From his early experimental films created as an art student in Philadelphia, to his foray into digital film with "Inland Empire," Lynch's filmography is as diverse as it is influential. Featuring Thomas Ligotti, John Skipp, David J (of Bauhaus), Ben Loory, Nick Mamatas, Amelia Gray, Kevin Sampsell, Blake Butler, and many others, "In Heaven, Everything is Fine: Fiction Inspired by David Lynch" is a tribute to one of the greatest filmmakers of all time.

With Jordan Peele's Twilight Zone reboot arriving, read the stories that inspired some of the show's greatest episodes, including "The Howling Man"! The profoundly original and wildly entertaining short stories of a legendary Twilight Zone writer, with a foreword by Ray Bradbury and an afterword by William Shatner It is only natural that Charles Beaumont would make a name for himself crafting scripts for The Twilight Zone—for his was an imagination so limitless it must have emerged from some other dimension. Perchance to Dream contains a selection of Beaumont's finest stories, including seven that he later adapted for Twilight Zone episodes. Beaumont dreamed up fantasies so vast and varied they burst through the walls of whatever box might contain them. Supernatural, horror, noir, science fiction, fantasy, pulp, and more: all were equally at home in his wondrous mind. These are stories where lions stalk the plains, classic cars rove the streets, and spacecraft hover just overhead. Here roam musicians, magicians, vampires, monsters, toreros, extraterrestrials, androids, and perhaps even the Devil himself. With dizzying feats of master storytelling and joyously eccentric humor, Beaumont transformed his nightmares and reveries into impeccably crafted stories that leave themselves indelibly stamped upon the walls of the mind. In Beaumont's hands, nothing is impossible: it all seems plausible, even likely. "[Beaumont's] imagination, as Perchance to Dream amply shows, was more than most writers enjoy in the longest of lifetimes." -NPR For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world.
