There are few creative acts more mysterious and magical than writing a song. But what if the goal wasn't so mysterious and was actually achievable for anyone who wants to experience more magic and creativity in their life? That's something that anyone will be inspired to do after reading Jeff Tweedy's How to Write One Song. Why one song? Because the difference between one song and many songs isn't a cute semantic trick—it's an important distinction that can simplify a notoriously confusing art form. The idea of becoming a capital-S songwriter can seem daunting, but approached as a focused, self-contained event, the mystery and fear subsides, and songwriting becomes an exciting pursuit. And then there is the energizing, nourishing creativity that can open up. How to Write One Song brings readers into the intimate process of writing one song—lyrics, music, and putting it all together—and accesses the deep sense of wonder that remains at the heart of this curious, yet incredibly fulfilling, artistic act. But it's equally about the importance of making creativity part of your life every day, and of experiencing the hope, inspiration, and joy available to anyone who's willing to get started.

The art of songwriting combines many skills. In terms of music, a songwriter or a songwriting team must tackle song structure, melody, harmony, rhythm, and instrumentation. Beyond these musical components, songwriters must also tackle lyric writing. While there's no unifying secret to writing great lyrics, developing a writing process can keep you focused from the first line to the last. The book has purposefully been designed for those who want to learn how to write a song but don't know where to start from. It literally packs everything there is to know about writing a great song, from its structure to its thought process, nothing essential is left out. This book skipped all those boring essentials and have kept everything to the point, so you can easily & instantly apply the knowledge you learn from the book, into your practical life.

An effective and inspiring guide to songwriting by prolific, iconic singer-songwriter Dar Williams. How to Write a Song That Matters is an invaluable guide to writing music by a woman who knows how to do it and do it well: iconic singer-songwriter, Dar Williams. For years now, Williams has led songwriting retreats for musicians, from beginners to professionals, in which she elevates the process of songwriting over the assessment of the product. This book makes those intimate experiences accessible for songwriters across the globe, gifting them with the insight Williams has gleaned from her decades of experience. First, it encourages songwriters to find something that inspires them and then to follow that inspiration, letting the clues of those first few notes or lines lead their narrative. Soon, the initial rhythms, the unique sounds of the melody, and/or specific vocabulary emerge, giving birth to a "voice" or a "world" that the song can exist in. As the writer proceeds, Williams encourages them to ask themselves: "Where did I go? Where did I REALLY go? What happened? What REALLY happened? What am I bringing back?" There are many other songwriting guides that hint to the reader that writing a "hit song" may be on the horizon if only the reader correctly follows the guide or program. In this book, however, Williams shows readers how to tap into their OWN creative process, using their psyches, their unique life experiences, and their muses to write the songs that they are meant to write. By focusing on the process of creating a song that matters, as opposed to producing a well-constructed "widget from a song factory," songwriters will be able to establish their own voice and use it to make meaningful music. Perfect for music lovers of all sorts who want to write songs. How to Write a Song That Matters is a one-of-a-kind-book that readers will turn to for guidance time and time again.

Songwriting is a skill that can be learned by anyone. In my 25 years of teaching, 100% of my students who wanted to write songs, did learn to write songs. Most of them were complete beginners who had never even written part of a song. They simply studied the information in this book, did the recommended exercises, and within months were writing songs. If you have no idea how to write songs right now, don't worry. It's easier than you think. You don't need to read music or play an instrument. All you need to get started is the ability to hum a melody. You will also need a phone or tablet with a recording app. Many hit songs are written with nothing more than a recording app on cell phone. Pretty simple! The good news is you don't need to read and write music in order to be a great songwriter. Check out these songwriters who never learned to read music: Michael Jackson, Paul McCartney, Taylor Swift, Eric Clapton, the Beatles, Eddie Van Halen, Bob Dylan, Jimi Hendrix, Slash, Stevie Wonder, and Lionel Richie. They didn't learn to read music because it was never necessary. It's not necessary for you either. I started off just like you. I had a desire to write songs but had never written one. My first few songs were pretty raw, and I would be embarrassed to have you hear them now. But over the years, I developed my writing to the point of getting my songs and jingles on TV, radio, Spotify, iTunes, and most of the major streaming services. I even had one of my songs placed in a movie. I was not gifted with extraordinary talents. I just studied with some of the industry's top professional songwriters and kept writing. The more I wrote, the better my songs became. If I can do that, so can you. Here's another way to look at it. If you were stuck on a deserted island, and the only way you could get off was to read this book and write three good songs, I guarantee that you would write three good songs. It's just a matter of learning the craft, and putting in the time. Nothing magical. If you're just starting out as a songwriter, your first few songs will be rough. That's normal! It doesn't mean you're a bad songwriter. It just means you're a beginning songwriter. If you stick with it, you'll get better. Start writing and keep writing.Even if your complete beginner you will learn how to.1. Write great lyrics2. Create awesome melodies for your lyrics3. Record your first dem4. Get your songs heard by industry pros5. Copyright your songs John Ford is the founder of the John Ford School of Voice. For 25 years, he and his staff have helped thousands of people to sing, perform, and write songs better than they ever dreamed possible. Most of these students were complete beginners when they started.
